VALLEY JOE.

BY ZENO.

There lived a man between two hills,
Mid snakes and snipes and whip-poor-
wills,
Down in a valley, hills all 'round,
And never went to church or town,
Was quite unlearned, was rough and
rude,
Content to work for his clothes and food
He made his bread and raised his meat,
And what he raised the same he ate.
He bought no oil to give him light,
But went to bed as soon as night,
And his it was—and Oh! how blest—
To work, to eat, and then to rest.

What used had he for science or art,
While with his slaves so far apart?
Why should he quit his blessed peace,
On which, for life, he held a lease?
Or why, in Arctic region freeze,
And lose such comforts as he knew?
Why should he make the task his own,
To count the stars, or weigh the moon?
Who would not rather plough the field,
Than sit and ponder what he yield,
Than try to analyze the sun?
Which would not feed him, though
twere done.

The land was his, he paid no rents,
And seldom went beyond his fence,
But stayed at home, and so much so
His neighbors called him "Valley Joe."
He ate, he rested and he wrought,
And had no cause to fear the govt.,
Oh! thrice blest Joe. Freed from re-
straints:
Nor lost by politics nor bets,
Of all life gives, he had the best,
To work, to eat, and then to rest.

But Valley Joe, like other men
Grew tired of toil, and then—
You should not ask "why," just now.
He knew not, neither do I know.
But, as with Adam, so with Joe,
For Adam's in it all, you know.
The same that led our Mother, Eve,
Her home in Paradise to leave,
The same it is into this day,
Who leads our simple hearts astray.
But Milton wrote of them you know,
So I'll return to Valley Joe.

He knew that valley every spot;
And thought he knew what he did not.
He thought that he knew how he mistook!
The road to glory had no crook,
He thought that he knew what was wrong,
The sun was shining all night long,
On top the hill, but no oh no,
A sad mistake, poor Valley Joe.

Thus Valley Joe with fervent will,
Starts on a journey up the hill,
To view the world which he lives
And drink the sweets (if which knowl-
edge gives.
Is often struck with change of scenes,
And puzzled how to cross ravines,
From thence to thence his fancies drift,
From bubbling spring, to rocky cliffs;
Still o'er the rocks, and down the steps,
He climbs up here, then down he leaps,
Still plagues his weary head with
Which the hill-top high or head;
Until, with weary feet and eyes,
He stops and looks in great surprise:
Half admiration, half in flight,
He sees the hill-top closed in white,
Twas something new to Valley Joe,
To see this mountain capped with snow.

He never knew he found to please,
He found himself about to freeze,
He would have returned; but oh! poor Joe!
He did know which way to go.
At his head, "Let come," he will,
"My motto shall be far as I will."
For who turns back is sure to lose,
And ere he knows he has been crossed,
This ice he treads, and reach the top,
With this resolve he starts again,
He presses on and soon has past,
The rugged place is sealed at last,
Then to the village straight he goes,
To sup, and give his limbs repose.

Some disappointments still in store
For Valley Joe, but these he bore,
They all in one would not compare
With climbing up that winding stair,
He ne'er became a man of fame,
To such the honors made no claim,
An honest man, well worthy trust,
Who viewed false pride with much disgust,
Who did a thing because 'twas right,
To younger men, a noble light.

The last we heard of Valley Joe,
He lived and was at well to do,
And often told his story and
To some poor simple minded lad,
"And when I came to die," says he,
I want my friends, who'er they be,
To place these words above my head,
That those who pass that way may read
"Oh! man, remember that way blessed
If thou canst work, and eat, and rest."

Alas! Poor Hog.

The hog is an unfortunate factor in the welfare of Greenville, and has, unfortunately, been the cause of some unkind feeling among their owners in the community. That his presence upon the streets of Greenville is a nuisance was long ago established beyond contradiction, and in order to expunge the same the guardians of the peace and framers of the statutes did, a few years past, declare against his privileges of the town at large, and ordained that he should either be kept in by his owner or be run in by the police, with certain fines and penalties attached in case it became necessary to resort to the latter.

Cardidly speaking, this law was as it should be. To a certain extent it was just and proper. The streets, sidewalks, and yards of the town were kept up at no inconsiderable expense and to see these rooters frequently destroying property worth many times their value brought vexations, annoyances, and loss to which the people did not care to submit. To obviate such the citizens of the town, having rights to that extent, made demand of the Councilmen for relief, hence the hog was declared a nuisance and ordinances enacted against him. So far, so good.

But there were defects in the execution of these laws. Certain additional fees were allowed to the officers for impounding, feeding, and advertising each hog, and of course their exchequer was increased according to the number of swine taken. This, too, might have been well enough had not the law, as it sometimes is, been abused. At one time the town had police officers who were said to go outside and drive hogs belonging to the country people adjacent within the corporate limits, when they would be impounded solely for the purpose of obtaining the fees. To assist them in this kind of work idle boys were sometimes employed to go out and drive the hogs into town. This was wrong, in fact it was an outrage of the grossest nature. Of course some hogs running at large in the country came into town of their own accord, and the damage they did was as great as that caused by the town hogs. In obeying the injunctions of the law all hogs fared alike by being impounded, but the owners in the country not being apprised of what had befallen their hogs until they should chance to come to town would find a good size bill of cost attached to each porker, sometimes the cost being larger in value than the hog. This together with the action of the officers as above referred to, occasioned numerous complaints and the country people began casting about in search of relief.

In this they had the sympathy and aid of some of the town people, for while all were agreed that the hogs should be kept off the streets, many believed there should have been some distinction in the law so that it would not fall so heavily on the country people.

Early in 1887 a petition for relief in some way was circulated for signatures and forwarded to the General Assembly then in session, but that body took no action upon it. No more was then heard of it, but when the last Legislature was in session the matter seems to have been again worked up privately—at least so far as the town having any knowledge of it was concerned. At any rate we are not informed that the citizens of the town were cognizant of such a movement until it was announced through the papers that Mr. Cherry, our Representative, had

piloted a bill through which prohibited the impounding of stock in the town of Greenville. While this bill applied only to the stock of non-residents, it was at first misunderstood, and persons thinking it had a general application turned out their stock, and since then the hogs have had possession of the town very much to the annoyance and inconvenience of the citizens. A bowl of indignation went up against the hog, and there were criticisms against Mr. Cherry. The censure against him, however, would have been well enough omitted, for he is a man of honest purpose, and we believe his intentions in this matter were good, even though he acted without thoroughly understanding every side of the question. He knew that the country people wanted relief, which they did and should have. Their being subject to frequent cost on account of the impounding of their stock was a hardship, but it was a still greater hardship upon the citizens of the town to have the streets and their premises damaged by the hogs. The hogs should not have been allowed on the streets, but the country people might have been relieved from paying so much cost on their stock.

As said further back, the hogs have had possession of the town since that bill passed, the old Board of Councilmen taking no steps to keep them off the streets. But the new Board determined to abate the nuisance at once, and passed ordinances looking to that end, which are published on our first page. We think their action would have met the desired ends just as well and as effectually if they had omitted the five dollars for registering the mark. It will be rather hard on the country people if any of them have this to pay—which of course they will not do if their hogs are kept out of town. But the hogs should be kept off the streets, which is all that is desired, and there should be no ill will on the part of anyone. The rights of both town and country should be duly respected and each should be unwilling to see any hardship inflicted upon the other.

Married.
One of the most beautiful marriages ever witnessed was solemnized at Berea Church, six miles from Greenville, on the evening of the 22nd. The church was beautifully lighted and magnificently decorated, all things in perfect order and readiness. Promptly at nine o'clock a silence fell upon the crowded audience, while Edgar N. Hatton led by H. B. Harris, and Miss Penne E. Langley led by her father, Mr. T. H. Langley, approached the altar where the young couple were united in the holy bonds of wedlock. Rev. R. B. Gilliam officiating.

The attendants were D. S. Langley and Miss Emma Hatton, J. A. Hatton and Miss Maggie Daniel, J. R. Moore and Miss Cammie Daniel, B. D. Langley and Miss Maggie Moore, T. M. Moore and Miss Lida Moore, Will H. Moore and Miss Mattie Albritton.

Many beautiful and valuable presents were given by their many friends. Mr. Hatton recently embarked upon the mercantile sea and we hope ere long to see him sail into the haven of success and there rest in the cooling shades of contentment.

For the success and happiness of the young couple we desire to extend our warmest wishes.

"In the world's broad field of battle,
In the liveliest of life,
Be not a selfish bachelor,
Be a hero—take a wife."

The church at Berea was brilliant in array. On the twenty-second night in the month of May, to receive a wedded couple, Edgar and Penne, the witnesses around were a great many. Let me congratulate you, Mr. E. N. Hatton. For the occasion is one that will not soon be forgotten. The marriage was beautiful and gay, and it occurred on the twenty-second of May. The couples that waited were the number of six. Among that number were six lovely little tricks: Two dressed in pink, two in blue, and two in white. All costumes were most comely suited to the night. The bride wore cream albatross. And was so beautiful in her dress. Eddie too was finely dressed in a fine pink shirt and comely vest. How often I think of my little cousin Penne. May her pleasures be sweet, may they be many. All her troubles be small and few, This is the wish I make for you. May the wing of your happiness ne'er lose a feather, And live as angels while on earth together. And when you part to worlds unknown, May the Lord claim you as His own.

Washington Letter.

(From our regular Correspondent.)
WASHINGTON, D. C., May 24, '89.
"Harrison was a week back bone," said a republican Senator, "and it is constantly growing weaker. There is every indication that we are to have a repetition of the worse features in the Hayes and Arthur administrations." This language was used by a man who is generally regarded as being very friendly to the administration, and there is no doubt that he is, but he was asked by a republican friend his opinion of the President and he gave it without reserve. And the known facts in a number of cases bear the Senator's statement as to a weak back bone out. For instance he wants to put his old law partner Attorney General Miller in the Supreme Court bench, but owing to a vigorous protest from the Indiana Republicans, who want Judge Woods of that State appointed, he does nothing. Again: In the early days of the administration John W. Wainwright selected a business man of Philadelphia to be Postmaster at that city, and Mr. Harrison lacked the nerve to make the appointment. And again: Some time ago John Sherman was promised that Ex-congressman Hart, of Ohio, should be appointed Solicitor General, Hart was telegraphed to and told to come on and get the appointment. Quay made a big row accusing Sherman of lying, etc., and intimating that the administration might go to—Jericho, for all he cared. Once more Harrison's back bone went back on him and Hart's appointment has not yet been made out. The cases mentioned are all well known, doubtless there are many similar ones that the public never hears of, but these are sufficient to prove that the Senator's indictment is a true one.

Oklahoma can't have a national bank. So says the Attorney General to whom the application was referred by the Treasury department. Some absurd rumors about the sending of an English man of war to Alaskan waters to prevent the provisions of Harrison's recent proclamation, as to the seizure of all vessels loaded illegally taking seals from being carried out, forcibly unnecessary, have been floating around here this week but nobody seemed to take any stock in them.

Justice Miller of the Supreme Court, having failed in his purpose of getting ex-Secretary of War McCrary, appointed as his successor, or rather in getting a promise to that effect from Harrison, now says that he has no intention of retiring.

Washington has been the scene of some very heavy fighting among some of the big fellows in the Republican party during the present week. Blows have been passed that will be remembered for years and revenged too, if the opportunity comes, and it most always does come when patiently waited for. The cause of the fighting is the same thing that always causes strife among the leaders—distribution of the patronage. The first skirmish was between Representative Cannon, of Illinois and Senators Cullum and Farwell of the same state. Cannon got one of his constituents appointed collector of internal revenue without consulting either of the Senators. Cannon has the best of it so far but the Senators swear vengeance. The next engagement was a battle royal that has raged all the week. It is over the Philadelphia Federal appointments. On one side is "Cheap John" Wainwright, Representative Harry Bingham and Boss McManes, and on the other Senator Quay alone, with all his war paint on. The fight has been carried to the White House nearly every day and poor Harrison has been compelled to act as referee much against his will. This fight is still on, with the result in doubt. Another engagement was caused by a U. S. Marshalship in New York, Senator Evans dared to oppose the candidate of Senator Hiseock and Boss Tom Platt, and not only to oppose the other candidate but to have one of his own. The three met here this week and indulged in a few rounds. Evans is believed to have been completely knocked out. It seems to be generally believed by the Republicans that Harrison will call an extra session of Congress in October. Of course everybody knows that there is no earthly occasion for an extra session except to give the Republicans two months to fight over the organization of the House and perfect their arrangements to get at least three-fourths of the contested seats.

Blaine, Windom and Proctor deny that they propose resigning, as was rumored.

Many people from Washington, have gone to Alexandria to-day to witness the unveiling of a handsome monument to the Confederate dead.

Large Suit
A very important case, Smith against Quinry was called up for trial here yesterday before Mr. B. O. Burton, Jr., of Halifax, as referee. It is a suit by J. K. Smith, Administrator of Samuel Smith, and others against S. S. Quinry and others, and involves property amounting to more than \$20,000. It will probably take the remainder of the week to dispose of the case.

Entertaining Comments on Topics of Interest.
(Our special correspondence.)
NEW YORK, May 22, '89.
The most important topic of discussion in the metropolis at present is the proposed great EPISCOPAL CATHEDRAL to be erected at 110th St., and Manhattan Ave. Out of the sixty-three plans which were submitted to the trustees by competing architects, four have been selected and set apart for elaboration. These four designs will be immediately returned to the successful architects, and they will be given about a year in which to elaborate them, after which the trustees will make a final decision. The design which is admitted to be the best was made by architects W. A. Potter and E. H. Robertson. It may be generally described as Gothic and is based upon the union of a single-span nave, with a choir of the usual arrangement of nave and choir. The body of the church consists of a central square eighty-six feet square, and four lesser spaces each forty-four feet square, at the four faces of the central square, forming an auditorium of 21,000, square feet of floor, unobstructed by columns and capable of seating 3,000 people within radius of 116 feet. Four towers, each 430 feet high, arise at the four corners of the nave with an entrance in each, and on the high ground at One Hundred and Tenth street could be seen for many miles. The trustees hope to have the cathedral completed during their lifetime and wish to make it the finest church edifice in America for the next two centuries.

The long felt necessity for increased facilities in the NEW YORK POST OFFICE is now receiving attention at the hands of Postmaster Van Cett, who has asked for an additional appropriation of \$250,000. The amount of work done at this office is simply enormous, and it is stated that about one-eighth of the entire postal business of the country is transacted here. It is apparent to nearly any one doing mail business at this office, that the working force is entirely insufficient and the sooner relief is given the better. I have known it to take several days for letters to go from the general office to the upper portions of the city; when one hour should be ample time. Every branch of the service is affected in a similar way, and it is even impossible to buy more than a dollar's worth of stamps after four o'clock. It is hoped that the facilities will be increased, so that all business can be transacted with reasonable speed.

Considerable excitement has been caused this week, on account of the dissection of the body of WASHINGTON IRVING BISHOP, the mind reader, before it was well established whether he was dead or alive. The relatives of Bishop have had the doctors arrested, and they will be tried either for manslaughter or for a misdemeanor—the former in case Bishop was alive, the latter if it be shown he was dead. It is the common verdict that the doctors were in too much of a hurry any way and not much sympathy is shown them in their present dilemma. A second autopsy has been held which has not thrown any more light on the subject, but has only served to give the doctors another chance to disgrace.

It has been often remarked that New York will never be finished. I am forcibly reminded of this saying when I see the additions that are constantly being made to the GREAT BRIDGE which connects us with our overgrown suburb across the East River. This bridge which was supposed to have been finished on May 24th, 1883, has been "extended" and added to nearly every year since and still the cry is for more "extension." More than 33 million passengers crossed it last year and the number is expected to reach 40 million this year. The proposed extension will cost \$400,000, and we hope this will serve for another year when we shall probably again hear the perennial cry of more "extension."

A force of hands in charge of the policemen have been doing considerable work on the streets during the past week. The streets are going to be kept in good order. And sanitary measures are receiving a generous share of attention, for all of which the people are thankful.

Stationary.

A young lady remarked the other day, that the only decent envelopes she could find were at the REFLECTOR office. We have been carrying a small supply of very nice cards, envelopes and note paper. If the ladies will call and what they desire is not kept in stock we will gladly order it for them. Give us the patronage to justify and we will order such a stock of stationary as to supply your wants at all times.

Up With the Times

This town goes right ahead in the buggy manufacturing business and brings out as many improvements and as good work as any town can boast. We saw a handsome top buggy, the other day, made by the Greenville Carriage Works for Mr. J. R. Spier, that will compare with any work to be found. This buggy was fitted with a novel and convenient back boot, the invention of Mr. Greene that is the best thing of the kind we ever saw.

A Feast.

Our generous friend, Mr. N. R. Cory, of Coville, came into our office last Thursday, and told us to get a box and follow him to his buggy, as he had some strawberries for us. We started for an envelope box when he accosted us to get a box that would hold something—a peak or half bushel. His orders were obeyed and we left his buggy with the biggest and nicest lot of strawberries we ever possessed. That's what we call clever and our friend has our very best thanks.

He is a Virginian, but now resides in St. Louis, Mo. When he entered the ministry he joined the Virginia Conference, and filled some of its chief appointments. He was a chaplain in the Confederate army and was greatly beloved by the soldiers, because of his fidelity and bravery. He received a painful and dangerous wound, losing one eye thereby. At the time of his election to the episcopacy, he was a professor in the theological department of Vanderbilt University. He is one of the ripest scholars and best preachers of his church. We are glad this community is to have an opportunity of hearing him.

Wednesday morning at 11 o'clock annual address by Hon Kemp P. Battle. Mr. O. L. Joyner is chief marshal with Messrs R. M. Moye, H. C. Edwards and J. R. Walker, assistants.

Among the Journals.

The past week has brought many items of interest concerning several of our exchanges. The first, which came like a bomb shell, was the announcement that Dr. T. B. Kingsbury had withdrawn from the editorial staff of the Wilmington Star. He is the leading editor and ablest writer in the State, and there was for awhile some anxiety as to whether or not he would be called to other fields. His place on the Star has been supplied by Maj. P. F. Duff, formerly of the Greensboro Patriot, who ranks high as a writer and scholar.

The Wilmington Messenger has been purchased entire by that always enterprising, go-ahead newspaper man, Mr. J. A. Bonitz. Though he says the Messenger has been conducted as a daily for two years at an annual loss of \$10,000, he has just dressed it in a brand new set of type and declares the new arrangement such as to make the paper self-sustaining. The latest success of the Messenger is the announcement that Dr. Kingsbury has been added to its editorial staff. Fortunate paper! It is useless to make further predictions as to its success.

The Tribune of Pamlico, is a new venture in journalism from Bayboro. It makes a good beginning and promises to be a faithful exponent of our eastern section.

The Waynesville Courier is with pleasure added to our exchange list. We visited that beautiful town six years ago, and the Courier reminds us of many of the pleasant surroundings and clever people.

The Smithfield Herald has arisen from the ashes and is now coming in its usual size. An entire new outfit had to be purchased, but the brethren went to work with a determination to rise and so they have done.

All the above bays the very best wishes of the REFLECTOR for success.

NO SHAM!

Higgs & Munford, Greenville, N. C.

Unity of action and a harmonious support of home institutions goes a long way in building up a town.

We certainly have had a series of storms during the last week or two. But the heaviest rain fall for a few minutes was on Monday evening. It came down in torrents for a while and the streets were flooded. It lasted only a short while.

Almost an Accident.

On last Saturday while a couple of men were skimming out in front of Skinner's saw mill a log being hauled up on the slide gave way and went thundering down in the water striking in the net and going through demolishing it completely. Nobody hurt but a terrible scare for the skimmers.

PEARLINE

Is better than any soap; handier, finer, more effective, more for the money, and in the form of a powder for your convenience. Takes, as it were, the fabric in one hand, the dirt in the other, and lays them apart—comparatively speaking, washing with little work. As it saves the worst of the work, so it saves the worst of the wear. It isn't the use of clothes that makes them old before their time; it is rubbing and straining, getting the dirt out by main strength. For scrubbing, house-cleaning, washing dishes, windows and glassware, Pearline has no equal.

Over One Million Families Use it.

Beware

Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearline, or "the same as Pearline." IT'S FALSE. They are not, and besides are dangerous. Manufactured by JAMES PYLE, New York. Sold by all good grocers.
