Greenville, N. C.

Published at the post office at Greenville, N. C., as second class mail matter.

TUESDAY, AUGUST 9, 1916.

Scotland Neck at last has a negro postmaster. Some time ago a negro barber was appointed postmaster of that town, but such a step was raised over it that the Senate declined to confirm him. It was then hoped that the administration would have some consideration for the wishes of the people of that community and would appoint a white man to the position. Vain hope, however. Another negro was appointed and he has taken charge of the office. Such things as this ought to be kept away from the people and cause them to feel that the administration is not to be trusted. It is time white men were asserting themselves.

WASHINGTON LETTER.

From our Washington Correspondent.

WASHINGTON, D. C. Aug. 5, '16.

Just when the administration is trying to win a successful close by forcing the acceptance of the terms of peace by Spain may seem an inappropriate time to entertain suspicions of the intentions of that administration; but those who keep their eyes open cannot ignore facts. Several men known to enjoy Mr. McKinley's confidence have said that he did not wish the treaty of peace that is to be negotiated by commissioners representing the United States and Spain to be completed in time to be discussed in the Congressional campaign; for fear that it might become a political question and thus cause its rejection by the Senate. What does he expect that treaty to do? Evidently something that will bring the people who will not approve and which would, if known during the campaign, be likely to cost the Republican party a vote. This seems to justify the criticism of the terms of peace because of their not being more explicit as to what matters should be left for the peace commissioners to determine. Mr. McKinley and his administration have been loudly supported by Congress and by the people, regardless of politics, in the conduct of the war, but that support will not be extended to the treaty of peace, if that treaty closes anything which Spain ought not to be entitled. Spain has been whipped as bad an enemy country ever was, and is entitled to nothing but a good treaty chosen by the government. For many reasons it is hoped that this suspicion will prove to be unfounded, but it has been invited by Mr. McKinley's own talk.

WHITE MEN'S RALLY.

Two fine Democratic speeches.

Not since the days of the lamented Dr. Vanne has Greenville had such Democratic speeches as those delivered here at the white men's rally on Wednesday, by Capt. Swift, Capt. A. W. Moore, and Hon. C. H. Moore. The rally was held at the Court House and was the most successful of the kind in the history of the town. The speakers were well received and their addresses were listened to with interest. A good band of music was present and those who enjoy dancing had ample opportunity for enjoying it to their pleasure. The managers deserve much credit for the success of the occasion.
