Poetry.

Draw nigh, and a tale I will try to  
unfold,  
That ought to be written in letters of  
gold.  
Of the beautiful system that God has de-  
vised,  
Whereby man can obtain a new home in  
the skies.

Where in garments as spotless as fresh,  
tallen snow,  
And bodies in fashion like his, you must  
know.

The true ones of earth who have follow-  
ed his lead,  
Obeyed his injunctions in thought, word  
and deed.

Will evermore dwell in celestial joy,  
Where tears, nor sorrows, nor cares can  
ally.

Where night can not come, nor day ever  
end,  
But with God and his Son eternally spend  
their time.

What bliss to be there in the midst of  
that throng,  
With voices attuned to the heavenly  
song.

To worship the Lamb in the midst of the  
throne,  
And with the dear Saviour be ever at  
home.

We weak ones of earth, without merit  
or ought,  
To commend us to him who eternal life  
brought.

Can, by walking in paths where the Sa-  
viour has trod,  
Reach heaven at last and dwell with our  
God.

What does Christ require of sinners ere  
he will  
pardon bestow, and from sin set  
them free?

An implicit faith in himself as God's  
son,  
A repentance, that shows in all the acts  
of life.

This repentance embraces a full change  
of heart,  
Thinking, feeling and acting, all play  
their part.

With the mind is confessed, the great  
truth believed,  
And now to the other command he re-  
ceived,

The sinner is ready, having died to his  
sin,  
"Nearer the watery grave to be buried  
with him;

Resurrected, he walks in newness of life  
With the gift of the Spirit he's armed  
for the strife.

Over flesh and the world, over Satan and  
sin,  
Victory he gains with God's help within;  
He is strengthened, he grows in knowl-  
edge and grace.

With his eye on the goal, he is running  
the race.  
With the law of the Saviour forever be-  
fore him.

He ceases not ever to love and adore him,  
Having put the deeds of the old man  
aside.

Anger, wrath, malice and whatever be-  
side  
Belonged to the works of the flesh and  
the devil.

With affections above, he will cease to  
do evil,  
With the milk of the word he is nur-  
sured and fed.

With the Spirit of God he is evermore  
led.  
With God as his father and Christ as his  
brother.

With the Spirit's true guidance, he  
needeth none other;  
With the milk of the word he pursueth  
his way.

To the regions of bliss, he's ending day.

Cholera has become epidemic in  
the village of Bergholz, six miles  
east of Harlem Springs, Ohio. The

"A Kansas woman predicts that the  
world will come to an end  
November 19th." Not exactly, but  
a good part of the Republican party  
will come to an end a short while  
before—on election day.—Fayette-  
ville Observer.

A stray balloon, to which was at-  
tached a rope and bag of sand, was  
captured by farmers about five  
miles north of Utica, N. Y., Thurs-  
day evening. The rope looked as if  
the basket had been cut off. The  
balloon is a very large one.

John Dillion M. P. and Wm.  
O'Brien Editor "United Ireland"  
were arrested in Dublin last Thurs-  
day on the charge of inciting ten-  
ants not to pay rent. But the real  
cause was to prevent these gentle-  
men visiting America in the inter-  
ests of the Irish cause.

A Milwaukee, Wis., paper com-  
menting upon a marriage at a fair  
in Zanesville, in that State, protests  
against "making a circus of the  
marriage ceremony." We have had  
a couple of circuses of that kind in  
this State, and efforts are being  
made to have some more of them  
this fall. A very little of that kind  
of performance ought to go a long  
way.—Wilmington Star.

"Senator Hampton, of South Car-  
olina, says that while he will accept  
a re-election to the Senate, if so ho-  
mored, he will not ask for it. He says  
he has never asked for an office,  
and that it is too late to begin now."

This is characteristic of the unself-  
ish patriot, but it is dreadfully old-  
fashioned—hardly less so, in fact,  
than would be a man walking the  
streets in knee breeches, silk waist-  
coat and powdered hair. The Ham-  
pton breed of politicians is dying out  
very fast.—Fayetteville Observer.

"The world do move." The splen-  
did ocean steamer, the Teutonic,  
made its last voyage in 5 days, 20  
hours, 54 minutes—a fraction over  
21 miles per hour throughout the  
whole journey, over 500 miles hav-  
ing been traversed in the best day's  
run. The old-time railroad speed  
for water travel, a mile a minute for  
the rail, and blooded horses trained  
almost to fly—where are we going  
to stop? It would not surprise us to  
hear of an ox cart galloping into  
town with a load of wood at the  
rate of 12 or 15 miles an hour.—  
Fayetteville Observer.

A Georgia editor borrowed a mule  
to plow his garden. When quiet was  
restored the editor was found under  
an out-house, four panels of fence  
were gone, and the mule was eating  
roasting ears in a neighboring truck  
patch.

The Sword of Damocles!

Raleigh Chronicle.  
No thinking, respectable man can  
contemplate the effects—the horrors—  
of one Radical Legislature in North  
Carolina without a shudder.

What does it mean? Where does  
it lead? What are its effects finan-  
cially, economically, in the home  
circle, for the tax payer, for the poor  
and self-respecting white man and  
his wife and little ones?

It means that hereafter each Judi-  
cial district will vote for its own  
judge as now it does for its own so-  
licitor. What does this mean? It  
means that George W. White, the  
present colored solicitor of the Sec-  
ond district, will be elected a judge  
of the Superior Court of North Car-  
olina. Article 4, section 21, of the  
State Constitution. Bear in mind,  
this colored judge will ride every  
district in North Carolina. He will  
preside in haughty Asheville, and he  
will preside by the sea, in Dare.

Surely the Radicals will not nomi-  
nate a negro for judge? Well, per-  
haps not, and yet they have a negro  
from the Second district in Congress,  
and they have a negro State's attor-  
ney, whose duty is nearly as respon-  
sible as that of a judge. Are the  
white men of North Carolina ready  
to have a negro on the bench? Are  
they ready to have the delicate rights  
and duties of themselves to each other,  
and the privileges of their wives and  
children, as between themselves and  
their colored neighbors, passed upon  
by a negro?

Again: The next Legislature will  
divide the State into Senatorial Dis-  
tricts. This was done in 1881, (See  
Laws 1881—chapter 296.) and is to  
be done each ten years. By combi-  
nation and gerrymandering the State  
will be so redistricted that for ten  
years to come the Legislature will, at  
all hazards, go Radical, and with it  
goes the credit of the State, and with  
it goes the character of Raleigh, Wil-  
mington, Charlotte, Durham, Ashe-  
ville, Fayetteville, New Bern, and  
other Eastern towns and cities and  
with their charters go the prosperity  
of these cities.

The next Legislature redistricts  
the Congressional Districts of North  
Carolina, and, by gerrymandering,  
the State will vote certainly half, prob-  
ably three-fourths, of her Congress-  
men and four-fifths of her representa-  
tives. Read—of the odious Force  
Bill—and of the status of  
northern Congressmen, at Southern  
industries.

Again the Radical Legislature  
means the repeal of chapter 17, sec-  
tion 716 and of chapter 22, section  
819 of the Code of North Carolina,  
which means that chaos, hell and  
confusion, shall again break loose  
and reign supreme in Bertie, Halifax,  
Northampton, Vance, Craven, Pas-  
quotank, Granville, Hertford, War-  
ren, Washington, Currituck, Edge-  
combe, New Hanover and Wake.

Shall these things be? Shall the  
finances of the State be thrown into  
irresponsible hands again? Shall  
county script again fall to 25 and 50  
cents on the dollar in these counties?

Again a Radical Legislature  
means the defeat of Vance, and when  
this tribune of the people shall fall,  
this man who has incurred the dis-  
pleasure of hydra-headed monopolies  
and who has grown old and poor and  
blind in his fight for the rights of  
the oppressed against the rich—  
when this man falls, who will dare  
to champion the cause of the poor  
and the needy, seeing how little  
the reward for duty does?

Again and above all, it means that  
North Carolina has taken a step  
backward. Its moral effect will be  
great for evil. It means that the in-  
evitable conflict between white and  
black is nearing. It means that the  
van guard of the black and the rear  
guard of the white have met. It  
will give the negro a false idea of his  
own position in the State. It will  
re-open the old wounds of 1865—1870.  
It will turn the head of the colored  
man from business to politics. It  
will make him insolent and stiff-necked.  
It will affect every household in  
the State. The farm hand and  
nurse, the house maid, and even the  
cook in the kitchen, will feel licens-  
ed to greater freedom and incompe-  
tency.

In the name of the great State of  
North Carolina—her business rela-  
tions and her rising tide of prosper-  
ity—in the name of that Peace and  
Security we now enjoy and of that  
Confusion and Shame which we  
should seek to shun—the Chronicle  
calls upon each man in the State to  
rouse himself, and to each woman in  
the State to help in the good cause by  
her work, her example and prayers  
in the interest of good government  
and Democracy.

An Editor's Dream

Exchange

The editor sat on a hard-bottom  
chair trying to think of a thought,  
and he plucked all his fingers about  
through his hair, but not one topic  
they brought. He had written on  
temperance, tariff and trade, and the  
prospects of making a crop and  
joked about ice cream and weak  
lemonade, till his readers had told  
him to stop. And weary of thinking,  
sleep came to his eyes, and he pil-  
lowed his head on his desk, when the  
thoughts which, awake, had re-  
fused to arise, came in troops that  
were strong and grotesque. And as  
the ideas slowly float he select the  
bright one of the tribe, and this is  
the gem which, while dreaming, he  
wrote: "Now is the time to sub-  
sorb."

New York Letter.

NEW YORK'S NEW CENSUS—QUEER  
OCCUPATION—AN INTERNATIONAL  
CONGRESS OF REPUBLICANS.

(Regular Correspondent.)  
New York, Sept. 29, 1890.

At a request of the Board of  
Health, Mayor Grant has taken  
steps to have a recount of the in-  
habitants of this city. The fact  
that the death rate as ascertained  
by the Board of Health, was out of  
proportion to the population accord-  
ing to the U. S. Census, impelled  
him to make a new one, which  
they did by enumerating the inhab-  
itants of the Second Ward. Here  
the Board found a discrepancy of  
nearly 30 per cent. The U. S. Census  
being 274 less than that of the Board  
of Health. From calculations based  
on these figures the Board requests  
the Mayor to order a new census  
which will be forthcoming be-  
fore the work of enumeration will  
be done by a force of 1000 police-  
men, who will be detailed each to  
look after the particular neighbor-  
hood in which he is most acquaint-  
ed. They will take the name, age,  
sex and residence of each person.  
The count will be made by election  
districts, the same as was the U. S.  
census. It is expected that the new  
count will be finished in three weeks  
after which you can pay your money  
and take your choice.

THE FIRE PROPHECY.  
New York contains many a man  
who follows some queer occupation,  
but perhaps none was more queer  
than that of a man who died recent-  
ly and whose calling was to furnish  
"tip" to insurance companies. The  
secret of his phenomenal success is  
a mystery, as his methods were  
most carefully concealed. His busi-  
ness was run somewhat on the  
order of the commercial agencies,  
and he called it the Public Adjust-  
ing Bureau. By some means he was  
able to furnish in advance correct  
information concerning fires about  
to occur, and the companies paid  
liberally for the information. In  
every case the fires took place as  
predicted. The information was of  
course very valuable to the compa-  
nies and it is said they profited by  
his predictions in every case except  
one. In that case the fire occurred  
as usual, and the company lost  
money by failing to heed the warn-  
ing. Whether he was in collusion  
with incendiaries or not is unknown  
as no evidence of crime could be  
obtained against him.

TO HARMONIZE REPUBLICANS.  
A number of prominent gentle-  
men in this vicinity are engaged in  
the work of bringing about Interna-  
tional Congress of Republics to be  
held in this country sometime in the  
future, perhaps in 1893. The idea is  
to have delegates from all the repub-  
lics of the world and from countries  
that are not yet republics. The pur-  
pose to harmonize all republics and  
to educate the inhabitants of other  
nations as to their rights as a peo-  
ple. The questions to be considered  
are important ones and if the con-  
gress is properly conducted it will  
do much for a great benefit. Mr.  
W. O. McDowell, who originated  
the idea, has submitted a list of  
questions to the committee which  
are of vital interest. Among them  
are the expansion of the Monroe  
doctrine, the disarmament of na-  
tions, the labor question, &c. The  
committee will be increased to 100  
members, to be selected from the  
most prominent citizens of New  
York.

EDWIN ARLINGTON.

Fault-Finding.

Home Journal

Don't get in the habit of it. It's the  
easiest thing to do and the hardest  
thing to stop in the wide, wide  
world. It ruins your temper and  
spoils the shape of your mouth.

Try and see the good rather than  
the disagreeable in the people and  
your surroundings. You would not  
go to a friend's house and find fault  
with what she does and with what  
she has and her way of living. What  
right have you, then, to find fault  
with those who are more than  
freeds to you—the people of your  
own blood? If there is a grace that  
we are all stinging with, it is that  
of giving praise, and yet it is one with  
which we ought to be lavish. Why  
should you tell your friend that her  
bonnet is becoming, when you have  
never said this to your sister?

Why should you go out to tea and  
praise your neighbor's muffins,  
when you have forgotten to tell  
mother how good hers were? Why  
should you announce how much Mr.  
Wilson over the way knows, when  
farther is a great deal better in-  
formed man, and it has never entered  
your little head to whisper civility  
to him how you appreciate his wis-  
dom? You keep your ability to dis-  
cover faults for the home, while the  
eye that should look for virtue is  
closed tightly until you go out!

Don't wait till some one is gone  
from you to tell their virtues. Don't  
wait until your sister is far away in  
another land to tell her how helpful,  
how pretty or how courteous she is,  
and don't wait until the weary  
hands are crossed and the long  
sleep comes, before you make  
mother know what beautiful blue  
her eyes, how tender her heart,  
and how dearly you love her. Tell  
it all now—now, when the walk  
through life is hard, and the sun-  
shine of praise is yearned for to  
brighten it, and to warm and en-  
courage the pilgrim by the wayside.

Profits of Fruit Culture.

North Carolina as Good for it as California.

Nashville Argonaut.

The San Francisco correspondent  
of the New York Tribune writing of  
the profits of fruit culture in Cal-  
ifornia, says:

"Few persons have any idea of  
the profit in fruit growing on the  
rich lands of the Sacramento and  
San Joaquin Valleys. Here are a  
few figures, well attested, of net  
returns from a Tulare county (Cal-  
ifornia) fruit ranch five years old:  
Apricot trees netted \$211 per acre;  
peaches \$339; French prunes, six  
years old, \$600 an acre, and raisins  
\$240 per acre.

Any fruit which will grow in Cal-  
ifornia can be raised in North Car-  
olina, and on account of the lower  
price at which land can be obtained  
and labor employed, land can be  
cultivated with greater profit. For  
the cultivation of the grape, and  
manufacture of the wine, the superi-  
ority of our soil and climate has  
been fully demonstrated. On ac-  
count of the great crops of tobacco  
and cotton which have always been  
the leading crops of the South, and  
in the cultivation of which our peo-  
ple have been reared, their atten-  
tion has not been directed to the  
smaller crops and but little attention  
has been given to them. But the  
order of things is beginning to  
change, and people are learning  
that they can profitably add as sec-  
ondary crops, many crops which  
have heretofore been neglected.

When we are talking of our mag-  
nificent mineral resources, and fore-  
casting the wonderful developments  
which will certainly be made in this  
direction, and pointing with pride  
to the splendid growth of our man-  
ufacturing enterprises, we should  
not forget to direct attention to our  
great agricultural resources. With  
a climate and soil which enables us  
to cultivate, with profit, a greater  
variety of products than any other  
territory in the world, of the same  
area, we will in the near future see  
our State rivaling any other section  
in the cultivation of fruits and  
grapes, and our farmers, the wealth-  
iest and most prosperous in the  
world. This is no flight of imagi-  
nation, but a result as sure to follow  
as the flowing of a stream down hill,  
or an effect following an adequate  
cause.

We are all Akin.

Concord Standard.

So closely connected is the com-  
mercial world that a jar on either  
side it is felt around the world.  
The railroads have extended their  
lines and the steamships increased  
their speed until now the once far  
off nations are our near neighbors,  
and nothing can happen to the in-  
jury of one without injuring certain  
classes of all the others. In the  
failure of the wheat crop in our  
western and northwestern States,  
the prices immediately advanced,  
throughout the world. Strange to  
say, too, that such was not the  
state of affairs until our own won-  
derful nineteenth century gave to  
the world her numerous valuable  
inventions.

Let a railroad wreck occur on any  
of the important lines, and the mails  
are stopped and commerce trembles  
with the crash and the ever hur-  
rying world has its surging waves  
of humanity checked from one side  
of the continent to the other. The  
world will soon be one vast human  
family, bound by ties which cannot  
be broken, and agreeing, at least,  
that their many interests and varied  
industries bind them

Poetry.

THE GOSPEL IN VERSE.

Draw nigh, and a tale I will try to unfold.  
That ought to be written in letters of gold.  
Of the beautiful system that God has devised,  
Whereby man can obtain a new home in the skies.  
Where in garments as spotless as fresh,  
And bodies in fashion like his, you must know.  
The true ones of earth who have followed  
ed his lead.  
Obeyed his injunctions in thought, word and deed:  
Will evermore dwell in celestial joy.  
Where tears, nor sorrows, nor cares can alloy.  
Where night can not come, nor day ever end.  
But with God and his Son eternally spend.  
What bliss to be there in the midst of  
that throng,  
With voices attuned to the heavenly song:  
To worship the Lamb in the midst of the throne.  
And with the dear Saviour be ever at home.  
We weak ones of earth, without merit or ought,  
To commend us to him who eternal life bought.  
Can, by walking in paths where the Saviour has trod,  
Reach heaven at last and dwell with our God.  
What does Christ require of sinners ere he  
Will pardon bestow, and from sin set them free?  
An implicit faith in himself as God's Son.  
A repentance, that shows in all the acts done;  
This repentance embraces a full change of heart,  
Thinking, feeling and acting, all pay their part.  
With the mouth is confessed, the great truth believed.  
And now to the other command he received,  
The sinner is ready, having died to his sin,  
'Neath the watery grave to be buried with him;  
Resurrected, he walks in newness of life  
With the gift of the Spirit he's armed for the strife.  
Over flesh and the world, over Satan and sin,  
Vict'ry he gains with God's help within;  
He is strengthened, he grows in knowledge and grace.  
With his eye on the goal, he is running the race.  
With the law of the Saviour forever before him,  
He ceases not ever to love and adore him,  
Having put the deeds of the old man aside,  
Anger, wrath, malice and whatever be- side  
Belonged to the works of the flesh and the devil,  
With affections above, he will cease to do evil.  
With the milk of the word he is nursed and fed,  
With the Spirit of God he is evermore led.  
With God as his father and Christ as his brother,  
With the Spirit's true guidance, he needs no other;  
With the saints of the earth he pursueth his way,  
To the regions of bliss, ne'er ending day.

The Sword of Damocles!

Raleigh Chronicle.

No thinking, respectable man can contemplate the effects—the horrors—of one Radical Legislature in North Carolina without a shudder!

What does it mean? Where does it lead? What are its effects financially, economically, in the home circle, for the tax payer, for the poor and self-respecting white man and his wife and little ones?

It means that hereafter each Judicial district will vote for its own judge as now it does for its own solicitor. What does this mean? It means that George W. White, the present colored solicitor of the Second district, will be elected a judge of the Superior Court of North Carolina. Article 4, section 21, of the State Constitution. Bear in mind, this colored judge will ride every district in North Carolina. He will preside by the sea, in Dare.

Surely the Radicals will not nominate a negro for judge? Well, perhaps not, and yet they have a negro from the Second district in Congress, and they have a negro State's attorney, whose duty is nearly as responsible as that of a judge. Are the white men of North Carolina ready to have a negro on the bench? Are they ready to have the delicate rights and duties of themselves to each other, and the privileges of their wives and children, as between themselves and their colored neighbors, passed upon by a negro?

Again: The next Legislature will divide the State into Senatorial Districts. This was done in 1881, (See Laws 1881—chapter 296.) and is to be done each ten years. By combination and gerrymandering the State will be so redivided that for ten years to come the Legislature will, at all hazards, go Radical, and with it goes the credit of the State, and with it goes the character of Raleigh, Wilmington, Charlotte, Durham, Asheville, Fayetteville, New Bern, and other Eastern towns and cities and with their charters go the prosperity of these cities.

The next Legislature redistricts the Congressional Districts of North Carolina, and by gerrymandering, the order of the commercial agencies, and he called it the Public Adjusting Bureau. By some means he was able to furnish in advance correct information concerning fires about to occur, and the companies paid liberally for the information. In every case the fires took place as predicted. The information was of course very valuable to the companies and it is said they profited by his predictions in every case except one. In that case the fire occurred as usual, and the company lost money by failing to heed the warning. Whether he was in collusion with incendiaries or not is unknown as no evidence of crime could be obtained against him.

A number of prominent gentlemen in this vicinity are engaged in the work of bringing about International Congress of Republics to be held in this country sometime in the future, perhaps in 1893. The idea is to have delegates from all the republics of the world and from countries that are not yet republics. The purpose to harmonize all republics and to educate the inhabitants of other nations as to their rights as a people. The questions to be considered are important ones and if the congress is properly conducted it will no doubt be a great benefit. Mr. W. O. McDowell, who originated the idea, has submitted a list of questions to the committee which are of vital interest. Among them are the expansion of the Monroe doctrine, the disarmament of nations, the labor question, &c. The congress will be increased to 100 members, to be selected from the most prominent citizens of New York.

New York Letter.

NEW YORK'S NEW CENSUS—QUEER OCCUPATION—AN INTERNATIONAL CONGRESS OF REPUBLICS.

(Regular Correspondent.)  
New York, Sept. 29, 1890.

At a request of the Board of Health, Mayor Grant has taken steps to have a recount of the inhabitants of this city. The fact that the death rate as ascertained by the Board of Health, was out of proportion to the population according to the U. S. Census, impelled the Board to make a test, which they did by enumerating the inhabitants of the Second Ward. Here the Board found a discrepancy of nearly 30 per cent. The U. S. Census being 274 less than that of the Board of Health. From calculations based on these figures the Board requests the Mayor to order a new census which will be forthcoming by the end of the year.

The work of enumeration will be done by a force of 1000 policemen, who will be detailed each to look after the particular neighborhood in which he is most acquainted. They will take the name, age, sex and residence of each person. The count will be made by election districts, the same as was the U. S. census. It is expected that the new count will be finished in three weeks after which you can pay your money and take your choice.

THE FIRE PROPHECY.

New York contains many a man who follows some queer occupation, but perhaps none was more queer than that of a man who died recently and whose calling was to furnish "tips" to insurance companies. The secret of his phenomenal success is a mystery, as his methods were most carefully concealed. His business was run somewhat on the order of the commercial agencies, and he called it the Public Adjusting Bureau. By some means he was able to furnish in advance correct information concerning fires about to occur, and the companies paid liberally for the information. In every case the fires took place as predicted. The information was of course very valuable to the companies and it is said they profited by his predictions in every case except one. In that case the fire occurred as usual, and the company lost money by failing to heed the warning. NEW YORK'S NEW CENSUS—QUEER OCCUPATION—AN INTERNATIONAL CONGRESS OF REPUBLICS.

(Regular Correspondent.)  
New York, Sept. 29, 1890.

At a request of the Board of Health, Mayor Grant has taken steps to have a recount of the inhabitants of this city. The fact that the death rate as ascertained by the Board of Health, was out of proportion to the population according to the U. S. Census, impelled the Board to make a test, which they did by enumerating the inhabitants of the Second Ward. Here the Board found a discrepancy of nearly 30 per cent. The U. S. Census being 274 less than that of the Board of Health. From calculations based on these figures the Board requests the Mayor to order a new census which will be forthcoming by the end of the year.

The work of enumeration will be done by a force of 1000 policemen, who will be detailed each to look after the particular neighborhood in which he is most acquainted. They will take the name, age, sex and residence of each person. The count will be made by election districts, the same as was the U. S. census. It is expected that the new count will be finished in three weeks after which you can pay your money and take your choice.

THE FIRE PROPHECY.

New York contains many a man who follows some queer occupation, but perhaps none was more queer than that of a man who died recently and whose calling was to furnish "tips" to insurance companies. The secret of his phenomenal success is a mystery, as his methods were most carefully concealed. His business was run somewhat on the order of the commercial agencies, and he called it the Public Adjusting Bureau. By some means he was able to furnish in advance correct information concerning fires about to occur, and the companies paid liberally for the information. In every case the fires took place as predicted. The information was of course very valuable to the companies and it is said they profited by his predictions in every case except one. In that case the fire occurred as usual, and the company lost money by failing to heed the warning. Whether he was in collusion with incendiaries or not is unknown as no evidence of crime could be obtained against him.

A number of prominent gentlemen in this vicinity are engaged in the work of bringing about International Congress of Republics to be held in this country sometime in the future, perhaps in 1893. The idea is to have delegates from all the republics of the world and from countries that are not yet republics. The purpose to harmonize all republics and to educate the inhabitants of other nations as to their rights as a people. The questions to be considered are important ones and if the congress is properly conducted it will no doubt be a great benefit. Mr. W. O. McDowell, who originated the idea, has submitted a list of questions to the committee which are of vital interest. Among them are the expansion of the Monroe doctrine, the disarmament of nations, the labor question, &c. The congress will be increased to 100 members, to be selected from the most prominent citizens of New York.

Profits of Fruit Culture.

North Carolina as Good for it as California.

Nashville Argonaut.

The San Francisco correspondent of the New York Tribune writing of the profits of fruit culture in California, says:

"Few persons have any idea of the profit in fruit growing on the rich lands of the Sacramento and San Joaquin Valleys. Here are a few figures, well attested, of net returns from a Tulare county (California) fruit ranch five years old: Apricot trees netted \$211 per acre; peaches \$350; French prunes, six years old, \$600 an acre, and raisins \$240 per acre.

Any fruit which will grow in California can be raised in North Carolina, and on account of the lower price at which land can be obtained and labor employed, land can be cultivated with greater profit. For the cultivation of the grape, and manufacture of the wine, the superiority of our soil and climate has been fully demonstrated. On account of the great crops of tobacco and cotton which have always been the leading crops of the South, and in the cultivation of which our people have been reared, their attention has not been directed to the smaller crops and but little attention has been given to them. But the order of things is beginning to change, and people are learning that they can profitably add as secondary crops, many crops which have heretofore been neglected.

When we are talking of our magnificent mineral resources, and forecasting the wonderful developments which will certainly be made in this direction, and pointing with pride to the splendid growth of our manufacturing enterprises, we should not forget to direct attention to our grand agricultural resources. With a climate and soil which enables us to cultivate, with profit, a greater variety of products than any other territory in the world, of the same area, we will in the near future see our State rivaling any other section in the cultivation of fruits and grapes, and our farmers, the wealthiest and most prosperous in the world. This is no flight of imagination, but a result as sure to follow as the flowing of a stream down hill, or an effect following an adequate cause.

What is the chasm that often separates friends? Sarcasm.

Mrs. Cumso (at 2 a. m.)—Wake up, John! There are burglars in the house.

Cumso (drowsily)—Well, what of it? I expect there are thieves in the Senate, too.

Wife—Do you know, Alonzo, you snore frightfully late?

ENTERED AT THE POST OFFICE AT GREENVILLE, N. C., AS SECOND-CLASS MAIL MATTER.

WEDNESDAY, OCTOBER 1st, 1890.

Congress decided to take a final adjournment yesterday. That was the best piece of work they have done during the session.

Mr. T. B. Eldridge, a very able editor who has presided over the Durham Globe since it was revived last spring, has severed his connection with that paper. The press of the State can ill afford to lose Mr. Eldridge and we hope soon to see him in editorial harness again. It is rumored that he will be succeeded on the Globe by Mr. Al. Fairbrother, of Nebraska. Mr. Fairbrother came down to our State some time ago and took as a bride a very popular young lady—Miss Mamie Hatchett—who is now showing her influence and good work by bringing him back as a citizen of North Carolina.

They had a big time in Raleigh, last week, a great, rousing, Democratic rally, which will have an effect for warming up the Democracy from one end of the good old State to the other. And, really, things need warming along this line, and every effort made to arouse white men to a sense of their duty. There is an article on the front page of the REFLECTOR to-day, taken from the Raleigh Chronicle that tells a few things the people of North Carolina may expect if by their negligence and indifference they allow the Republican party to get control of the State Legislature. There is much to fear along this line and Democrats should be vigilant. The enemies will stoop to any depth of corruption in order to defeat the good government instituted and maintained by the Democracy and once more get the State under their own control. Reader, if you are a WHITE MAN (mark the word) go to the polls and protect your family by voting the Democratic ticket.

Frank Gilliam, a colored Republican of Currituck county has taken the field as an independent Republican candidate for Congress and proposes to canvass the district, and will do so, until there shall be a Republican Convention to nominate a regular candidate, before which Convention he will be a candidate for the nomination.—Elizabeth City Economist.

This is a right strong rebuke to the few white bosses who rubbed their heads together in secret over at Elizabeth City and set up C. M. Bernard as the nominee (?) of the Republican party. At the convention of colored men in Raleigh recently they declared that "we are the Republican party," and demanded that they should be recognized, but down here in First District they have ignored the negroes entirely and did not ask who they wanted for their party candidate. If a handful of Gilliam's friends got together and asked him to run, he has just as much right to be called the nominee of the Republican party as Bernard has, as they both seem to be in the same boat as to the manner of their getting before the people. However, Gilliam is honest enough to call himself just what he is, and says he is "an independent Republican candidate" and proposes to be in the field until there shall be a Republican convention to nominate a regular candidate. As the matter now stands he has as much right in the field as the other man, and he has the best claim to the support of his party, for his color is the right shade to make him a Republican from principal.

## Washington Letter.

From Our Regular Correspondent.

WASHINGTON, D. C., Sept. 26, 1890.

"Might makes right" has always been the motto of the republican party. But it has never so openly lived up to the brigandish theory as during this session of Congress, and the action of the majority of the House this week has been more revolutionary than ever before. When, after a three weeks struggle the republicans succeeded in mustering a quorum of their own, it was of course expected that they would seat the negro contestant Langston, whose case had been pending for more than two weeks; but that they would attempt to seat negro number two, without having given any previous notice of any intention to call up the case, and without allowing one word of argument, no one outside of those in the plot had the remotest idea. Well, that is exactly what was done. The Speaker ordered the South Carolina contested case of Miller vs Elliott to be called up, and in exactly thirteen minutes the House had seated Col. Elliott and given his seat to the negro Miller. Several republicans, notably Representative Kerr, of Iowa, tried to persuade the Speaker to allow both sides to be heard before taking a vote, but the republicans hooted them down and proceeded to consummate the legislative disgrace. Privately, republicans apologizing for their unseemly haste, say that they feared they could not hold the quorum for any length of time.

The tariff bill has been reported from conference and while in some respects it is better than it was passed by the Senate it is on the whole, the most atrocious piece of tariff legislation ever conceived by the republican party, and that is saying a great deal. It was only by the use of the party whip that an agreement was reached in conference, and about one fourth of the republicans privately curse the bill, which they say robs their constituents, but when a vote is taken every one of these men will be found smilingly voting for the bill as reported from the conference. There has been considerable talk about the democrats in the Senate taking advantage of the rules of that body to debate the report on the tariff bill until the first week in November in order to prevent the calling of an extra session for the purpose of passing the Force bill, but no such programme has yet been agreed upon, although in certain contingencies it may be done. Anything would be excusable and allowable to beat the force bill.

Mr. Morton, the gentleman who presides over the Senate when he has nothing more pressing to do, seems to be a little slow in keeping up with the news procession. In spite of the fact that nine-tenths of the papers in the United States, aside from the cringing republican organs, last winter printed something about the bar-room in Mr. Morton's new hotel here, then just opened, and that the V. C. T. U. in national convention assembled passed a resolution censuring him for selling liquor by the drink he had just discovered that drinks were sold in his hotel, and at the same time he announced that he had at once ordered the sale stopped. If it were not for the honorable position he holds I should be inclined to call Mr. Morton a hypocrite.

The Senate has amended and passed the bill intended to make the United States Courts a part of the machinery of the republican party, although ostensibly its object is to define and regulate the jurisdiction of the United States Courts. There are now three negroes sitting as members of House of Representatives, two of them in stolen seats. The season for booming summer resorts being about over, and that for winter resorts being not yet open Mr. Harrison and his family returned to Washington.

It has been decided by the House committee on the Judiciary to make a favorable report on the bill, which has already passed the Senate, forfeiting the property of the Mormon church. There is a screw loose in the Raum vindication, and one of the republican members of the committee is said to be opposed to the proposed white-washing. He is being "argued" with; hence the delay in making the report.

The House has voted without a division to expunge the speech wherein Mr. Kennedy called Senator Quay a modern Judas Iscariot and a felon, from the Record, and Mr. Kennedy made another speech stating that he was glad he made the first one, and that he still stood by his original language. Mr. Quay has been so busy trying to save his nomination for governor of Pennsylvania from defeat that he has not had time to give the public his opinion. Representative Flower doesn't seem to be worrying over the adverse criticisms of his management of the democratic Congressional campaign. He says wait until the returns are in and see the result of the committee's work.

Dr. H. O. Hyatt returned from Bennettville, S. C. Tuesday, where he had been for the last two weeks. Dr. Hyatt is giving the eye, ear, nose and throat special, attention and is well fitted up for the treatment of diseases of those organs. He will remain at home continuing for several months, he being as much professional work as he can well attend to here. He keeps a stock of the finest spectacles lenses of American and European manufacture. Whenever he fits a pair of glasses he guarantees the fit and the quality of his lenses, and agrees to refund the price of his glasses when ever they are returned within a reasonable time. This is certainly a square way of doing business.—Kinston Free Press.

## How Tobacco Culture was Introduced into Pitt.

MR. EDITOR:—I see in the last issue of the REFLECTOR that a writer giving as his signature, "Farnville" suggests to the tobacco growers of Pitt county, that they contribute a sufficient amount to buy and present to Mr. G. F. Evans the pioneer tobacco farmer of Pitt, a gold headed cane or some other token of gratitude in recognition of his efforts in the tobacco culture of Pitt county. Sir, I for one, believe in giving to every man his dues, and to Mr. Evans is due great credit for the interest which he has taken in the culture of tobacco; as a testimony of which his success stands far from Rocky Mount, in Nash county. They both became warm friends and after Mr. Evans had returned home he induced Mr. Seat to make him a visit, stating that this land would produce equally as fine tobacco as Nash. Mr. Evans left off his business at home and met Mr. Seat in Tarboro, took him down home and announced through the community that Mr. Seat would be at the home of Mr. A. A. Forbes on a certain night and would like to confer with all the farmers in the vicinity who were interested in tobacco culture. At the appointed time the following parties met and partially contracted, which was afterwards confirmed with Mr. Seat for the ensuing year: A. A. Forbes, L. F. Evans and Jacob Joyner agreeing to plant eight acres, G. F. Evans and T. J. Stancill each to plant four acres and pay \$50.00. After Mr. Seat returned to Nash some of the parties became dissatisfied with their bargain and instructed L. F. Evans who was acting as their leader, to write Mr. Seat: "to come but he did not get the letter and was, therefore, on hand at the proper time. So being forced thus by a point of duty the above named parties planted the first crop of tobacco, of any consequence ever planted in Pitt county, and Leon F. Evans has the honor of being its intruder, a product which is destined to raise the yoke of demoralization and depression from the shoulders of the mortgaged and dejected farmers of old Pitt and place them on equal standard with those of all her sister counties, and when ye who have reaped the rich sales of a good crop of tobacco contribute your mite to the purchase of a token of gratitude for the man who has most successfully cultivated tobacco show your appreciation, also by contributing a small amount, to the purchase of one for the man who first led you out of the hot vertical rays of burning debt under the shade of a plant whose narcotic leaves kill accruing interest and swell your pocket books. I by no means wish to leave the impression that I am opposed to the suggestions offered by Farnville; for truly I think that every tobacco farmer in the county should contribute five cents for every acre of tobacco he has planted, and if every one will do so, there will be a sufficient amount to purchase a handsome testimonial for each gentleman. I further agree with what Farnville and others have said in regard to a warehouse. Keep the ball rolling and time is not far distant when Pitt county will have a warehouse, a smoking tobacco and cigarette factory under one incorporated body and Pitt county farmers will enrich Pitt county instead of Wake, Vance and Granville.

## Exchange of Cotton Seed for Meal.

H. B. Battle, Experiment Station, Raleigh, N. C.

Ought I to exchange my seed with the oil mill, getting meal in return at the rate of one of meal for two tons of seed? Emphatically no, if the meal is not returned to the land either as is mixed fertilizer, or as manure after passing through stock. Two tons of seed contain forty-six pounds phosphoric acid, 120 pounds ammonia, 48 pounds of potash, valued at \$20.30 giving the same value as to commercial fertilizer the past season. One ton of meal contains 56 pounds phosphoric acid, 172 pounds of ammonia and 32 pounds potash, valued at \$26.76. I give to the oil mill men materials worth \$20.30 and they give me in return materials worth \$26.76. I make \$6.46 by the transaction. This is no fanciful sketch, but actual facts. Are the oil mill men not fools to give me this six dollars and forty six cents? Oh, no, they save the oil, which I do not want (as it contains no fertilizing ingredients), and sell it. They have in addition the hulls from the seed which are used for fuel under the engine boilers, or for bedding.

Some time ago Mr. E. M. Nadal offered a fine hat to the person who brought him the finest sample of tobacco. The samples were to weigh one half a pound, to be sold at the opening sale here and the proceeds given to the Oxford Orphan Asylum. Mr. John Evans, of Pitt county, took the premium and went home with the hat. The tobacco sold for \$1.70 per pound and brought \$18.70.—Wilson Advance.

## The Evans Testimonial.

The following letter from the proprietors of a tobacco warehouse that is very popular with Pitt county shippers explains itself.

Oxford, N. C., Sept. 24th, '90, Editor EASTERN REFLECTOR.

Dear Sir:—We notice from your valuable paper that a testimonial is proposed in the shape of a "gold headed cane" for Mr. G. F. Evans, the pioneer of the Golden Product of Pitt. As the best tobacco that comes to our market is from your county, we take great pleasure in enclosing our check for five dollars, with the wish that Mr. Evans may be as "well caned" as his good work merits.

Yours truly, DAVIS & GREGORY.

This is very generous on the part of Messrs. Davis & Gregory, and the REFLECTOR looks upon the letter as quite a compliment to Pitt county. It corroborates our oft repeated assertion that Pitt makes the finest tobacco of any county in North Carolina.

Concerning the testimonial to Mr. Evans we will say here the tobacco growers of Pitt are a little backward in contributing a mite to it, as but few have responded as yet. And do not the merchants feel that this tobacco culture is also a great benefit to them? They also might do a little for the testimonial. Let it be made something worth offering.

Rev. John K. Conally, of Asheville, will be in Greenville during the Association, and on Friday, 10th, will preach to his old comrades of the 55th N. C. Regiment, of which he was Colonel during the late war. All the survivors of the regiment in this section should be present to hear him. He will be glad to meet his comrades in arms.

## Court Items.

James Fleming colored who was convicted of burglary in the second degree, as stated last week, but who had not been sentenced up to the time of going to press, was on Saturday sentenced to 8 years in the penitentiary. His case took appeal to the Supreme Court because of certain objections to the charge by his Honor Judge Womack, to the jury in the case.

The jury on the case of State against E. S. Moore, charged with criminal assault and intent upon Mrs. Pernie Hutton, remained in consultation from Tuesday afternoon until Wednesday morning when they returned a verdict of guilty as charged. Sentence of 6 years in the State prison was passed upon him Saturday.

The sentence of Alonzo Winfield to 1 year in State prison, as published last week, was changed, to 12 months in county jail with leave to the Commissioners to hire out after 4 months. Three other cases upon the criminal docket were tried as follows:

Thos F. Nobles, affray, submit, judgement suspended on Payment of cost. L. A. Weathering, perjury, not guilty. E. N. Hattan and D. B. Langley, assault, submit, fined \$20 and cost each. A number of cases upon the civil docket were heard.

Scott Dail, who was a witness in a trial to be heard, went upon the witness stand in an intoxicated condition. Judge Womack ordered the Sheriff to put him in jail to sober up.

Every man ought to be pig or pup. Trying to be both destroys the capacity to be truly either. If a man in Eastern North Carolina can so far lose his self respect as to be a Radical, let him vote the Radical ticket and get down in the dirt if he preters it. But if a man pretends to be a decent man and a Democrat, let him show it by voting the straight ticket. If he can't do that, let him make haste to get and join the Radical party and be false to himself and his family.—Raleigh Chronicle.

The kind and generous and noble hearted Col. Ike Sugg, with that unbounded liberality for which he is so noted, and which has made him so beloved and popular, will give \$5 for the best pound of tobacco grown in Pitt county—the proceeds of which will go to the Orphan Asylum at Oxford.—Wilson Mirror.

We are not much acquainted with the game of cards, but here is a bit of advice: Play spades if you would win potates; play clubs if you would deal with a ruffian; play hearts if you would win friendship; play diamonds if you would win woman.—Henderson Gold Leaf.

The cotton fields, white to harvest in a promised yield not witnessed in years before, with few, if any hands in many of them is an incontrovertible argument as to real injury caused by the immigration movement. We dare say that should a storm of wind and rain come in the next few days, there are many farmers in this county that would be hopelessly ruined.—LaGrange Spectator.

Parties desiring to obtain patents, or information of any kind relating to patents, should communicate with Messrs. C. A. Snow & Co., 710 8th St., Washington, D. C. The firm is prompt, reliable, and very moderate in its charges.

Branch has been prevented from meeting his late appointments by the illness of a child. Hon. T. G. Skinner has represented him. Bernard is in his hole and from present appearances means to stay there.—Elizabeth City Economist.

Just one week to the Association.

D. Y. Cooper has been in the tobacco business at Henderson for 17 years and always advises farmers to sell their tobacco where they can get the best prices. That he gets these prices for all sold at his warehouse is proven by his great success during all these years.

D. Y. Cooper, of Henderson, has made arrangements with Redding's saw mill to make a large number of tobacco tierces. Farmers who wish to ship tobacco to Cooper can get these tierces free of charge by applying at the mill, two miles from Greenville, or at Glasgow Evans'.

Fires are common. Caps for the girls are all the rage. The Dun's Courier is two years old. Register immediately; don't put it off. Several overcoats were out Sunday. The tenth month is ushered in today. Where did the cold snap come from? This is the "sere and yellow leaf" season. Don't lose your vote by failing to register. Superior Court in Greene county this week. The REFLECTOR office solicits your job printing. It is dark long before 7 o'clock these days. We have been having entirely too much rain of late. Say let me see you a minute. Have you registered? County Commissioners will in session next Monday. Beware of colds and sore throat this kind of weather. You can't register after October 25th. Register now. Twice the diameter of the wrist equals that of the neck. A regular dreary, drizzly, disagreeable day—Monday. The police killed a mad dog in town one day last week. Small change is scarce and there is quite a demand for it. Come to the REFLECTOR office for stationery of all kinds. It takes a real cold snap to give the oyster its proper twang. Five Wednesdays, five Thursdays and five Fridays in this month. The train will begin a schedule through to Kinston in a few days. For highest prices always sell your tobacco at Cooper's Warehouse. A new registration of voters is required for the November election. Tell your neighbor he must register anew for the approaching election. Keep the thing going. Shall Greenville have tobacco warehouses? Every Mill Man should own his own Gummer \$10.00 and \$15.00 at Haskett's. More cotton brought to town Saturday than any day of the season so far. Get your stove ready, and be sure the flue is all right before putting it up. The sun crossed the line on Monday last and autumn was ushered in. The pesky house fly is said to keep away diphtheria, cholera and typhoid fever. Remind your neighbor of the fact that he must register if he wants to vote. The finest loaf of bread I ever ate was made of Point Lace Flour, at the Old Brick Store. The Elizabeth City News is four and a half years old and a sprightly sheet. Quite a large attendance at the Great Swamp yearly meeting last Sunday. Stoves for churches, Stoves for school houses, and Stoves for everybody, at Haskett's. Sheriff Tucker left Monday morning with four prisoners for the "State boarding house." Quite a crowd followed the circus parade yesterday. Some features of it were amusing. D. Y. Cooper, of Henderson, sells more farmers tobacco and gives better satisfaction than any house in the State. Next Wednesday takes place the sale of the railroad lot at Ayden. Remember this fact. Thanks to Mr. J. L. W. Nobles for a basket of meish grapes presented to us yesterday. D. Y. Cooper sells more farmers tobacco than any House in the State, try him and you will find that he will please you. Circuses generally scrape in the change, and to a certain extent improve the country. Why is it that every one who goes to J. B. Cherry & Co's are happy? Because they are pleased with their bargains. As cool weather approaches the number of Eiffel-tower collars increases. Rev. J. N. H. Summerell will preach in the Baptist Church here next Sunday night. The registration books of each township will be opened from September 26th to October 26th. Mr. J. S. Higgs has opened a second hand clothing house in the Forbes store on Five Points. What a Solid Leather Shoe for one dollar for either man or woman? Where? At J. B. Cherry & Co's. Are you opposed to the Force Bill? If so register and vote the Democratic ticket. Be careful about fires in this month when you start them up for the first time. If you are in favor of honest government register and vote the Democratic ticket. Mrs. Cowell & Joyner invite all the ladies to call and examine their nice stock of millinery and notions. Anything you buy from our market, it not satisfactory you may return it and your money will be refunded. We keep fresh beef, pork, mutton, kid, poultry, &., and solicit your patronage. Johnson, Norcott, & Co. On Monday Mr. Ollen Warran showed us a James grape that measured 4 1/2 in circumference. This is the largest one ever found yet. Last year the record went up to 4 1/2 and the year previous 4 1/4.

**Personal.** Miss Ada Harlee of Green county was visiting Miss Jennie Savage last week. Mrs. W. A. James, of Asheville, is visiting the family of Register of Deeds D. H. James. Mrs. H. C. Martin of Baltimore, has been visiting Mrs. Monteiro the past week or two. Mr. Moses Heilbroner, of Scotland Neck, spent last Wednesday in Greenville with his brother, Mr. G. L. Heilbroner. Mr. W. T. Reid, of LaGrange, has been in town the past week. We are glad to see Will among us. Ex-Gov. Jarvis left Monday for the central part of the State. He has appointments to speak this week at Hillsboro, Roxboro, Yanceyville, Reidsville, Walnut Cove and Winton. Mr. G. W. Blount, owner of the Wilson Mirror, spent a day or two in Greenville last week. He came on a legal matter, but saw enough of our town to make him highly pleased with it. J. S. Farren & Co., of Washington, want hands to work in the canning factory. See advertisement. A large cotton platform is being built adjoining the depot. It will be very convenient for shippers. Some of the farmers complain of a scarcity of cotton bolls. The staple opened so fast that it got ahead of them. We are indebted to the proprietors of Riverside Nursery for a basket of the excellent James grapes sent us Saturday. Haskett & Co., shipped a "New Lee" stove to Williamston last week. The man who purchased the stove reads the REFLECTOR. See? Quarterly Meeting of Greenville circuit will be held October 25th at Bethlehem church. Services at 11 o'clock a. m. Billie says a man can lose his religion over a measly old slab sided contrary stove pipe nearly as quick as over a circus. R. R. Flemming, administrator of Rufus Fleming, has a notice to creditors in this paper. Look for it under legal notice head on 4th page. It rained yesterday but the crowd came just the same, and most of them went home disappointed with the circus. There were not any animals. Dr. J. Marquis, of Philadelphia, has opened his dental office. He can be found in the Skinner building in the rooms opposite the photograph gallery. How many men bought tickets to the circus yesterday, who the next time they see the editor will either dodge him or tell him they cannot pay their subscription? The REFLECTOR force is sufficiently large now for us to turn out all job printing promptly. We do first-class work and keep the best material. Send us your orders. That huge sweet potato in the REFLECTOR office attracts attention. If somebody will just catch us a possum to go with it we'll have a feast like unto the days of Uncle Remus. In the list who were on last Saturday granted license to practice law by the Supreme Court, we are glad to see the name of Mr. W. H. Long, of Tennessee, who read here under Gov. Jarvis. Mr. S. P. Erwin sold about 600 pounds of tobacco at the Banner Warehouse in Oxford, last week, which netted him an average a little above \$25 per hundred. For some of it he received as high as \$65. Keep your eyes open now, the Sheriff is on the war path. His list of appointments for a tax gathering are published in this paper and you had just as well be ready to pay your taxes. They have got to come. Mr. Kin McGowan was very badly hurt Saturday. He was assisting in packing cotton about the gin when a piece of timber from the press fell and struck him on the head. He was in town late in the evening having his wound dressed. The merchant who sends off to other towns to get his printing done has buyers (?) love for keeping up home enterprises. Still he wants his home paper to give him a "puff" and tell the people to buy their goods from him. We were called into Culley's restaurant, one day last week, to try a stew of the very tempting and luscious bivalve. They were fixed up in the very best style. West Pitt is in charge of the culinary department and knows his business. Shareholders in the Building & Loan Association please take notice that payment for October is due today. The Secretary will make his returns promptly and cannot again extend such indulgence as has been given the last month or two. The Standard Keeper was around Monday testing the weights and measures of the town merchants. He skipped by the REFLECTOR office and did not stop to inquire if we had a quarter-ounce weight for testing the conscience of delinquent subscribers. On Thursday Sheriff Tucker showed an account of tobacco sales that he made with D. Y. Cooper, Henderson, on the 23rd. He sold something over 500 pounds at an average of about 25 cents, one lot bringing as high as 51 cents and another 50 cents. Mr. J. J. Nobles left us a twig from a cotton stalk, on Thursday, that shows a prolific production. In a space of about 3 inches were five large, well formed bolls. He says his cotton had a splendid August fruiting and the stalks are loaded down with bolls. Can not the business men of Greenville look far enough ahead to see the great advantages of tobacco warehouses as enhancers of trade? Every farmer paid off here for tobacco would leave much of his money with the merchants. It is time these men were taking active interest in the warehouse movement.

**To The Pastors.** Of the various churches of the different denominations within reach of Greenville: I wish by this to invite you to attend the session of the Tar River Association to meet with Greenville Baptist Church, October 9th to 12th inclusive. A. D. HUNTER, Pastor. **Completed.** The extension of the Scotland Neck & Greenville railroad is completed through to Kinston. That town will have a grand celebration over it on the 9th instant. In that respect Greenville is left behind. This town has had the railroad more than a year but has never yet shown any public appreciation of it. **Dropped Dead.** A colored girl about 14 years of age, died very suddenly in this town last Friday. She had been out picking cotton all day and was returning home in the evening. Just before reaching home she fell upon the ground in an unconscious condition. Parties with her picked her up and carried her into the house, but she was dead in a few moments. She had been heard to complain of the headache during the day. **The New Firm.** In announcing the new firm that is to open in Greenville the REFLECTOR styled it as Young & Pridden. The Wilson Advance corrects us and says Mr. C. W. Priddy is the partner of Mr. Young. Just a misunderstanding of the name on our part. The Advance further says they are a strong team, that they are the largest firm in Wilson, have a branch store in Dunn and a large clothing factory in Fayetteville. **Correction.** Two big errors got into one small local in the REFLECTOR last week. The first error was saying the county canvass would open at Falkland on the 8th. The date is all right, but the place is Farmville instead of Falkland. The other error was in saying the list of appointments would be found in this issue. Through an oversight the appointments after being put in type were left standing on a galley and did not get in the paper until to-day, when you can find them on first page. **Good Cases.** Mr. B. F. Patrick told us Monday that Mr. A. P. Murray, of Granville county, had cured 26 barns of tobacco for him this season, and made a success of every one of them. Since the curing was completed Mr. Murray has remained and done all the grading and packing. From what has been sold good and satisfactory returns were made. Mr. Patrick goes to Oxford to day to sell several thousand pounds. He says Mr. Murray is the best all around tobacco man he has known. **Will Come Back Home.** The editor received a letter last week from E. A. Davis, one of the colored men who left here with the exodus last winter. Davis is a carpenter and having a good trade of course stood a much better showing than those who want as common laborers. He is at Ravenna, a little town in Louisiana. He says he is doing a large contracting business there, but his life has been threatened because he does better work than any other contractor in the town. He says he would be much better satisfied at home and intends to come back after this year. **To The Citizens of Greenville.** I wish to thank our friends outside of the Baptist Church for their kindness in helping us to finish our church and for their kind offer to aid us in taking care of our Association. A good part of the delegates and pastors may expect Wednesday evening, October 8th. Preaching that night in our new room by Rev. Mr. Duke. The crowd will be much larger on Saturday and Sunday, and many of the delegates may not arrive until Friday or Saturday. I hope those taking company will have supper at or as near six o'clock as possible. This is far better for the speakers and gives those taking company an opportunity to attend the exercises at night. I hope all who can will attend the meetings. A. D. HUNTER. **Henry L. Wyatt.** Mr. W. A. Zoeller, of Tarboro, well remembered by our people as an excellent photographer, has sent the REFLECTOR a photograph of Henry L. Wyatt, who was the first soldier killed in the late war. The photograph was copied from an old picture of the young confederate. We showed it to a citizen of this town who remembered Wyatt and were told that the picture was a perfect likeness of him. Mr. Zoeller is furnishing copies of the picture at 25 cents each. Wyatt went into the army from Pitt county, but belonged to the gallant old Edgecombe Guard. A great deal has been said in the State papers about Wyatt and his nativity, and this may not be void of interest. The person to whom we showed the photograph said Wyatt was born in Richmond but came to Greenville to live with relatives when he was a very small boy. We suppose there are many persons here who remember him. **Pitt County Taxables.** Below is given the aggregate returns of property in Pitt county and its assessed valuation, as placed in the hands of the Sheriff the first of September to collect taxes due thereon for the year 1890: No acres land 359,782 value \$1,755,495 No town lots 510 value 357,302 No horses 2,181 " 104,743 No mules 1,025 " 89,541 No jacks 3 " 275 No goats 1,173 " 649 No cattle 8,371 " 51,710 No hogs 24,778 " 27,895 No sheep 1,732 " 1,730 Value without specifying 232,950 Money on hand 63,303 Solvent credits 276,831 Shares in incorporated companies 33,813 All other property 191,147 Total valuation 3,087,274 No white polls 1972, colored polls 1399. 11 dogs were also given in for taxation.

B. G. Barnes, of Cooper's warehouse, says that Pitt tobacco is the best he has seen. Ed is a good, jolly fellow as him when you go to Cooper's at Henderson.

Just one week to the Association.  
D. Y. Cooper has been in the tobacco business at Henderson for 17 years and always advises farmers to sell their tobacco where they can get the best prices. That he gets these prices for all sold at his warehouse is proven by his great success during all these years.

D. Y. Cooper, of Henderson, has made arrangements with Redding's saw mill to make a large number of tobacco tiers. Farmers who wish to ship tobacco to Cooper can get these tiers free of charge by applying at the mill, two miles from Greenville, or at Brown Evans's.

Fires are commonable.  
Caps for the girls are all the rage. The Duke's Cap is two years old.  
Register immediately; don't put it off.  
Several overcoats were out Sunday.

The tenth month is ushered in today.  
Where did the cold snap come from?

This is the "sore and yellow leaf" season.  
Don't lose your vote by failing to register.

Superior Court in Greene county this week.  
The Reflector office solicits your job printing.

It is dark long before 7 o'clock these days.  
We have been having entirely too much rain lately.

Say let me see you a minute. Have you registered?  
County Commissioners will in session next Monday.

Beware of colds and sore throat this kind of weather.  
You can't register after October 25th. Register now.

Twice the diameter of the wrist equals that of the neck.  
A regular dreary, drizzly, disagreeable day—Monday.

The police killed a mad dog in town one day last week.  
Small change is scarce and there is quite a demand for it.

Come to the Reflector office for stationary of all kinds.  
It takes a real cold snap to give the oyster its proper twang.

Five Wednesdays, five Thursdays and five Fridays in this month.  
The train will begin a schedule through to Kinston in a few days.

For highest prices always sell your tobacco at Cooper's Warehouse.  
A new registration of voters is required for the November election.

Tell your neighbor he must register anew for the approaching election.  
Keep the thing going. Shall Greenville have tobacco warehouses?

Every Mill Man should own his own Gummer \$10.00 and \$15.00 at Hasketts.  
More cotton brought to town Saturday than any day of the season so far.

Get your stove ready, and be sure the flue is all right before putting it up.  
The sun crossed the line on Monday last and autumn was ushered in.

The pesky house fly is said to keep away diphtheria, cholera and typhoid fever.  
Remind your neighbor of the fact that he must register if he wants to vote.

The finest loaf of bread I ever ate was made of Point Lace Flour, at the Old Brick Store.  
The Elizabeth City News is four and a half years old and a sprightly sheet.

Quite a large attendance at the Great Swamp yearly meeting last Sunday.  
Stores for churches, stores for school houses, and stores for everybody, at Hasketts.

Sheriff Tucker left Monday morning with four prisoners for the "State boarding house."  
Quite a crowd followed the circus parade yesterday. Some features of it were amusing.

D. Y. Cooper, of Henderson, sells more farmers tobacco and gives better satisfaction than any house in the State.  
Next Wednesday takes place the sale of the railroad lots at Ayden. Remember this fact.

Thanks to Mr. J. L. W. Nobles for a basket of meish grapes presented to us yesterday.  
D. Y. Cooper sells more farmers tobacco than any house in the State, try him and you will find that he will please you.

Circuses generally scrape in the change, and to a certain extent impoverish the country.  
Why is it that every one who goes to J. B. Cherry & Co's are happy? Because they are pleased with their bargains.

As cool weather approaches the number of knickerbocker collars increases.  
Rev. J. N. H. Summerell will preach in the Baptist Church here next Sunday night.

The registration books of each township will be opened from September 26th to October 26th.  
Mr. J. S. Higgs has opened a second hand clothing house in the Ford store on Fire Point.

Are you opposed to the Force Bill? If so register and vote the Democratic ticket.

Be careful about fires in this month when you start them up for the first time.  
If you are in favor of honest government register and vote the Democratic ticket.

Mrs. Cowell & Joyner invite all the ladies to call and examine their nice stock of millinery and notions.  
Anything you buy from our market, if not satisfactory you may return it, and your money will be refunded. We keep fresh beef, pork, mutton, kid, poultry, etc., and solicit your patronage. Johnson, Newport, & Co.

On Monday Mr. Ollen Warren showed us a James grape that measured 4 1/2 in circumference. This is the largest one ever found yet. Last year the record went up to 4 1/2 and the year previous 4 1/4.

Personal.  
Miss Ada Harlow of Green county was visiting Miss Jennie Savage last week.  
Mrs. W. A. James, of Asheville, is visiting the family of Register of Deeds D. B. James.

Mrs. H. C. Martin of Baltimore, has been visiting Mrs. Monteiro the past week or two.  
Mr. Moses Heilbroner, of Scotland Neck, spent last Wednesday in Greenville with his brother, Mr. G. L. Heilbroner.

Mr. W. T. Reid, of LaGrange, has been in town the past week. We are glad to see him.

Ex-Gov. Jarvis left Monday for the central part of the State. He has appointments to speak this week at Hillsboro, Roxboro, Yanceyville, Reidsville, Walnut Cove and Winston.

Mr. G. W. Blount, owner of the Wilson Mirror, spent a day or two in Greenville last week. He came on a legal matter, but saw enough of our town to make him highly pleased with it.

J. S. Farron & Co., of Washington, want hands to work in the canning factory. See advertisement.

A large cotton platform is being built adjoining the depot. It will be very convenient for shippers.

Some of the farmers complain of a scarcity of cotton hands. The staple opened so fast that it got ahead of them.

We are indebted to the proprietors of Riverside Nursery for a basket of the excellent James grapes sent us Saturday.

Haskett & Co., shipped a "New Lee" stove to William last week. The man who purchased the stove reads the Reflector. See?

Billie says a man can lose his religion over a measly old slab sided contrary stove pipe nearly as quick as over a circus.

R. R. Flemming, administrator of Rufus Fleming, has a notice to creditors in this paper. Look for it under legal notice head on 4th page.

It rained yesterday but the crowd came just the same, and most of them went home disappointed with the circus. There were not any animals.

Dr. J. Marquis, of Philadelphia, has opened his dental office. He can be found in the Skinner building in the rooms opposite the photograph gallery.

How many men bought tickets to the circus yesterday, who the next time they see the editor will either dodge him or tell him they cannot pay their subscription?

The Reflector force is sufficiently large now for us to turn out all job printing promptly. We do first-class work and keep the best material. Send us your orders.

That huge sweet potato in the Reflector office attracts attention. If somebody will just catch us a 'possum to go with it we'll have a feast like unto the days of Uncle Remus.

In the list who were on last Saturday granted license to practice law by the Supreme Court, we are glad to see the name of Mr. W. H. Long, of Tennessee, who read here under Gov. Jarvis.

Mr. S. P. Erwin sold about 600 pounds of tobacco at the Banner Warehouse in Oxford, last week, which netted him an average a little above \$25 per hundred. For some of it he received as high as \$65.

Keep your eyes open now, the Sheriff is on the war path. His list of appointments for a tax gathering are published in this paper and you had just as well be ready to pay your taxes. They have got to come.

Mr. Kin McGowan was very badly hurt Saturday. He was assisting in packing cotton about the gin when a piece of timber from the press fell and struck him on the head. He was in town late in the evening having his wound dressed.

The merchant who sends off to other towns to get his printing done has great (?) love for keeping up home enterprises. Still he wants his home paper to give him a "put" and tell the people to buy their goods from him.

We were called into Culley's restaurant, one day last week, to try a stew of the very tempting and delicious bivalve. They were fixed up in the very best style. West Pitt is in charge of the culinary department and knows his business.

Shareholders in the Building & Loan Association please take notice that payment for October is due today. The Secretary will make his returns promptly and cannot again extend such indulgence as has been given the last month or two.

The Standard Keeper was around Monday testing the weights and measures of the town merchants. He skipped by the Reflector office and did not stop to inquire if we had a quarter-ounce weight for testing the conscience of delinquent subscribers.

On Thursday Sheriff Tucker showed an account of tobacco sales that he made with D. Y. Cooper, Henderson, on the 23rd. He sold something over 500 pounds at an average of about 25 cents, one lot bringing as high as 51 cents and another 50 cents.

Mr. J. J. Nobles left us a twig from a cotton stalk, on Thursday, that shows a prolific production. In a space of about 3 inches were five large, well formed bolls. He says his cotton had a splendid August frothing and the stalks are loaded down with bolls.

Can not the business men of Greenville look far enough ahead to see the great advantages of tobacco warehouses as enhancers of trade? Every farmer paid off here for tobacco would leave much of his money with the merchants. It is time these men were taking some interest in the warehouse movement.

To The Pastors.  
Of the various churches of the different denominations within reach of Greenville: I wish by this to invite you to attend the session of the Tar River Association to meet with Greenville Baptist Church, October 9th to 12th inclusive.  
A. D. HUNTER, Pastor.

Completed.  
The extension of the Scotland Neck & Greenville railroad is completed through to Kinston. That town will have a grand celebration over it on the 9th instant. In that respect Greenville is left behind. This town has had the railroad more than a year but has never yet shown any public appreciation of it.

Dropped Dead.  
A colored girl about 14 years of age, died very suddenly in this town last Friday. She had been out picking cotton all day and was returning home in the evening. Just before reaching home she fell upon the ground in an unconscious condition. Parties with her picked her up and carried her into the house, but she was dead in a few moments. She had been heard to complain of the headache during the day.

The New Firm.  
In announcing the new firm that is to open in Greenville the Reflector styled it as Young & Pridden. The Wilcox edition corrects us and says Mr. C. W. Priddy is the partner of Mr. Young. Just a misunderstanding of the name on our part. The Advance further says they are a strong team, that they are the largest firm in Wilson, have a branch store in Duno and a large clothing factory in Fayetteville.

Correction.  
Two big errors got into one small local in the Reflector last week. The first error was saying the county canvass would open at Falkland on the 8th. The date is all right, but the place is Farmville instead of Falkland. The other error was in saying the list of appointments would be found in that issue. Through an oversight the appointments after being put in type were left standing on a galley and did not get in the paper until to-day, when you can find them on first page.

Good Cures.  
Mr. B. F. Patrick told us Monday that Mr. A. P. Murray, of Granville county, had cured 26 bars of tobacco for him this season, and made a success of every one of them. Since the curing was completed Mr. Murray has remained and done all the grading and packing. From what has been said and satisfactory returns were made. Mr. Patrick goes to Oxford to day to sell several thousand pounds. He says Mr. Murray is the best all around tobacco man he has known.

Will Come Back Home.  
The editor received a letter last week from E. A. Davis, one of the colored men who left here with the exodus last winter. Davis is a carpenter and having a good trade of course stood a much better showing than those who went as common laborers. He is at E. R.ville, a little town in Louisiana. He says he is doing a large contracting business there, but his life has been threatened because he does better work than any other contractor in the town. He says he would be much better satisfied at home and intends to come back after this year.

To The Citizens of Greenville.  
I wish to thank our friends outside of the Baptist Church for their kindness in helping us to finish our church and for their kind offer to aid us in taking care of our Association. A good part of the delegates and pastors may be expected Wednesday evening, October 8th. Preaching that night in our new room by Rev. Mr. Duke. The crowd will be much larger on Saturday and Sunday, and many of the delegates may not arrive until Friday or Saturday. I hope those taking company will have supper at or as near six o'clock as possible. This is far better for the speakers and gives those taking company an opportunity to attend the exercises at night. I hope all who can will attend the meeting.

Mr. W. A. Zoeller, of Tarboro, well remembered by our people as an excellent photographer, has sent the Reflector a photograph of Henry L. Wyatt, who was the first soldier killed in the late war. The photograph was copied from an old picture of the young confederate. We showed it to a citizen of this town who remembered Wyatt and were told that the picture was a perfect likeness of him. Mr. Zoeller is furnishing copies of the picture at 25 cents each. Wyatt went into the army from Pitt county, but belonged to the gallant old Edgecombe Guard. A great deal has been said in the State papers about Wyatt and his nativity, and this may not be void of interest. The person to whom we showed the photograph said Wyatt was born in Richmond but came to Greenville to live with relatives when he was a very small boy. We suppose there are many persons here who remember him.

## THE EASTERN REFLECTOR, Greenville, N. C.

THE BLESSING OF SONG.  
"What a friend we have in Jesus,"  
Sang a little child one day;  
And a weary woman listened  
To the darling's happy lay.

All her life seemed dark and gloomy,  
And her heart was sad with care;  
Sweetly sang out baby's tongue,  
"All our sins and griefs to bear,"  
She was pointing out the Saviour,  
Who could carry every woe;  
And the one who sadly listened  
Needed that dear Helper so.

Sin and grief were heavy burdens  
For the fainting soul to bear;  
But the baby, singing, bade her  
"Take it to the Lord in prayer."  
With a simple, trusting spirit  
Weak and worn, she turned to God,  
Asking Christ to take her burden,  
As he was the singer's Lord.

Jesus was the only refuge,  
He could take her sin and care,  
And he blessed the weary woman  
When she came to him in prayer.

And the happy child still singing,  
Little knew she had a part  
In God's wondrous work of bringing  
Peace into a troubled heart.

## Justice and Mercy.

On yesterday two young colored children, brother and sister, were before Judge Boykin upon the charge of stealing corn. The children stated that their mother was in Fayetteville and that they had been trying to get to her, but had no money. The judge thereupon stated to the solicitor that he did not wish to try them under such circumstances and upon such a charge, and suggested that money be raised by collection to send the children to their mother. The sheriff proceeded to take up a collection at the suggestion of the court, and the necessary amount of money was collected. The judge and solicitor both contracting generously, as well as members of the bar and visitors in the court room. The amount thus raised was not only sufficient to defray the traveling expenses of the children to Fayetteville, but left a residuum which was given to them for their mother. This merging of justice into mercy and sweet charity reflects the highest credit upon Judge Boykin, and will meet with universal approval by the people everywhere. —Argus.

## It Don't Pay.

Durham Sun.  
The editor of the Independent Star sued a delinquent subscriber for eleven dollars. Said delinquent testified on the witness stand that he never subscribed for the paper and therefore didn't propose to pay for it. Judge Stillwell's charge to the jury was to the effect that if the evidence disclosed the fact that the defendant had taken or caused the paper to be taken from postoffice, whether the defendant had ever subscribed for it or not, then the jury should find for plaintiff. The jury returned a verdict of eleven dollars and cost against the defendant. When the delinquent footed the bill he found the paper had cost him nearly one hundred dollars. It doesn't pay to try to beat the printer.

An exchange gets off the following:  
"An old bachelor says that giving the ballot to women would not amount to anything practically, because they would keep denying they were old enough vote, until they got to be too old to take any interest in politics."

Racing With Wolves.  
Many a thrilling tale has been told by travelers of a race with wolves across the frozen steppes of Russia. Sometimes the wicked bones of the hapless traveler are found to the tale. In our own country thousands are engaged in a life and death race against the wolf Consumption. The best weapons with which to fight the foe, is Dr. Price's Golden Medical Discovery. This renowned remedy has cured myriads of cases when all other medicines and doctors had failed. It is the greatest blood-purifier and restorer of strength known to the world. For all forms of scrofulous affections (and consumption is one of them), it is unequalled as a remedy.

## THE HENDERSONVILLE TIMES in a recent issue devotes nearly three quarters of a column on its editorial page in saying that the New York Mail and Express is a paper which the country could get along without, while in its advertising space it gives more than three-quarters of a column to scolding the praises of that paper. Reissue Review

A Scrap of Paper Saves her Life.  
It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her more, bought another and grew better fast, continued its use and is now strong, healthy, robust, plump, weighs 146 pounds. For fuller particulars send stamp to W. H. Cole, Druggist, Fort Smith, Ark. Trial bottles of this wonderful Discovery free at J. L. Wood's Drugstore.

**Merit Wins.**  
We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucken's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use.

These remedies have won their great popularity by their merits. J. L. Wooten, Druggist.

**Bucken's Arnica Salve.**  
The Best Salve in the World for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by J. L. Wooten.

Sick headache is the bane of many lives. This annoying complaint may be cured and prevented by the occasional use of Dr. J. H. McLean's Liver and Kidney Pills (little pills).

Disease lies in ambush for the weak; a feeble constitution is ill adapted to encounter a malarious atmosphere and sudden changes of temperature, and the last resort are usually the easiest victims. Dr. J. H. McLean's Sarsaparilla will give tone, vitality and strength to the entire body.

Distress after eating, heartburn, sick headache, and indigestion are cured by Dr. J. H. McLean's Liver Pills (little pills).

Many people habitually endure a feeling of lassitude, because they think they have to. If they would take Dr. J. H. McLean's Sarsaparilla, this feeling of weariness would give place to vigor and vitality.

No inuiment is in better repute or more widely known than Dr. J. H. McLean's Sarsaparilla. It is a wonderful remedy.

Persons advanced in years feel younger and stronger, as well as freer from the infirmities of age, by taking Dr. J. H. McLean's Sarsaparilla.

If you feel unable to do your work, and have that tired feeling, take Dr. J. H. McLean's Sarsaparilla; it will make you bright active and vigorous.

The most popular inuiment is the old reliable, Dr. J. H. McLean's Volcanic Oil Liniment.

One of Dr. J. H. McLean's Little Liver and Kidney Pills, taken at night before going to bed, will move the bowels; the effect will astonish you.

Pimples, boiloids and other humors, are able to appear when the blood gets heated. Dr. J. H. McLean's Sarsaparilla the best remedy.

It is ordered by the Board of Commissioners that the voting precinct in Greenville township on the North side of Tar river, known as Parker's Cross Roads precinct, be discontinued, and that the voters of Greenville township residing upon the North side of Tar river shall hereafter register and vote at the polling place or place of election in the town of Greenville in said township.

It is further ordered that this order be published in the Greenville REFLECTOR for five weeks and copies posted at the Court House door and at three other public places in Pitt county.

D. H. JAMES,  
Clerk B'd Com. Pitt Co.

## 1000 TOBACCO HOGSHEADS, GIVEN AWAY.

We are pleased to announce to the tobacco growers of Pitt and adjoining counties that we are prepared to give our Hogsheads free to any person who will use them to ship their tobacco in provided they will retain it for Messrs. Davis & Gregory, of Oxford, N. C.

Messrs. Davis & Gregory are very large tobacco dealers and guarantee the highest prices for all tobacco shipped to them. And since they offer this favor of furnishing hogsheads and have shown such interest in the tobacco growing of our section we hope our tobacco growers will find it to their interest to give them a most liberal patronage.

Persons desiring to ship to other parties can obtain hogsheads of three size at \$1.75 a piece.

We promise prompt attention to all orders sent to us at Greenville, N. C. Respectfully,  
COX & CARRELL.
