Dorothy Dodd SHOES.

The "Dorothy Dodd" Shoe has that something in beauty and style that means individuality.

It possesses "style" in the highest degree; it gives distinction to the foot. In the diversity of kinds there are styles for every person from the exquisite evening slipper to the sturdy winter street boot; they all have a light, airy gracefulness peculiarly their own, which is sure to appeal to a woman's eye. "DOROTHY DODD" Shoes Fit, They Fit Perfectly.

Shoes should always fit closely under and about the instep so as to make it impossible for the foot to slip forward and crowd the toes, while the ball and toes should have plenty of room thus giving free play to the foot.

This is exactly what "Dorothy Dodd" shoes do. Our new Spring Styles in oxfords and sandals will be re very shortly.

Farmville Growing.

FARMVILLE, N. C. Mar. 9, 1904
Farmville is the happiest town in Pitt county.

You just ought to see J. W. Parker. His face is all smiles and he has a pleasant word for everybody. There is sunshine and gladness in his soul, and there is sunshine and gladness in his home. They have named her Vim Lee.

There are other happy homes too. Geo. Moore and John Baker are congratulating each other upon the advent of their sons.

Last Sunday J. Stanley Smith greeted his friends with a long pleasant smile, as he announced the arrival of J. Stanley Jr.

It's quite amusing to see these four God "papas" congregate on some street corner and each tell the other of the cute trick of his own.

But who blames them? Not us, for we have been along that road to, and there have been babies in our home.

But we pause now, to make other announcements later.

Unconfirmed Reports.

Tokio, March 9.—There is no confirmation of the reported engagement between a Japanese squadron and the Vladivostock squadron, or of the re-attack on Port Arthur, or the Japanese movements in southern Manchuria. It is reported that the Hwang Chioshai fort at Port Arthur was half ruined in an earlier bombardment and that now only three of the shore batteries there can be used. It is rumored that the emperor of Korea may shortly visit the Milkado.

Utilizing Vacant City Lots.

In the April Delineator Allan Sutherland writes of a remarkable sociological experiment—no longer an experiment, for its practical value has been demonstrated—that has been tried in several large cities, of changing unbeautiful vacant lots into garden spots. Vacant tracts of land are borrowed from generous owners of real estate, divided into small tracts and loaned to needy people, chiefly old men, invalids and children. They are furnished with seed, tools, etc., and their work is directed by competent supervisors. Among the many beneficent results of the efforts of the Vacant Lots Association, the following are mentioned in the article: Hundreds have found employment who would otherwise have been idle; land has been rescued from weeds and rubbish and made to bring forth fruits and flowers; little children who at best could hope only for a "country week" have found a glorious "country summer;" they have had in large measure at least suggestions of country life, with its blessings of pure air, wholesome food and health-giving exercise, and many have already set their faces resolutely to look for pleasant homes in the country; indeed, the demand from suburban property owners is rapidly increasing for these youthful trained workers of the soil.

LETTER TO W. M. SMITH.

Greenville N. C.

Dear Sir: Devoe is worth \$4 or \$5 a gallon, put-on; how much is another paint worth?

Depends on how many gallons you've got to put-on, to be equal to one of Devoe.

Mr. J. J. Hall, Sheffield, Pa., painted two houses one coat, five years ago, lead-and-oil, took 40 gallons.

Last summer bought 40 gallons Devoe for same houses; had 10 gallons left.

Mr. N. Avery, Delhi, N. Y. owns two houses exactly alike; painted one with Devoe; took 6 gallons. The other with some other; took 12 gallons.

What'd you give for those off paints? Bear in mind you've got to pay for the painting.

Yours truly,

F. W. DEVOE & Co.

SHORT LOCAL ITEMS.

Everybody regretted to see more rain today. Get your razors out. There's going to be a possum-a-dance at the Barlow and Wilson's Minstrels Friday night, 13th. More men would have indigestion if forced to eat their words. The trees are budding rapidly since milder weather has come. The price of shad has come down just a little. The time for hunting birds expires March 15th. Fresh bananas, celery and cabbage at S. M. Schultz. Died in the Woods. Washington, N. C., March 11.—The body of Joseph J. Sermons, who disappeared mysteriously from near the town of Bath, this county, last Sunday night, was found yesterday afternoon. A party of over one hundred men had been searching for Sermons for three days. When found he was sitting between the fork of two gum trees about one hundred yards behind his field. The six hundred dollars that it was alleged disappeared with him was found on his person, being located in his pocket. The surprise is that after Sermons left the house of Mr. Swindell Sunday night he wandered about, he knew not where, until he became exhausted and then died. Telephone wires are great kite catchers.

Guthrie, aged 85 years, dropped dead in the road near his home in Iredell county, on Thursday. Thomas Thacher, of Greensboro, has disappeared mysteriously and so far no trace of him is found. Mercants drew spikes from the rails of the Southern railway track on a curve near Greensboro. It is believed their purpose was to wreck a train. A colored man working in Duke's tobacco factory, at Durham, was caught in a fly wheel and instantly killed. Receipts of the Raleigh dispensary during February were \$12,000, \$900 more than in January. Fishermen along the sounds say the outlook is that the catch of shad and herring will be large this spring. The commissioners of both Craven and Lenoir counties passed resolutions condemning the receivership business of the Atlantic & North Carolina railroad. Owing to the appearance of a case of smallpox in one of the schools in Wilmington, the health authorities ordered that pupils of all the city schools be vaccinated. Telephone wires are great kite catchers.

The first of the union services in which the several churches of the town have joined, was held Sunday night in the Presbyterian church. The congregation was very large and good interest was shown. Rev. J. A. Hornaday preached an excellent sermon from the text "Take away the Stone." He said that God requires human hands to do all they can do, and when the limit of their ability has been reached then God completes the work.

The members of the Lumberton Methodist church have decided to build a new church edifice as an early date. Fresh bananas, celery and cabbage at S. M. Schultz.

Lightning Burns a Town. Charlotte, N. C., March 14.—The town of Pineville, ten miles south of here, was destroyed by fire early this morning and only one business house remains. The fire is believed to have originated from a stroke of lightning during a severe thunder storm. The total loss is estimated at \$20,000 with \$10,000 insurance. The fire started in the drug store of Dr. W. K. Reid and was discovered by a negro barber.

Rev. W. E. Cox will preach in the chapel at the county home next Sunday afternoon at 8 o'clock.

UNION SERVICES. The Meetings Growing in Interest. The attendance was quite large again, Tuesday night, at the union services in the Presbyterian church. Rev. J. A. Hornaday preached from the text "Thou fool; this night thy soul shall be required of thee." The sermon was strong and forcible. He showed that from the world's viewpoint the man of whom the text was spoken was a great success, in that he made abundant provision for himself in this world's goods; but from God's standpoint he was a fool, in that he had neglected the most important matter of all, provision for his soul. So many in this day and time do likewise. A year, a decade, a lifetime cannot determine what real success is—eternity alone can reveal it. After the sermon a number of people stood to request prayers. Barlow & Wilson's Minstrels. Conroy and Murre are the latest dancers in the country. They are with Barlow and Wilson's Minstrels. Barlow and Wilson's Minstrels, which appeared here last night, opens a new era in minstrelsy. The performance was devoid of boisterousness, and the songs and speeches language, which is common with some of the so-called first class companies yet the vivid portrayal of the unique attributes and the volent humor of the genuine darkey, was charming to the extreme. The vocal numbers were all given in a manner that took with the audience from the start, while the orchestra was all that was claimed for B. Barlow and Wilson's Minstrels always find a cordial welcome awaiting them here.—Salt Lake Daily Desert News. Will appear at the opera house Friday night, 18th.

Business Houses Closed. All the business men of Greenville have agreed to close at 7 o'clock p. m. during the progress of the union services in the Presbyterian church. This will give both business men and employes an opportunity of attending the services. Such interest on the part of the business people in religious services is commendable and we believe a great blessing to the town will result from this series of meetings. Go and See. What is it? Is it a serpent or a frog, or what? We will enlighten you. It is the phenomenal contortionist, Reuzo, who appears nightly with Barlow and Wilson's Minstrels. Will be in Greenville, Friday night, 18th. Court Next Week. The March term of Pitt Superior court, for the trial of civil cases, will begin next Monday. Judge Justice will preside. No Glass Garage Rent Mad. will wear as long as Devoe's. No others are as heavy bodied, because Devoe's weigh 3 to 5 ounces more to the pint. Sold by H. L. Thayer. A premature explosion in a rock quarry near High Point caused the death of a young man named Virgil Jesler. Judge B. F. Long was rather severe in sentencing two pillars of the law in Madison county criminal court last week. One justice of the peace was fined \$300 for "tanking up" and the other \$260 for practicing law. There seems to be a tendency on the part of some "J. P.'s" who have held office long enough to know a little law and to be able to partially interpret the code to dispense with a lawyer for the client. In such cases the court fees are always made safe, and usually the fellow who is brought before the court had rather submit to the payment of cost than being put to the trouble of setting up a defence. The practicing "J. P." needs to be closely looked after, and in both sentences referred to above Judge Long has set an example that other judges will do well to follow.—Stanley Enterprise.

As the Business Man. When you invest your advertising money, consider where you may invest it most safely and most profitably. THE REFLECTOR is the paper the people of Pitt read. They take it, pay for it, read it, believe in it, and depend upon it. Its character helps the advertiser and its circulation brings returns. Why She Didn't Marry. A beautiful maiden was asked why she did not marry. "There's no need of it," she answered. "I have a parrot that swears, a cat that stays out all night, and a monkey that chews tobacco and spits all over the house. I am satisfied."

Coward & Patrick Dissolve. The firm of Coward & Patrick has dissolved copartnership, B. F. Patrick purchasing the interest of E. A. Coward in the business. E. A. Patrick is the other member of the firm and father and son will continue the business together. More Houses Needed. Greenville is far short of enough houses to supply the demand. Let even the possibility arise of one being vacant and there are at once several applications for it.

He was about 70 years of age, served in the civil war, had been in bad health several years, was a good citizen and a member of the Free Will Baptist church. He left a wife, and several children all married. North Carolina stands third as a tobacco-producing state. Her crop will average 75,000,000 pounds, valued at nearly \$7,000,000. Its tobacco factories make up about 35,000,000 pounds valued at \$7,000,000 and there's something like \$26,000,000 invested in tobacco manufacturing plants in the state. Virginia stands second and Kentucky first in tobacco producing.—The Rhesonian. Again at the Old Stand. Having disposed of the Burch Job printing office I have gone back home with the REFLECTOR. I thank my many friends for their past patronage and hope they will favor me in the future with their job printing. If its stationery you want let the REFLECTOR do it for you. Yours truly, W. F.
