

**THE EASTERN REFLECTOR.**  
GREENVILLE, N. C.

D. J. WHICHARD, Ed. & Owner.

**TRINITY NOTES.**

Mr. Albert Whitehouse has been elected Director of the Gymnasium and is expected to reach here this week. Mr. Whitehouse has had several years experience in this kind of work at three of the well-known colleges of the United States. He received his training at Harvard University where he was four years an assistant in the gymnasium, was two years instructor in the Massachusetts Institute of Technology, at Boston, and three years trainer of the Athletic Team at Dartmouth College. He studied medicine at Tufts College, Mass. He is thoroughly equipped for his work, and will introduce into the gymnasium here the methods followed at the leading colleges of the country. The new gymnasium furnished with all modern apparatus, will be opened March 1st. This is something the college has long needed and much good is expected to come from it.

Hon. G. H. Connor, Speaker of the House of Representatives, delivered an address at the tea celebration, held on Washington's birthday under the auspices of the Trinity College Historical Society. His subject was "A Slave and Better Citizenship." Judge Connor is a man who has studied social questions, and his address was full of good advice and sound wisdom. His address was of great interest to a large audience consisting of residents of the Park and visitors to the city.

The third of the series of Historical Publications is just from the press. It consists of papers prepared under the direction of the Historical Society.

The South Carolina papers announced that the necessary Address at the commencement of Morehead College is to be delivered by President Kilgore.

Rev. C. F. Siler, Pastor of Trinity Church, Charlotte, has arrived at the Park. He comes at the invitation of the College V. M. C. A. to hold a series of special religious services.

Bronk Elias, a member of the Board of Trustees, has been at the Park on a visit to his son and daughter, who are students in the College.

At the last regular meeting of the Scientific Society, Mr. N. H. Adams presented a series of drawings, concerning the recessions of Mars. Mr. L. C. Newell gave an interesting discussion of sources of electrification, and Mr. C. L. Hormann read a paper on Mr. Richard Webb's optical illusions. The Society appointed a Committee to advance the interests of the College Museum.

**Her Silence Explained.**

A young lady from the country was suing her ex sweethearts for breach of promise, and the lawyers were, as usual, making all sorts of impudent inquiries.

"You say," remarked one, "that the defendant frequently sat very close to you."

"Yes sir," was the reply with a hetic flush.

"How close?"

"Close enough so's one cheer was all the settin' room we needed."

"And say he put his arm around me?"

"No, I didn't."

"What did you say then?"

"I said that he put both arms round me."

"Then what?"

"He hugged me."

"Very hard!"

"Yes he did; so hard that I come near hollering out."

"Why didn't you holler?"

"Cause."

"That's no reason. Be explicit please. Because why?"

"Cause I was afeared he'd stop."

"Golden Penny."

First come first served; so much up and pay back dues on THE EASTERN REFLECTOR and a year ahead. This will secure that good little paper, the Farm Journal, five years without any further pay. Shall we hear from you within one week?

**The Fruit Crop.**

While the damage to the fruit crop by the recent severe freeze has certainly been great, there is reason to believe it is less than was at first supposed.

The Georgia peach has suffered to the extent first reported.

Florida has lost heavily by the destruction of early vegetables, but this good news comes that the orange crop, in the main has escaped injury.

Florida was just beginning to recover from the terrible effects of the freeze of 1895, and has been sending us this winter the best oranges we have had since that disaster.

The whole country is interested in the Florida orange crop, as it is in the Georgia peach crop. The Florida orange and the Georgia peach have no equals, they are no substitute for either.

The fruit industry of this state has grown to vast proportions, and the market for its product has been extended to every part of the country. Last year there was an unprecedented yield of peaches in Georgia, and it brought millions of dollars into this state at a time when hardly any other money crop was available.

There is yet hope that we may have another good peach crop this year.

Without an abundant supply of fruit we can't have the pleasure of life, and we are dependent upon the laws of nature, or physical capital all gone, for NEVER DESPAIR.

Mr. J. W. Abernethy's Liver Pill will cure you of sick headache, dyspepsia, our stomach, diarrhea, torpid liver, constipation, biliousness, all kindred diseases.

**Hutt's Liver Pills**  
an absolute cure.

CAN'T BE CURED WITH LOCAL APPLICATIONS as they cannot reach the seat of the disease. Catarrh is a blood constitutional disease and in order to cure it you must take internal remedies. All's Catarrh Cure is safe internally, and acts directly on the seat of the disease, surfaces.

Hall's Catarrh Cure is not a quick medicine. It was prescribed out of the best physicians in the country for years, and is a regular prescription against this disease.

It is a safe, simple, and painless cure.

It cures all kindred diseases.

It is a safe, simple, and painless cure.
