"Hundreds of persons contend that the twentieth century will begin with January 1, 1900, while other hundreds contend with equal positiveness that the correct date is January 1, 1991," writes E! ward Bok in the October Ladies' Home Joannal. "The 1990 contingent argue that, of course, the new century begins with its numeral date, and go on to figure out very defuly that with the last day of the year 1899 the hundred years will have run their course. They argue that if the first year ended with December 31 of the year one, the nineteen hundredth year must, of course end with December 31, 1899, and that the first day of January, 1900, is, therefore, the first day of the new century. And, curiously enough, this latter figure is correct pert mathematician to figure it on enter the twentieth century with January 1, 1900. But, neverthe give satisfaction. less, we must complete that entire before the actual nineteen hundred
