Big Fire at Falkland.

About midday on Wednesday
the large lumber mill, grist mill
and ginning plant of J. L. Foun-
tain & Co., at Falkland, was de-
stroyed by fire. The fire occurred
while the hands were stopped for

iginated in shavings that had
blown near the furnace. The fire
spread very rapidly and nothing
was saved except a little of the
lumber on the yard. Besides the
buildings and machinery, a large
quantity of lumber, several barrels
of corn and about 75 rolls of bag-
ging were destroyed. The loss is
between \$4,000 and \$5,000 with
only \$1,000 insurance.

THE PLATFORM.

Adopted by the Democratic State Convention.

The Democratic party of North Carolina, in convention assembled, declaring anew its allegiance to the fundamental principles of government as expressed in former platforms, congratulates the people of the State that a Democratic administration has again established throughout their borders the reign of law and liberty and the reign of peace and progress. Radical rule with its nightmare of horrors, has passed away. Our people are no longer employed in guarding their home, and protecting their lives, liberty, and property as they were under Republican rule; but safe in the protection of the law, breathing the air of liberty and enjoying the freedom which comes from security, our men and our women are devoting their energies to the peaceful pursuits of honest industry, to the education of their children, and to the care of the hopeless and unfortunate. Agriculture, manufacturing, and commerce are bounding forward in helpful rivalry, neither receiving nor desiring subsidies or protection except that afforded by a stable and honest government. Nowhere in North Carolina is there riot or disorder; nowhere is there suffering or destitution. Such are the fruits of peace and order, of honesty and efficiency, of intelligence and patriotism, of Democratic administration under leadership of the peerless orator, statesman, and educator, Charles Brantley Aycock, and the other honest and efficient public officials associated with him in the State administration in all three departments of government.

North Carolina has again come into her own. She stands in the forefront of Southern States, leading all in educational and industrial progress. Her sons are looked to at home and abroad for educational, industrial, and commercial leadership. What a contrast to conditions existing recently when the delegation of our educational, charitable and penal institutions, through the vices, incompetency, extravagance and corruption of Republican boards of management caused the State to hang her head in shame and stand an object of pity among her sister States.

RACE PROBLEM SETTLED.

The Democratic party points with pride to its settlement of the race problem in North Carolina—a settlement that depends upon Democratic supremacy for its permanency. The constitutional amendment furnishes to all the people of the State safeguards of peace and order, of life, liberty, and happiness, and guarantees educational, religious, and social progress as well as industrial prosperity and development.

EDUCATION.

We re-affirm our constitutional declaration that "religion, morality, and knowledge being necessary to good government and the happiness of mankind, schools, and the means of education shall for ever be encouraged," and "that the people have a right to the privileges of education, and that it is the duty of the State to guard and maintain that right," and we express our hearty approval of the educational work of the present administration, and our gratification at the great improvements made in our educational conditions under the present Democratic administration.

administration, and would call attention to the fulfillment of the former promises of the party to provide at least a four months' school term for all the children of the State. And we further express our cordial commendation of the work of the teaching profession for the mental, moral, and material advancement of the people, and pledge for the future our best endeavors to strengthen and increase the usefulness and efficiency of our whole public educational system.

TEMPERANCE.

We approve the general principles of the Watts law regulating the manufacture and sale of liquors and limiting the same to localities in which there may be adequate police protection. The principle that no saloons or still shall operate except under police protection is as sound as that whiskey shall not be sold to minors, to drunkards, or on Sundays, or near schools and churches. The General Assembly has the power, and when controlled by the Democratic party, can be trusted to make all amendments that experience or conditions may demonstrate may be wise and proper.

THE STATE PRISON.

The contrast between the present and preceding administration of the State prison speaks trumpet-tongued of Democratic efficiency and Republican incapacity and ineffectuality. In all the history of the

Truth in Reference to Fiction

GREENVILLE, PITT COUNTY, N. C., TUESDAY, JULY 12 1904.

PLAYING FOR POLITICS.

The Raleigh Post of Wednesday contains this remarkable statement. "With two antagonistic dispensary boards operating competitive dispensaries and each board indicting the other board for selling liquor illegally, Greenville, N. C., presents a peculiar situation, calculated to furnish some highly interesting litigation."

Col. Harry Skinner, United States district attorney, arrived from Greenville, his home, yesterday and reports that the people of Pitt county are greatly wrought up over the dispensary muddle. The former aldermen in Greenville elected a dispensary board and two of the commissioners, it is charged, did not vote for the dispensary. Later when the new aldermen went into office they elected a different set of dispensary commissioners. Now both boards have a dispensary in operation and are claiming that the other board is acting in violation of the law.

It looks like a man might go as far as from Greenville to Raleigh and come over the facts long enough to tell the world they are. When Col. Skinner left Greenville Tuesday morning there was, and up to this time is, but one dispensary in operation here, and that one illegal. There is no such thing as a "dispensary" in our illegal. There have been several indictments, but they are all against the men who are attempting to act as commissioners, manager and assistant manager of an illegal dispensary, and these have been bound over to the Superior court in a number of cases.

It is true that the present board of aldermen, knowing that the acts of their predecessors in appointing dispensary commissioners were illegal, adopted an ordinance removing them. They also proceeded to appoint a legal board of commissioners and these are now preparing to open and conduct a legal dispensary.

It is also true that the illegal dispensary commissioners refused to stop their illegal sale of liquor after being ordered to do so, and they have no more prominent backer in this unlawful conduct than Col. Skinner himself, who is assuming to stand between them and harm when they get to the Superior court.

It is further true that no one is more elated over this "highly interesting litigation" than Col. Skinner, a republican district attorney, and he is attempting to make all the political capital possible out of it. It is astonishing, however, that there are some others, men claiming to be good democrats, who through the hope of lifting themselves into office are his willing tools. Too blind to see through his scheme, they rush forward to execute his orders given from the rear, then wait for him to go to Raleigh and get further orders from "higher up." (We apologize to

the New and Observer for infringing on its phrase.)

The agitation now is purely a political play, hoping to create discord in the democratic ranks and make republican converts. It is well known that the former saloon keepers of Greenville—though they fought as long as there was any hope, as was expected—are not now in this fight. When they found out they were beaten they gave up and closed their business at the time prescribed by law.

So the opposition now to a legal dispensary is purely a political fight under republican generalship, and we want to ask if the good democrats of Pitt county are going to allow themselves to be duped by it.

The Biblical Recorder, of Raleigh the organ of the Baptist State Convention, published a souvenir edition on the 6th, that being the seventeenth anniversary of the paper. The Recorder has had six editors during its career, and under the able guidance of the present editor, Mr. J. W. Bailey, has reached a circulation of about 10,000 copies.

Must be something in those 5 o'clock a. m. nominations. Glenn was nominated for governor at 5 o'clock after an all night convention and Parker was nominated for president at 5 o'clock after an all night convention. Both of them will be elected.

A Black Jack desecrat gives our readers a timely article today. There are many who, like him, will see the dispensary matter in its true light when they stop listening to the falsehoods being circulated for political purposes.

The United States District Attorney was not in evidence with his authority from "higher up," and his office blinded lieutenants were not equal to the occasion, hence those whom they had advised into trouble had the bag to hold.

The result of the elections in Charlotte and New Bern shows how the sentiment against saloons continues to grow. May it continue to increase until there is not a saloon left in the state.

The saloons in Greenville have been closed a week, yet the change for the better in the moral tone of the town is so pronounced as to be the subject of general comment.

The Pike shows at the St. Louis fair complained that the convention was the biggest attraction and took the crowd away from them.

We hope Wilmington and Greensboro will do as well in their coming anti-saloon elections as did Charlotte and New Bern.

A week brings notable changes. For example, take the difference in the Greenville dispensary situation a week ago and now.

When men set themselves up to be greater than the law and openly defy it, they may expect to be overtaken by the strong arm of justice.

It comes from St. Louis that there is a probability of Governor Aycock getting a complimentary vote from the North Carolina delegation for the vice-presidency.

How it warms and cheers the heart to hear some one else like you to another. Never suppress an inclination to speak good words of anyone. They are the violets that grow along life's rugged pathway.—Durham Sun.

Firemen's Convention.

The seventeenth annual convention and tournament of the North Carolina State Firemen's Association will be held this year at Salisbury, from August 23 to 25th, inclusive. The generous citizens of Salisbury are very enthusiastic, and have arranged a prize list for State and Inter-State contests in excess of any other city that has hitherto entertained the association. Invitations have been sent to the departments in Virginia, Georgia and South Carolina in addition to every company in our own State, and the indications are that the attendance will be very large, and the event a notable one. The beneficent services of the State Association are just beginning to be realized by the property owners of the State.

Their Age, "If Living."

James R. Young, insurance commissioner of North Carolina, narrated, at a banquet in Raleigh, some of the vicissitudes of an insurance man's work.

"An agent in Wilson," he said, "told me the other day about an experience that he had with a cotton planter.

"This planter, having decided to insure his life, was filling in the usual printed list of questions.

"When he came to the stereotyped queries, 'Age of father, if living,' and 'Age of mother, if living,' he thought a little while, and then put down his father's age at 117 years, and his mother's at 119.

"By jove," said the agent, 'you come of a long-lived family, don't you?'
"Why, no; not particular," the planter replied.
"But your father and mother—"
"Oh, they're dead," the planter interrupted. "They died young. But the paper asks for their age, if living," so that is what I put down."—Washington Post.

WHY THE DISPENSARY IS BEST.

BLACK JACK, N. C., JULY 7, 1904. EDITOR REFLECTOR:

We plain country people down here have been very much disturbed over the many reports that have been circulated by the friends of the saloons, or we might more properly say the enemies of the dispensary in Greenville. We have been told that it was a blow at the rights of the plain country people; that one half of the taxes from the bars went into the county school fund but that all the profits from the dispensary went into the town school fund. It is very naturally worried us to feel that our democratic legislators would make any changes that would take from our already too scanty school fund. This report has gone broadcast over our section, and a great many have become embittered against the dispensary and lukewarm to the democratic party for allowing it.

We plain country folks realize while the largest per cent of us are poor in purse that we are the possessors of as much patriotism and integrity as any other class. That when the country needs protection from the enemy no other class furnishes the same number of men and quantity of supplies. We naturally ask ourselves why our democratic representatives allowed such injustice done us? Upon inquiry of those learned in the laws, placing our grievances before them, they explain by telling us that we have been lied to by wholesale. That the profits from the dispensary is equally divided between the county school fund and the town school fund. They tell us if the dispensary pays here as it does in other towns like Kinston, Wilson, Henderson, Louisburg, Clayton and Raleigh, that instead of our getting eleven hundred dollars from the bars for the town and eleven hundred for the county, we will get five thousand for the county schools and five thousand for the graded schools of the town from the dispensary. What fool had not rather have five thousand dollars than eleven hundred?

Further we are told that the judges and solicitors of state superior courts say that the dispensary system has lessened crime in those counties where it has had a fair trial one half. Is this not an item for the taxpayers to consider? If it lessens crime one-half will it not lessen our court costs? Unquestionably so. Our Black Jack folks know that a good part of our January court was consumed in the trial of one drunken boy for the killing of another drunken boy. We see that a good part of our next September court will be consumed in the trial of another murder case where whiskey was the cause.

But a short while since we were told that one of our ablest superior court judges said that he had always been opposed to a dispensary and prohibition until lately that he had noticed the great decrease of crime in the dispensary counties and had become convinced that it was the best solution of the whiskey question far better than prohibition, that in a county with open saloons it took him eight days to get through with the state docket that in the adjoining county with more inhabitants with a dispensary it took him only 3 days.

I am sorry our whiskey friends have made this effort to deceive and mislead the people. They fail to recollect that the rebound of a lie always hurts the fellow that tells it and helps the fellow that it is intended to harm, especially when there is four months time to develop the lie in.

Before I found out the real truths of these statements I was alarmed for the welfare of the democratic

party, the only party for the decent element in the South to affiliate with, but alas! when the truth is found out, I cannot but believe it will help us. No person or party has ever yet been injured by the passage of laws that improve the morals of the country.

If the dispensary lessens crime as our judges and solicitors say it does and thereby decreases taxes, and the profits from it trebles the taxes derived from the open saloon and in this way gives us three dollars for educational purposes when we get one, how can any good citizen object to it? It will be a sad day when our people prefer ignorance whiskey and vice to schools and morality.

We are told that Kinston reports for the first six months profits six thousand against three thousand for the entire year from saloons, Wilson, Louisburg, Clayton and Raleigh have done better. If this is true Pitt will do as well when all the obstacles are removed that have been placed there by its enemies to prevent its success.

BLACK JACK DEMOCRAT.

Tobacco Heart.

It is estimated that about 20 per cent. of the young men who recently applied to enter the Naval Academy have failed in the physical test, and the failure was largely due to the use of tobacco, resulting in the irregular beating of the heart. Now, says physicians speak of "the tobacco heart," a trouble caused by the excessive use of the weed. When the smoker develops into a "cigarette fiend," the services of a physician are necessary, but before this point is reached the heart may be permanently injured. The trouble is of gradual growth and it is only when the young man is subjected to a physical examination that the extent of the disorder becomes known.

An observant Englishman recently on a visit to the United States, said in no country in the world had he ever seen smoking carried to such excess as in America.—Baltimore Herald.

Reflections of a Bachelor.

Some men are so naturally discontented that they hate to go to bed because it means they've got to get up in the morning.

When a woman sees her neighbor's husband going away with a traveling bag she never feels sure he is not leading a double life.

A woman's idea of an ideal shirt waist seems to be something that off her looks like a porous plaster and on her a fish scale run through with ribbons.

WINTERVILLE DEPARTMENT

This department is in charge of A. D. Johnston, who is authorized to represent the Eastern Reflector in Winterville and territory.

Winterville, N. C., July 9.

We went up to Greenville the other day—yes on the glorious fourth and the first Monday, too. We have seen much larger crowds there, but they looked awfully sober. We went over to the dispensary a little while between arrests. They were doing some biz but not much.

It is a pity that there should be such a stir over it. Why don't the two crowds make up the cases and send it up to the Supreme court or at least to some members of that court and then agree to abide by their decision.

If Mr. Hooker and his men are in the right, the action of the mayor and board of aldermen is going to cost the town of Greenville and some individuals a pretty sum, beside cutting off the revenue from dispensary No. 1.

If the mayor is in the right, (and morally he is) whether the courts sustain him or not, his determination is commendable, and Mr. Hooker and his No. 1 dispensary crowd have run against a snag that will wreck their old craft. From their persistency, one would believe that both sides think they will win. A fine of \$50 and \$11 costs in 3 or 4 cases every day can't be stood even by the Hooker faction from now, till September court, even though they are rich men, and should all the costs go against Greenville, the town would go broke.
