The Southern Railway, we are told by the Charlotte Chronicle, has begun to furnish the news of accidents on its lines, "giving as nearly as possible a list of the dead and injured, the cause of the wreck and any other notes of interest connected therewith." This has been the policy of Western and Northern roads for some time. It is better than to attempt to keep the news from the public and prevents the circulation, in instances, of grossly exaggerated stories .- Winston-Salem Sentinel.
