TUESDAY, FEBRUARY 7, 1899.

## STATE NEWS.

The Charlotte Observer says it is rumored in Statesville that people of that town lost \$10,000 by the Porterfield assignment.

The census of the town of Kinston has just been completed. The number of whites is 2,235 colored 1,819—total population of Kinston 4,054. There are 365 white and 441 colored voters—total 1,006 voters.—Free Press.

Monday morning Mr. Lawrence Allen was out rabbit hunting with his brother, Mr. G. F. Allen, on the Ames Bros place, in Jones county. Mr. Lawrence Allen ran after a rabbit and fell in catching it. His brother came up and found him dead.—Kinston Free Press.

Mrs. Laura Jenkins, wife of Mr. T. P. Jenkins, the well known merchant and wool carder, was burned to death one day last week, says the Lincoln Herald. Being unwell, and feeling chilly, she lay down on a pillow before the fire with her back to it, and fell asleep. Presently she was awakened by the great heat and a roaring sound to find her clothing in flames. She was thirty-five years old and had a husband and six children.

## True to Life.

A young married lady one morning gave her husband a sealed letter, which he was to read when he got to his office. He did so, and the letter ran as follows:

"I am obliged to tell you something that may give you pain, but there is no help for it. You should know everything, whatever be the consequence. For the last week, I have felt that it must come to this, but I have waited until the last extremity, and can remain silent no longer. Do not overwhelm me with bitter reproach, for you will have to put up with your share of the trouble as well as my share."

"Cold perspiration stood in thick drops on the brow of the husband, who had prepared for the worst. Trembling he read on:

"Our sugar is all gone. Please order some sent this afternoon. I thought you might forget it the tenth time, and therefore wrote you this letter."

But he didn't forget it that time!

## FILING PAPERS.

They Make Interesting History. This morning Mr. Allen Warren dropped in at THE REFLECTOR office to talk over with the weather old times, and other matters. When asked of newspapers he said he first subscribed to the Tarboro's and other back in the Fifties and back that paper for 37 consecutive years, his only regret about it now being that he did not file and preserve every copy of it. If those papers had been preserved they would make a valuable and interesting history of the years covered.

Mr. Warren says he is convinced that people make a mistake in not preserving their papers and thus have a record of important matters transpiring, and that hereafter he is going to have his family keep going away every copy of THE REFLECTOR that goes out.

Mr. Warren is right in this matter. The value of a complete file of your county paper would be incalculable for reference in future years. It will be worth far more than the trouble to save all copies of a paper, and it is a wonder that a large number of subscribers do not preserve them. If they start to saving them and get a few years papers on hand, they would not be without them for anything.

Others should to flow Mr. Warren's example in this matter.—Daily Reflector, 3rd.

## It Has Done Good.

The Greenville REFLECTOR has been seventeen years old with the issue of last week. The first issue of the paper was published on January 25th, 1882, by the present editor of the Reflector, who sold it to his brother in 1885. It has since remained in his charge and a DAILY REFLECTOR has been published for the past four and a half years. It might be said that close relationship to the REFLECTOR man influenced our opinion were we to say what we think has been its power for good in Pitt county, therefore we refrain.—Lamberton Robesonian.

## JUST FOR FUN.

Snow wreaths always wreath the liverrman's face in smiles.

When a man gets accustomed to eating coarse dinners he considers any other kind coarse.

Sue.—"What is your understanding of the ideal and the real?"

He.—"When I deal the flush I get it away, real, if that is what you mean."

The fellow who has "hung up" his heavy overcoat is in a predicament. He'll have to "rough" it to get it, and he'll have a cough if he doesn't get it.

"Say, old fellow, you know Jones well. Is he a toughy person?"

"Oh, I want to 'touch' him for a V, but if he's touchy I won't try to keep him 'round'."

"I don't propose to be jumping around after any salary all the time," said the leading lady of the theatre, "well, here's your money," replied the manager; "now you're a fixed star."

## COLDEST DAYS.

The Record for Six Years.

Mr. Allen Warren, who keeps an accurate record of the weather every day, gives us the following as the coldest days in the last six years:

YEAR. DAY. TEMPERATURE.  
1893 Jan. 16. 9  
1894 Dec. 29. 9  
1895 Feb. 8. 6  
1896 Feb. 9. 6  
1897 Jan. 28. 12  
1899 Jan. 29. 10

In 1896 and 1898 there were no extremely cold days, hence records for those years are given. Mr. Warren says the 8th of February, 1895, when the temperature was down to 6, was the lowest record he remembers in this immediate section. On the same date the temperature at Raleigh was 2, showing it to be four degrees colder there than here.

Spoke for the Sick Man's Job in the Event of Death.

Collector Harkins received a letter from an aspirant to the office of deputy collector, which created considerable amusement. The writer notified the collector that a certain deputy on the force was ill and that there was a probability of his dying. In view of this probability he offered himself as ready to take the sick man's position when death decreed the vacancy.

Asheville Gazette.

It is a pity that the collector should be so ill. The value of a complete file of your county paper would be incalculable for reference in future years. It will be worth far more than the trouble to save all copies of a paper, and it is a wonder that a large number of subscribers do not preserve them. If they start to saving them and get a few years papers on hand, they would not be without them for anything.

## WINFORDVILLE DEPARTMENT.

NEWSY HAPPENINGS AND BUSINESS NOTES.

WINTERVILLE, N. C., Feb. 4, '99. Johnnie Hurst is up again although looking quite thin.

Mrs. Ed West is visiting friends in and around Winterville this week.

A. G. Cox wants your cotton seed at 12 1/2 cents per bushel, or will give you meal in exchange for seed.

Mr. E. G. Cox got in again last night bringing a nice lot of orders as he most always does.

Harrington & Barber are making quite a change in their store. They are going to use only about one half of their old store, but will have as much shelfroom as ever as they are putting in shelves on both sides.

Why are so many people buying rice flour? It is because timber is getting scarce with some of them and others see that it is really the cheapest fence after all.

R. F. Manning & Co are rolling in the big boxes of goods which have just come and the pretty part about it is that they have got plenty of room to show them in their two large stores 26 x 80 feet each.

G. G. Cox moved into his new brick office Thursday, just across the railroad from his old one. He is not very well fixed up yet, but has plenty of room, and is again ready to talk business.

Grinding night and day.—The A. G. Cox Mill Co. has to run their flour and corn mills night and day to keep up with the demand. They will run their factory work nights also if necessary to keep up and supply your wants.

## The Value of Church Going.

The habit of church going is necessary for the full development of your own Christian character. To suppose that you can do as well for yourself by staying at home and reading a favorite book, is a great mistake. We are social creatures, and our piety does not flourish in solitude or isolation. There is a real demand in our natures for joint acts of worship and the fellowship of saints. Every experienced Christian has proven the truth of what we say. To stay away from the house of God is to lose ground. Even if it were not so, there are manifold reasons why this duty should not be neglected. Suppose everybody should conclude to slight it, the church would quickly be disorganized. But everybody else has as much right to do so as you have. Can you justify yourself in a line of action that if generally adopted would issue in such disastrous results? We beg you to be in your place at all the services of the sanctuary.—Christian Advocate.

# PAINE'S CELERY COMPOUND

United States Senator Tabor Says That It Should Be Used.

Recent events showed that a camp is more dangerous than a battle. Not only in the army, but in ordinary life, more lives are lost by a heedless disregard of the beginnings of poor health than by all other causes combined.

Dyspepsia or nervousness is absolutely inexcusable now. There is no more reason for a man or woman eating with poor appetite or sleeping poorly or suffering continually from neuralgia or rheumatism today than there is of her going without the necessities of life.

Every candid person who has dragged along under the depressing effects of nerve and brain exhaustion, needs to take to heart the words of such unbiased persons as Senator Tabor, who cannot afford to attach their guarantee to anything they have not themselves investigated.

DENVER, Col., Sep. 20, 1898. Messrs. Wells, Richardson & Co., Burlington, Vt.—I heartily recommend your Paine's Celery Compound.

It is the one remedy which should be widely used. I have used it, and I therefore know whereof I speak. Very truly yours, N. A. W. TABOR, Former U. S. Senator.
