

THE EASTERN REFLECTOR.

GREENVILLE, N. C.

TUESDAY, APRIL 18, 1899.

PAY UP AND GET A BIG PRIZE.

By special arrangement made with the publishers of the *Farm Journal* we are enabled to offer to every new subscriber who pays for the *Eastern Reflector* 1 year ahead, and the same offer will make every old subscriber who will pay all back dues and one year in advance—both papers for the price of one only.

In order to get the *Farm Journal* as a premium for advance payment it will be necessary to walk right up to the captain's office, for we have only a limited number of year subscriptions to dispose of. The *Farm Journal* is on solid foundation and perfectly trustworthy.

All the court warrants proceeding and testing the right to office that are to follow the decision of the Supreme Court in the Day case will make "pic" for the lawyers. The end of litigation cannot be sighted with a spy glass.

Every now and then we read something about the ending of the Spanish war. It strikes us that for a long time to come we will not be seeing the end of the ramparts, this country has got into an account of Spain, and there are those who will wish they had never heard of Spain.

The decision of the Supreme Court in favor of Capt. W. H. Day, Superintendent of the penitentiary, holding that the Legislature could not remove an officer until his term expires, was rendered by Judge Montgomery, with a concurring opinion by Judge F. C. Clark. Judge Clark also gave an opinion in which he strongly dissented from the majority opinion of the Court. Thus the Court differs, but the majority is in favor of Day giving him the decision. The result of this case gives hope to other officials ousted by the Legislature that they also will be able to hold their positions.

A Good Point.

Certain political journals calling themselves religious are very of festively advertised in the South by the very parties who are most opposed to the advertising. For instance, a certain religious journal calls the South a land of "charismatic," where the Church fails to "teach the sin of murder." Some religious papers rely to the slanderous statement, and in doing so give the name of the slanderous journal. The only effect of this is to advertise a paper, which as long as it holds its prejudice, should have few Southern readers. Let our brethren of the press reply, if they wish, to the untruthful statements of their prejudiced contemporaries across the border, but let them withhold the names of the latter. Let us advertise only those papers that are worthy of being advertised.—Raleigh Christian Advocate.

JUST FOR FUN.

Wiz—What makes you think that Scribble's new book is bound to sell? Wag—The binding, of course. I don't know of any other reason why it should be so elastic.

OLD WINTER APPEARS.

The man who arrives late at the office as the result of a spunked axle doesn't hesitate to offer a lame excuse.

NEW TAX ASSESSMENT.

This is the quadrilateral tax assessment year, and all property, real and personal—must be assessed for taxation. "Some folks seem to think," says the State Auditor, "that the assessors have nothing to do but assess real property. That is not true. The law says the list-takers and assessors shall ascertain the true value in money of every tract or parcel of land or other real estate, with the improvements thereon, and the personal property, and assess the same in accordance with said valuation."

THE SAMOAN TROUBLE.

Rebels Attack Americans and British, Killing Several.

April 12.—There has been a most sanguinary uprising of the natives of Samoa against the American and British sailors and marines. A party of over a hundred American sailors and marines and officers were attacked by Samoan Rebels at the Matafua pier, who fell into carefully prepared ambush. Two American naval officers and one British officer and four marines were killed. There were eight wounded in all. The rebels' party, outnumbering the Americans and British five to one, San Francisco, April 12.—The call prints the following special copyrighted Auckland, April 12th, Apia, April 1st. Eight hundred of Matafua's men ambushed one hundred and five blue jackets near Apia. The fighting was terrible, the American and British troops repeatedly being back their assailants, who sought to overwhelm them with superior numbers. Lieut. Lonsdale and Ensign Monaghan of the Philadelphia and Lieut. Freeman of the British garrison were killed. After the rebels were driven off the bodies of the three officers were recovered. They were also killed. Four marines were also killed. Matafua's loss was forty killed and a number wounded. These were carried off the field by the rebels. Our dead were buried with military honors at Matutu. There is no doubt fighting with the natives around Apia. The life of no European on the islands is safe.

WINTERVILLE DEPARTMENT.

NEWSY HAPPENINGS AND BUSINESS NOTES.

WINTERVILLE, April 14th, '99.

It seems that everybody is well now and such fine weather as we are having.

If any one has a few more cotton seed which they wish to dispose of, A. G. Cox is paying 12 cents a bushel to make up a car load.

Any one wanting to purchase a nice young filly 6 years old, will work to cart, plow and buggy, guaranteed to be solid and sound, will see G. W. Parker. Terms easy.

A gentleman in the cigar factory the other day gave a new reason why the spotted Havana wrapper was the best. He said the flea was a better judge than man, and the spots are where the flea has sucked it. Are you going to let a little flea be wiser than you? If not give our Havana a trial.

Two negroes in jail were hired to work down here on the brick yard last week, they did not stay over a day however before they disappeared. It seems that one of them decided that he had rather stay in jail than work for himself and went back, while the other one came back here and is at work.

The A. G. Cox Manufacturing Co. have just unloaded the large mill racks shipped them from Bethlehem, and are going to put in another great mill. They will have to make other additions to their business before long if patronage keeps on increasing. If you have not been giving them your patronage come take a look and see if they haven't got something you want.

The present stations of those mustered out by the order today who will be retained as brigadier generals under the law of March 2nd are: General Wilson, commanding the department of Havana; General Wheeler, now in Washington, but probably going to the Philippines; General Bates, commanding the department of Matanzas; General Young, in command of the troops being mustered out, with headquarters at Augusta, Ga.; General Chaffee, now in Washington, but attached to General Lonsdale, commanding the city of Havana; General Wood, commanding the department of Santa Fe; General Davis, member of the 1st Infantry; General Schwan, assistant adjutant general; General Fred D. Grant, in Porto Rico, but to go to Manila; General Hale, Wheaton, King, Hughes, Overhulse and Hale, in the Philippines.

Death of the Young Ensign Said to Have Resulted from Bad Quagmire on the Wilmington.

New York, April 13.—The Washington correspondent of the Brooklyn Eagle says:

"From inside official circles comes the report that before long the country may be treated to another sensational story in connection with the late war. It is said that proof will be forthcoming to show that the battle of Cardenas the shot that struck the Winslow and killed Ensign Bagley were fired, not from the Spanish forts, but from the United States gunboat Wilmington, the fire of the latter being too low to reach the shore."

The correspondent says he is unable to obtain any detailed statement in regard to this extraordinary report, but what has been written above comes from a reliable source.

Caught between a moving car and a station platform at Wrightsville and William Downey, a Pennsylvania Railroad brakeman, was crushed to death.

Zine broke all records yesterday at Julian, Mo., and jumped from \$12 to \$10 per ton, the highest price ever paid and double the price of a year ago.

BE CURED OF GRIP!

The Wonderfel Results Obtained in the Case of Supt. Davidson.

Now, what is the grip?

Can it be avoided or prevented? And can it be cured?

Grip is characterized by a continued fever, by a tendency to inflammation of the membranes of the digestive and often the respiratory tracts, by pain in the muscles, and by debility.

Therap in individual cases varies from a slight indisposition to severe forms with grave symptoms—these variations depending wholly upon the health, age, temperament or nervous condition of the person.

Those predisposed to rheumatism suffer great pain in the muscles, persons of nervous temperament become low spirited, often have hysteria, and, if not closely watched, several cases of this sort have been known to commit suicide. Several cases of this sort have been reported this month in the newspapers. Headache is a constant symptom. The bowels are generally constipated. What ever form the disease takes there is invariably extreme prostration. The danger to persons in previous healthful condition is slight.

It has been absolutely proven that there is one certain preventive of serious cases of grip; and that there is one remedy for persons suffering with it, or beginning to be convalescent from its attack.

The unexampled public demand for Paine's celery compound during the last two months—and the

priorities of this remedy have never known so great a call for it—has been due to its use by thousands of people for whom it has been prescribed by intelligent physicians, to restore the patient's vitality, to purify the blood, to the energizing poison, to restore the nervous system to healthy action and to strengthen the vital organs.

A person will continue to suffer from the evil effects of grip for many months unless he attacks the disease by getting right with the mind and body in the new system, supplying the body with fresh blood, restoring the healthful action of the kidneys, liver and digestive organs, and nourishing and upbuilding the over-exerted and debilitated nervous system. All this and just this Paine's celery compound will do. In the multitude of cases where it has been used, it has never failed.

A case well known in Chicago is cited. Mr. Frank E. Davidson, best known engineers in the world, had just finished the plans for the great intercepting sewer system of Chicago, which is to divert the entire sewerage of the city from Lake Michigan, through the famous Chicago drainage canal, and down the Mississippi. Superintendent Davidson had worked for months on this scheme. He was well and vigorous, and he was confident in trying it. A single trial is the test which is confidently invited.

When so many men and women whose words carry the utmost weight in the communities in which they live testify as they do to the great benefit they have received from Paine's celery compound, there can be no hesitancy in trying it. A single trial is the test which is confidently invited.

If you lend a person money it becomes lost for any purpose of your own. When you ask for it back again you find a furious man an enemy by your own kindness.—Plautus.

The furniture, carpet, matting, crockery and glassware displayed at the store of J. B. Cherry & Co. is quite attractive. This department is in charge of Mr. A. B. Ellington, and he has arranged the exhibit most creditably.

In spite of Gov. Russell's appointment, President McKinley has again appointed Judge Ewart as judge of the Federal court for the Western North Carolina district. The appointment was made Thursday afternoon.

Wednesday evening, 12th, at the home of Mr. W. G. Laug, in Farmville, Mr. Needham Askew and Miss Becca Weathington were happily married, Rev. D. A. McWhorter, of the Primitive Baptist church, performing the ceremony. Mrs. M. H. Quinley, of Greenville, played the wedding march as the bride party entered the parlor. The attendants were Miss Ada Fields with Burt Smith, and Miss Etta Smith with David Askew. The couple received a number of handsome presents.
