Divers 1,600 Feet Under Water.

This is an age of new inventions and the newest is a medical apparatus for deep sea diving.

The inventor, M. Pateo del Pazzo, of Venice, the bell is of cast iron and sphere shaped, and is covered with oil cloth three inches thick. It is thus well equipped to resist the enormous water pressure.

The diving globe is constructed to work at a depth of about 1,000 feet—that is more than a quarter of a mile. At this great depth there is very little light, but provision is made for that.

The men inside the diving bell are permitted to see their surroundings clearly by a powerful electric light placed over a strong lens, through which they look. The light, of course, is worked from the inside.

"When does the next train that stops at McAllister's leave here?"

"You'll have to wait four hours."

"I think not."

"Well, maybe you know better than I do, ma'am."

"Yes, sir, and maybe you know better than I do, ma'am."

"I'm expecting to travel on that train myself, so whether I am inquiring for a relative that's visiting my home about it and save her all the trouble, because she's packing up her things and expects to take that train herself and not me, and she'll have to do the waiting and not me, and maybe you think it's your business to stand behind there and try to instruct people about things they know as well as you do, if not better, but my idea is that you're just there because they can't use you in the switchboard department, and perhaps you'll learn some day to give people civil answers when they ask you civil questions, young man, my opinion is you won't."

With a gasp, "Yes, ma'am," Chicago Tribune.

THE EASTERN REFLECTOR.

GREENVILLE, N. C.

D. J. WHICHARD, Ed. & Owner.

Entered at the Post Office at Greenville, N. C., as Second Class Mail Matter.

FRIDAY, JULY 21, 1899.

Boston negroes have organized against the McKinley administration. The leaders in the movement claim that it means the overthrow of imperialism and the Republican party.

The Young People's Union which closed its session Sunday in the city of Richmond adopted a resolution opposing the seating of B. H. Roberts, Senator-elect from Utah, who is an avowed polygamist.

Shot to Death in a Cell.

Gainesville, Tex., July 15.—A mob of about thirty men surrounded the Hall county jail early this morning and by a clever ruse tricked the sheriff into admitting them to the jail, after which five of them went to the cell of St. Smith, the murderer of Judge W. B. Smith, of Atlanta, and shot him to death, riddling his body with bullets and scattering his blood on the cell walls. The mob pretend to be a sheriff's posse from Gainesville county, with a prisoner who they wanted to lodge in the Hall county jail for safe keeping. The leader of the mob said he was the sheriff of Gainesville and the unsuspecting sheriff of Hall county, W. B. Munday, admitted the men. After their bloody work the mob quickly dispersed. The Governor will be asked to offer a reward for the capture of the men composing the mob. There is great indignation among the people here that such a crime was committed. Smith was asleep when the mob entered. Without warning or arousing him, one of the mob deliberately leveled his pistol at the sleeping form and emptied it, one of the first bullets piercing the heart of the victim. The other men opened fire on the prisoner and when they ceased firing the victim's body had been riddled with bullets.

To Blow up the Filipinos.

Washington, July 15.—The War Department has recently conducted an exhaustive series of experiments in San Francisco with high explosives and light foot guns that promises, if adopted, to result in arming the troops in the Philippines with the most advanced type of light field gun in the world. The board has decided on a type of field gun which can fire 15 arm shot per minute, which can be operated by one man and which is full crew can take to pieces in 15 seconds for loading on mules for transportation wherever needed. It is a 3 inch caliber, can carry solid shot, shrapnel or a bursting charge of high explosive which will kill by concussion in a radius of 200 feet. The high explosive has been tested for a year, and is said to be superior to either lyddite, the British, or melinite, the French, high explosive.

Marrying Divorced People.

A case has just come to light in Ann Arbor, Mich., where the entire clerical profession of that city refused to marry a man and woman when it was discovered that the latter had been divorced.

Proposed Warehouse Trust.

We desire to say a word in reference to the proposed tobacco warehouse trust that is being talked of in the adjoining counties and it is this: Those that stay out of the trust will get a large share of Greene county tobacco and that means loss for the warehousemen of the adjoining tobacco markets, because it is a well known fact that we grow the weed here in large and fine as it is anywhere. We hope and believe the trust will go to pieces and we are sure it will. If the tobacco farmers will use their influence with the warehousemen to keep them out of any such swindling game as has been attempted by the promoters of the trust and combines.—Shaw Hill Standard.

TRINITY NOTES.

Trinity College, July 15.—There has been issued a Trinity College Album giving various views of the buildings and sections of the park.

Rev. Plato Durham is on a tour through the western part of the state in the interest of the College. He is making himself felt as a young man of very extraordinary platform ability.

Dr. Russell who is at the head of the College Library, has received a very large number of books since commencement, and is very enthusiastic over the growth of this department of the College.

Very many changes are being made in the surrounding of Trinity Park High School, and we learn from the authorities of this school that the outlook for next year is beyond the greatest expectations.

Plans have been perfected for remodeling the Crowell Science Hall. When this work is completed it will be one of the best arranged buildings for science connected with any College in the South.

President Kilgo expects to add several thousand dollars worth of new apparatus to the Scientific Laboratories.

A very large number of visitors have been to the Park recently. Many returning from the Summer School at Chapel Hill have stopped in Durham to look over Trinity College. These visitors are enthusiastic over what they saw.

The Sunday Schools of Foxboro will picnic in the grove at the Park. These visitors are enthusiastic over what they saw.

President Kilgo expects to add several thousand dollars worth of new apparatus to the Scientific Laboratories.

WINTERVILLE DEPARTMENT.

NEWSY HAPPENINGS AND BUSINESS NOTES.

WINTERVILLE, July 19, '99 D. H. Scott representing Owens & Minor Drug Co., stopped here last night.

Mr. R. A. L. Carr, of Greene county, was here a short while yesterday morning.

Dr. Russell who is at the head of the College Library, has received a very large number of books since commencement, and is very enthusiastic over the growth of this department of the College.

SEVEN SPRINGS.

Where the Mineral Waters Flow

Seven Springs, N. C., July 15.—This popular resort is being well patronized this season by the seekers after health, pleasure and recreation. The here that people after months of business pursuit and toil that has robbed them of flesh and sleep, can find a panacea that restores these depletions upon their systems and sends them away rejuvenated, ready to take up their occupations again. These marvelous waters containing such abundant properties that give health and strength are indeed a blessing to humanity. Would that all who suffer might be able to come here where they may find relief. There is scarcely an ill common to mankind that a bath cannot be found for in the waters of Seven Springs. Gaining flesh at an average of a pound a day is the record people frequently make here.

It is not health alone that the visitor here finds, there is recreation and pleasure as well. It is by no means a dull, tiresome place, but there is much to interest those who come.

This is the second season of Seven Springs under the management of Mr. G. F. Smith, and he is proving himself the right man to be in charge of such a resort. Since last season he has made much improvement to the buildings and grounds, and there is that appearance of attractiveness, cleanliness and comfort about everything. Personal attention is given to every guest and none are allowed to wait for anything.

There is excellent music at the hotel and plenty of opportunity for engaging in dancing by those who enjoy it. W. N. and E. B. Church, well of Wilson, both excellent performers on several instruments are helping to furnish the music.

So far this season there has been an average of about forty guests. Looking over the register for the past week we find, among many others, the following names:

V. A. Rountree, A. S. Copeland and wife, R. L. Crisp and wife, F. Taylor and wife, Kingston, W. H. Smith, Goldsboro; W. A. Quarles and wife, J. D. Barlow and wife, Mrs. J. C. Hadley, Mrs. J. W. Gardner, E. A. Darden and wife, W. D. P. Sharp and wife, W. M. Farmer and wife, J. V. Moore and wife, C. R. Townsend, J. J. Privett, Miss Lottie Woodard, J. D. Cox and wife, W. H. Winterville, E. H. Melville and wife, Chicago, Mrs. F. P. Melville, G. P. Melville, Magnolia; W. F. Morrill and wife, D. J. Whitehead and wife, C. D. Rountree, J. B. Cherry, Miss Della Forbes, Greenville, J. D. Davis and wife, Fremont, Wm. Watters, M. H. Carr, G. B. Hadley, Misses Viola Jones, Sarah Sutton, Ada Wooden, LaGrange, M. A. Gaskins, Newbern; Mrs. W. J. Brothers, Institute; D. G. Grimsby, Snow Hill; Maj. S. L. Hart, L. V. Hart, Tarboro.

Guests arrive every day, and there is that sociability about Seven Springs that makes a stay there really delightful.

POINTED PARAGRAPHS.

The log pen is mightier than the fountain pen.

The fox makes his best time when he travels for his health.

The inside of an airship should be decorated with tin paper.

There is always an ill feeling between the doctor and the patient.
