HANDLED IN GREENVILLE EXCLUSIVELY BY
A. H. TAFT & CO

LETTER TO JOHN J. ELKS.

Dear Sir: But few of the men who sell the hundred different paints in the market know much about. All Devco agents have a state chemist's certificate telling just what it's made of; they know a good deal, not only about Devco but the rest; we see that they do. We buy every paint, that has any sale, and analyze it. Our agent finds out all about it. When we know what a paint is made of, we know how it will act; we know how far it goes, and how long it wears. Devco is the standard; call it 100. The best of the rest is about 75; the worst about 25; the rest are between. But the men, who sell them, don't know any better. They know what the maker tells them. That is: they know that he tells them. They don't know whether he tells them the truth or not. The business is not conducted on knowledge; the less they know, the more comfortable they are. Yours Truly,
F. W. Devco, & Co.

An Honest Farmer.

A western paper says that an Iowa farmer had a cow killed by a train on a railroad. He presented his claim to the company in a note in which he said: "Thirty dollars will be considered sufficient, as the animal killed was but a common cow and by no means the best of my herd." The claim agent of the road promptly and cheerfully enclosed a check for \$100. He wrote the farmer: "It is the first instance since my connection with the road that any other than a full blooded animal of great value has been killed by our train, and I enclose \$100 as damages and a reward for your honesty, and I would humbly ask for your photograph to be framed and placed in my office."

Announcement.

I beg leave to announce to the farmers of Pitt and adjoining counties that I have associated myself with the Parham warehouse for the coming season. I assure you of my appreciation of the large patronage and support you have so kindly given me during the past eight years. The coming season, I will be in position to serve you well and look after your interest at all times. Hoping to see all of my friends and patrons at the Parham House, I am,
Very truly your friend,

Kinston and Greenville colored baseball teams played a slow game yesterday afternoon at the ball park, which resulted in a defeat of the home team by a score of 10 to 5. Several pretty plays were made and the teams showed possibilities of good ball playing; but yesterday's game lacked snap and ginger to make it interesting.--Kinston Free Press 29th.

HON. R. B. GLENN.

Forsythe Democrats Endorse Him by Resolutions.
A large and enthusiastic mass meeting of the democracy of Winston-Salem and Forsyth county was held in the court house last night. Mr. Manly offered the following resolutions, which were received with cheers and unanimously adopted: "Whereas, the name of Hon. R. B. Glenn will be presented to the coming democratic state convention for governor, and that we, his neighbors and friends, believe him to be qualified and worthy of that high office and recognize that he stands on the broad plateau of middle life, in the full flush of his matured faculties. He is a good lawyer, a strong thinker, an able campaigner, a sound statesman, a man of the people and for the people, and with the courage of his convictions. "He is a man who loves his party with his whole heart, who loves it most when in the right, but, right or wrong, weak or strong, in prosperity or in adversity, he is a loyal, true, steadfast democrat. "He has been a lifelong party worker, commencing in 1876 taking part in every campaign from that day to this. Free of cost to his party, he has placed himself in the hands of the executive committee, going cheerfully wherever and whenever sent. In the dark days of the state's oppression he was ever in the thick of the fray, fighting to rid the people of the black cloud placed upon them by negro domination and radical misrule. "The people will not forget his campaign with Marion Butler, his services as a member of the Senate committee that helped from the constitutional amendment, his more than one hundred speeches for white supremacy and good government in 1903, and his untiring efforts in every campaign for his party's success. "Being now under fifty years of age, he has no war record, but at South Mountain his father gave his life for his state and a cause that has always been dear to his son. He was baptised a true and loyal son of North Carolina in the married life of his father and from his earliest manhood he has fought the battles of his party in the most trying crises in its history, and perhaps as no other son of North Carolina has done. "He has not yet been honored with an office directly from the people of the state. It is true that he has been an elector, a member of the General Assembly and has served as district attorney, but these were positions that did not carry with them the stamp of approval, recognition and confidence of his fellow citizens of the state. He has labored for the success of the Democratic party for twenty eight years on the day of election--never studying his own ease, but only asking where he was needed--has given his services to the people. Now he asks to be governor, a great honor, but he has won and deserves. We believe that those who have enjoyed the fruits of the victories he has helped to win, and

the people whose interests he has helped to defend and uphold, will rally to his support and nominate him.

"And whereas, Mr. R. B. Glenn is the choice of the democrats of this county, and, we fully believe, the choice of the majority of the democratic voters of the state: "Resolved, That the democratic voters of Forsyth county form a Glenn Democratic Campaign Club for the purpose of aiding him in his nomination, and hereby pledge ourselves to use every honorable means to accomplish this end."

Truth in Preference to Fiction

GREENVILLE, PITT COUNTY, N. C., TUESDAY, MAY 3 1904.

Crum yet lacks confirmation.

The war of words goes merrily on at Raleigh.

Spring is so fickle as to look back to flirt with winter.

The man who did not pay his poll tax has no one to blame but himself. He can stand off and see the other fellow vote.

The "yellow peril" is here in the return of the yellow shoes.

The foliage of the trees has a way of getting there and looks like its full growth will be reached by the 10th of May, as usual.

The St. Louis exposition opens Monday and will be a great show.

Heart's Boston paper did not seem to get him many delegates among the bean eaters.

There is an old saying that time and tide wait for no man, but a passenger train at Monroe, the other day, waited five minutes for a couple to get off the train and get married.

Though Crum was not confirmed, through the persistency of the president he continues to hold the office.

Since a republican must have it, North Carolina has no kick to make over the appointment of Judge Pritchard as the successor of Judge Simonton. His party did not have a better man for the place.

The Lord does not care for your tears and shouts when you will not pay your honest debts.—N. C. Baptist.

As a large deposit of coal has been discovered in Alaska the people there may be better prepared for winter hereafter.

Since the action of the New York convention Mr. Hearst has pulled down his sign and closed his headquarters in New York city. Now if he should wheel in line with the procession for Judge Parker it would spike Mr. Bryan's gun.

The president was in a hurry for congress to adjourn. He was afraid they would leave too much to be explained during the campaign.

The Wilmington Messenger offers the prediction that within fifteen days there will be begun a proceeding for the appointment of a receiver for the Atlantic & North Carolina railroad against which no cry of conspiracy and graft can be raised. We shall see.

The senate passed Congressman Small's bill for a light house at Hatteras just as it was passed by the house. All it needs now to be operative is the president's signature.

"Mrs. Wiggs of the Cabbage Patch" does not like the persistent calls of curious people. Her last scene was in the police court where she was haled on the charge of emptying a jar of slops on a caller's head.

A marvelous real estate deal recently took place in Atlanta. Four young men purchased a body of land on the suburb of the city for \$300,000. They divided the land in lots and in just three weeks after the purchase had an auction sale. At this sale enough lots were disposed of to pay the purchase price for the entire tract, and they had enough land left to be worth \$230,000 more at the same rates of that sold. This shows the profit in handling real estate judiciously. We believe such deals could be made, on a smaller scale, in any progressive town.

Ohio democrats are suggesting bringing out a dark horse for the presidential nomination in the person of Col. James Kilbourne. of that state. Any number of dark horses, or horses of any other color, cannot get ahead of Judge Parker in this race.

Some of the New York preachers are queer ones, viewed from this distance. When the question of open bar rooms on Sunday was being agitated, a number of preachers, one a very prominent man, openly advocated permitting the saloons to be kept open a portion of the day on Sundays. Now New York and Brooklyn are exercised over the question of Sunday basehall and several Brooklyn clergymen have announced that they are in favor of Sunday games. Down South a preacher who would advocate open saloons and baseball games on Sunday would not be considered orthodox, to say the least of it.—Charlotte Chronicle.

The trial between the state corporation commission and the Atlantic Coast Line, relative to restoring the connection at Selma, is in progress at Raleigh. It is to be hoped that the trial will terminate in the connection being restored and relieve the people down this way of much inconvenience.

Judge Peebles has expressed his intention of having the Lumberton lawyers before him on the contempt proceedings at Fayetteville May 2nd. As this is a matter personal to Judge Peebles the hearing should be before some other judge. No judge should sit on a case where he himself is an interested party. If he persists in hearing it the lawyers should move for a change to a hearing before another judge.

DEMOCRATIC PLAN OF ORGANIZATION.

1. The unit of county organization shall be the voting precincts. In each precinct there shall be an executive committee, to consist of five active democrats, who shall be elected by the democratic voters at the several precincts in the meeting first called by the county executive committee. And said committee so elected shall elect one of its members as chairman, who shall preside at all committee meetings.

2. The chairman of the several precinct committees shall compose the county executive committee, which shall meet at the same time and place as the county convention first held in each election year, and elect a chairman of said county committee, who need not be a member of the committee, and he shall preside at all meetings of said committee, and shall hold his place until his successor shall be elected. A majority of said precinct chairmen, in person or by proxy, shall constitute a quorum. The county committee shall likewise appoint a central committee of five, who shall act in its stead when the county committee is not in session.

3. In case there shall be a failure on the part of any precinct to elect its executive committee for a period of thirty days, the county executive committee shall appoint said committee from the democratic voters of said precinct.

4. The members of the precinct committee shall elect to any vacancy occurring in said committee.

5. The county executive committee shall call all necessary conventions by giving at least ten days' notice by public advertisement in three public places in each precinct, at the court house door, and in any democratic newspapers that may be published in said county, requesting all democrats of the county to meet in their respective precincts on a common day therein stated, which said day shall not be less than three days before the meeting of the county conventions, for the purpose of electing their delegates to the county conventions. Thereupon the meeting so held shall elect their delegates to represent the precincts in the county convention from the voters of the respective voting precincts, which delegates, or such of them as shall attend, shall vote the full democratic strength of their respective voting precincts on all questions that may come before said county conventions. In case no meeting shall be held in any precinct in pursuance of said call, or no election shall be made, the precinct executive committee shall appoint such delegates.

6. At every precinct meeting there shall (before the delegates to the county convention are elected) be a vote taken for the different candidates office, whose names may be presented and the delegates shall vote in the county convention of their respective districts in accordance with this vote; that is to say, each candidate shall receive in the county convention that proportion of the vote to which the precinct may be entitled which he received in the precinct meeting. The chairman and secretary of the precinct meeting shall certify to the county convention the vote received by each candidate at the precinct meeting.

7. Each precinct shall be entitled to cast in the county convention one vote for every twenty-five democratic votes, and one vote for fractions of thirteen democratic votes cast by the township at the last preceding gubernatorial election; Provided, that every voting

precinct shall be entitled to cast one vote, and each precinct may send as many delegates as it may see fit.

8. The chairman of the precinct committees shall preside at all precinct meetings. In their absence any other member of said committees may preside.

GENERAL RULES.

1. At all conventions the delegates shall be selected as near as may be from the friends and supporters of the candidates voted for.

2. Such delegates—or alternates of absent delegates—as may be present at any democratic convention shall be allowed to cast the whole vote to which their precinct or county may be entitled.

3. In all conventions provided for by this system, after a vote is cast, there shall be no change in such vote until the final result of the ballot shall be announced by the chairman of said convention.

4. All democratic executive committees shall have the power to fill any vacancies occurring in their respective bodies.

5. The chairman of the different county conventions shall certify the list of delegates and alternates of the different district and state conventions, and a certified list of said delegates and alternates to the secretary of the state central committee.

6. It shall be the duty of the county committee and its chairman to furnish such information and make such reports to the chairman of the state committee as he may desire.

At a meeting of the executive committee held on March 17, 1904, the following rule was adopted:

"In all conventions a nomination may be made by any majority, even though it be a fraction of a vote."

F. M. SIMMONS,
Chairman state democratic executive committee.

ALEX J. FIELD,
Secretary.

"The Man Who Does Things."

Several years ago in a European court city, where there were gathered a number of newspaper correspondents, an enterprising American newspaper man acquiring for himself the title of "the man that names names," because he, in his letters to his papers, not only sent the lives of court news, but called names of prominent individuals connected with the "doings." This was against the ethics of the correspondents' circle, but unknown to him, when it was found out he was dubbed as aforesaid. After explanations no blame was attached to him for violation of the custom, but the sobriquet stuck to him.

So in the national house of representatives Congressman Small, of the eastern Carolina delegation, has earned for himself the commendatory appellation of "the man that does things," because of his indefatigable labors in behalf of his section. The two are not made for comparison, but to show how quickly the people will appreciate the strong characteristics of active men and leaders of thought.

Congressman Small's latest coup was in obtaining in the closing days of congress the passage of the bill appropriating \$500,000 for a light house off Cape Hatteras sheals commensurate with the danger and importance of the place. The name will no doubt stick to Mr. Small and it is worthily bestowed.

Congressman Small was ably assisted by the North Carolina delegation in congress in his efforts for the bill, and what is said of him can also be said of the whole delegation, for the present one from this state is weak at no point—Kinston Free Press.

The general belief is expressed that the tobacco crop of Pitt county this year will not be over fifty percent of what it was last year.

STATE CONVENTIONS.

The state convention shall be composed of delegates appointed by the several county conventions. Each county shall be entitled to elect one delegate and one alternate for every one hundred and fifty democratic votes and one delegate for fractions over seventy-five democratic votes cast therein at the last preceding gubernatorial election.

Told of Mark Twain.

Mark Twain and W. D. Howells were one day lunching in a cafe in New York.

Two overdressed young men entered, and the first said in a loud voice:

"Waiter, bring me some bi-que of lobster, a bottle of white wine and a chop. Just mention my name to the cook, too, so that everything will be done to my liking."

The second young man said:

"Bring me some sole with peas, and tell the cook who its for."

Mark Twain gave his order a moment later. He said with a wink at his companion:

"Bring me a half dozen oysters, and mention my name to each of them."

National Bureau's Report.

Washington, D. C., April 26.—The Weather Bureau's weekly summary of crop conditions says: While preparations for corn planting have been active in the principal corn States, as a whole but little planting was done during the week, owing to low temperatures. In the Southern States corn has suffered from cold weather, and is small, with irregular stands.

Cotton planting is generally over the northern portion of the belt and is nearly finished in the central and southern portions, where chopping is in general progress, the early planted in Texas and Florida receiving its first cultivation.

Most of the central and eastern districts the stands are unsatisfactory and much replanting will be necessary. Low temperatures and droughty conditions have retarded germination very generally in the central and eastern districts. Planting is about finished in Texas, except in the central and southwest portions of the cotton area, where some fields of wheat ruined by drought are being planted in cotton.

Tobacco plants have been injured by frost in Virginia, and Kentucky, and are small in Tennessee and North Carolina. Some transplanting has been done in South Carolina.
