THE WAR NEWS.

Washington, July 25.—General Miles reported to the department his arrival at Porto Rico Saturday night. News from that quarter has been so far so good.

It turns out that the letter purported to have been sent to Gen. Shafter by Gen. Garcia, in which the latter complained of the treatment by Shafter, was written by Garcia at all, and it is not believed that he ever saw the letter or knew anything about it.

Wants the Contract Annulled.
New York, July 25.—George Osgood Lord today brought suit in the Supreme Court against the Compañia Trans-Atlantica Espanola, J. C. Ceballos agent, on behalf of the Spanish Line, made the bid for transporting 25,000 defeated Dem from Santiago to Spain at \$5 for officers and \$20 for enlisted men.

Over the Country.
For swearing at a policeman in a public street on Mount Vernon, N. Y., Michael Powers was fined \$50.

General Jarvis.
We do not presume to dictate Democratic conventions, but we regard it as the duty of all good citizens of North Carolina who cherish its good name and support its present condition under the rule of corrupt bad men, to give some thought to the selection of Democratic Representatives in the present critical crisis of her history, and endeavor to promote the selection of the best men we have in the party.

General Garcia a Forcener.
Santiago de Cuba, July 25.—In no terms does the letter addressed to have been addressed by General Garcia to General Shafter, complaining of the treatment accorded the Cubans, and advising General Shafter of General Garcia's resignation, was prepared by a newspaper correspondent named Arce, who has been acting on the staff of General Castillo. It is not clear that General Garcia ever saw the letter.

About to Attack Manila.
London, July 25.—A special dispatch from Madrid says that General Augustin, Captain General of the Philippines, has telegraphed to the government as follows: "The Americans are about to attack Manila. Grave events are impending."

A CARD.
Assignment, which is the inability to see lines running in the different directions equally distinct, is the practical cause of defective sight, and by far the most annoying, is only detected and corrected by one who is thoroughly acquainted with and practiced in the application of scientific tests.

Law Prescribes Penalty.
Citizens who fail to pay the Federal tax prescribed in certain businesses, are liable to heavy fines. The first for the month of July expires on the 21st, and collector Duncan will try to enforce the law.

Tetter on the Hands.
For several years I was a sufferer from Tetter on my hands. It would come in little watery pimples, and the itching was almost more than I could stand.

Constitution.
Queen's fully half the sickness in the world is retained the digested food in the bowels and creates indigestion, biliousness, headache, etc.

More Goods for Less Money.
More Goods for the Same Money than any House.

THE REFLECTOR

Local Reflections.
Fruit is very plentiful. In at week the tobacco market is up. The fall in war news gives the poets a rest.

There will be a basket picnic at Yankee Hill on Friday Aug. 5th. The store next door to Hiers is being renovated for a barber shop.

When a married man becomes excited it is perfectly proper for his wife to pull his ear. Baltimore turns her dogs to stone.

Don't miss the white men's rally in Greenville on Wednesday, Aug. 2nd. Hon. C. B. Aycock and other speakers will be here.

The merchants should bear in mind that the tobacco market will soon open and they should be giving attention to advertising. You can tell when the drummer comes to town by looking at the King House.

We are glad to see the tobacco buyers getting back from their summer vacation, and new ones coming along with them. If all our people would work together the work they would see something accomplished. The team has many needs yet.

The skill of Dr. Byers in relieving, all troubles of the eye is bringing him scores of patients. Have you called at the Ound House to consult him?

If the town authorities will take a walk toward New Greenville they will see that the foot of the bridge across the Academy branch is badly in need of repairs. Here the team brought up suddenly by the wheel on the other side locking into a tree.

GREENVILLE
IS READY FOR ANOTHER SEASON

Brief Sketch of the Market and its Many Advantages.
Next Monday, August 1st, the Greenville tobacco market will launch out on its eighth year. Since the introduction of tobacco culture in Pitt and surrounding counties and the establishment of a market in Greenville many changes have been noted, and improvements of a permanent nature have added to Greenville's growth and development.

None have watched with keener interest and delight the gradual growth to permanence of the tobacco industry of this section than has the editor of THE REFLECTOR. Long prior to the opening of a warehouse here we were full of the growing interest in tobacco growing in Pitt county. It was only a question of time when a market here would be an "improvement," and we endeavored to advance the building of a warehouse, which we have now done.

Greenville has been a tobacco market since 1891. The 23rd day of September of that year the old Greenville warehouse was opened. There were no price houses, but a store with the "Greenville Warehouse Co." erected a small price house in the rear of the warehouse, and within a few days the business of Greenville in the tobacco market was established.

Greenville has not only the market and the warehouse, but some of the best markets in the east have made, but steadily and gradually it has moved on and most markets in the State. It has taken a grand start in the tobacco trade and the expenditure of vast sums of money to build the market, but there is charge of a few men of grit and determination. This, with the superior quality of the tobacco, has interested and drawn tobaccoists here from the large centers, and now there is full and complete competition of prices to any market in the State.

It is not to be denied that Pitt and Greenville produce the highest quality of any of the eastern crops, and the farmers of these two counties have a market right here in Greenville where tobacco buyers have come and located to get the very kind of tobacco. We say it will be one of the most successful seasons that the Greenville market has ever known.

As stated above, the market began its existence in 1891 with but very few price houses and a small price house, and a small price house, and the second year the Eastern Warehouse and the small price house that is at present occupied by the American Tobacco Co. were built by L. J. Joyner. The third year the Greenville Warehouse Co. built two price houses. By this time the market began to attract attention and during the third season sold two millions pounds. The fourth year Forbes & Mose built the Planter's warehouse, and a four story price house built by Bernard & Hickey. That year the market sold about three and a half millions pounds. The fifth year Rountree, Brown & Co. built the Star warehouse and a price house. Other price houses were built the same year by O. H. Hooker and by the end of that season five million pounds were sold on the Greenville market. The sixth year the market sold a little over six million pounds.

Although last year there was a big reduction in acreage, Greenville has made considerable gain over the previous year, selling nearly seven million pounds. It begins the eighth year under more promising prospects than ever before. Another warehouse, the Farmers, larger than any of the others, is nearing completion, and several modern steam plants will soon be completed.

The market today is composed of the following warehouses, buyers and dealers: Greenville Warehouse Co., Planter's Warehouse, Star Warehouse, American Tobacco Co., and several others.

BABY'S SMOOTH, FAIR SKIN

A Case of Mother's Troubles Letter.
Baby's Skin was Rough and Scaly. Hood's Pills cured it.

At the age of two months, my baby began to have some trouble on his skin. We used all the external applications that we could think of, but to no avail. The trouble spread all over his face, neck, and chest. He was very restless, and would not sleep. I had heard of Hood's Pills, and I bought a box.

After a few days of using Hood's Pills, the trouble began to disappear. In a few more days, the skin was smooth and fair. I am now able to give my baby all the attention he needs. Hood's Pills is a great medicine for children.
