### ILLEGAL DISPENSARY CLOSED.

Pending the Hearing of the Matter.

At noon today S. T. Hooker, W. B. Greene and R. L. Smith commissioners, Z. V. Hooker, manager and J. M. Bousa, assistant manager, who have been conducting an illegal dispensary here for the past week, were arraigned on a bench warrant before Hon. H. G. Connor, Associate Justice of the Supreme Court. Justice Connor issued the bench warrant and made it returnable here today before Judge George H. Brown, Jr. Learning Friday that Judge Brown could not be here, Justice Connor came himself to try the case.

When the case was called F. G. James and J. L. Fleming, appearing for some of the defendants, asked for a continuance on the ground that all of the defendants did not have counsel and they had been depending on Col. Skinner and Col. Argo to arrange the case. Solicitor L. I. Moore appeared for the state, F. C. Harding and ex-Gov. Jarvis for the town. These wanted the matter settled and a proper construction of the law on the question.

Justice Connor suggested that the evidence be heard today, and that another day and place could be set for hearing the argument of counsel. This suggestion was agreed to, the defendants in the meantime to close the dispensary they have been running and not sell any whiskey while the matter is pending.

Court then took recess until 4 o'clock p. m. to begin hearing the evidence.—Daily Reflector 9th.

### ILLEGAL DISPENSARY ABANDONED.

The Commissioners Make Overtures to Quit.

The board of aldermen held a special meeting Monday afternoon to officially receive and consider a letter from the commissioners who have been conducting the illegal dispensary on Five points. Mayor protem J. B. Moye presided over the meeting and five other members of the board were present.

The letter received was as follows: GREENVILLE, N. C., July 11, 1904. To the board of Aldermen:

We the undersigned hereby resign, relinquish and abandon any right or claim of right which we may have or claim to have to run and operate a dispensary in the town of Greenville on condition that the criminal prosecutions against us be abandoned.

We were advised that we had the legal authority to open and operate the dispensary and acting upon this advice which we believed to be correct we have attempted to do so. It was not our purpose, as some have charged, to defy the law of the state or town. Without waiting to have the question involved settled in the courts we have concluded, for the sake of peace in the town, to abandon the further assertion of our claim to operate a dispensary if your body for like reasons will abandon the prosecution.

W. B. GREENE,  
R. L. SMITH,  
S. C. HOOKER.

The board accepted this offer and directed that the following communication be sent to the parties:

To S. T. Hooker, W. B. Greene and R. J. Smith:

The board of aldermen of the town of Greenville have received yours of this date, abandoning your claim of right to operate a dispensary in the town of Greenville, and have ordered this communication to be spread upon the minutes of this board; and in reply thereto this board accepts the conditions upon which you make this tender.

We have requested the mayor not to send up to the Superior court any of the warrants issued by him against you and we have instructed our attorney to take the proper steps to see that all prosecutions against you by the town growing out of this matter referred to in your communication shall be ended.

The board takes this course because it believes that it will tend to restore peace to the community.

At this special meeting the board received and accepted a \$2,000 temporary bond given by H. L. Carr, treasurer, and the former treasurer was ordered to turn over the office to him.

An order was passed reducing the license tax on distilleries, passed at a former meeting, from \$300 for six months to \$200.

An application from Fred Cox for license to operate a distillery was granted.

### WOODWARD-ROUNTREE.

Brilliant Reception Monday Night—Marriage This Morning.

An occasion marked by every grace and elegance was the pre-nuptial reception given by Mr. and Mrs. R. J. Cobb at their beautiful home on Fifth street, Monday night, in honor of Miss Rosalind Rountree, sister of Mrs. Cobb, and Mr. George J. Woodward.

Nothing was lacking to make the reception a most elaborate one. Mr. and Mrs. Cobb received their guests at the hall door, and delicious trappes was served in the parlors.

In the library Dr. and Mrs. Charles Laughlinhouse and Mr. and Mrs. H. A. White acted as receivers. In this room were several tables laden with bridal presents, the number being very large and handsome.

In the dining room where elegant refreshments were served, the receivers were Mr. and Mrs. R. Williams, Mr. Charlie James and Mrs. F. G. James.

The decorations showed great taste. The hall was in green and red, the parlors in blue, the library in pink and white, the dining room in red and white.

The reception dress of the bride elect was white point d'esprit over tulle and Mrs. Cobb's was white silk with lace trimmings.

THE MARRIAGE.

Two scenes changed to the Memorial Baptist church where at 8 o'clock Tuesday morning the popular couple were happily married with eloquent words spoken by Rev. A. T. King.

The church was beautifully and appropriately decorated, the windows darkened and soft lights burning.

Preceding the ceremony Mrs. T. C. Williams, sister of the groom, sang a beautiful song.

As the wedding march was played by Mrs. J. L. Fleming the bride and groom entered the church.

The ceremony was performed by Rev. A. T. King, and the bride and groom were united in the holy bonds of matrimony.

The bride wore a handsome traveling suit of blue silk, the maid of honor white china silk, the dame of honor and bride's maid white mull.

Mr. and Mrs. Woodward, left for Durham on the morning train to visit his parents. Those from a distance attending the marriage also left on the morning train.

The bride is a daughter of Mr. and Mrs. G. D. Rountree. The groom is a native of Durham but has lived several years in Greenville.

THE GREENVILLE WAREHOUSE.

This reliable tobacco warehouse, the pioneer of the Greenville market, in another column makes its opening announcement for the new season. The Greenville does not propose to be behind any other house in the high prices and satisfaction it gives the farmers. The house next season will be managed by Ryans, Rooker & Co., all experienced men in the warehouse business.

R. S. Evans has been on the warehouse floor for years and there is not a better judge of tobacco on the market.

O. Hooker has had much experience, being one of the pioneers of the market. While retired for the last year of two he comes back to the warehouse with greater vim than ever.

D. S. Spain knows it from start to finish, and while his business will be chiefly with the books, he will keep an eye to the interest of every farmer who sells at the Greenville.

Register of Deeds R. Williams issued licenses to the following couples last week:

H. C. Smith and Annie Webb.

Charlie James and Nannie Moore.

D. C. Jackson and Ida L. Hart.

R. W. Moseley and Willie F. Hughes.

DABOIAS OF INDIA.

The Attack of These Superb Snakes is  
Instantaneous and Deadly.

A writer on India says: "The  
snakes that are most worthy of  
dread as inmates of Indian gardens  
are the terrible daboiias, 'Viperia  
russelli.' They are truly superb reptiles,  
for, while the coloring of their  
armor is relatively quiet, it would  
be hard to find any finer harmony  
than that presented by its tints of  
ocherous brown, on which a series  
of shining black rings with lighter  
margins are disposed in triple rows  
from the neck to within a short distance  
from the end of the tail. Daboiias  
are sluggish and inert and often  
lie coiled up and motionless on  
footpaths until they are actually  
touched or trodden on by passers  
by, when they suddenly unfold like  
a released spring armed with terrible  
teeth. There is none of the warning  
and preparation here that there is  
where a cobra is about to strike,  
no sitting up and threatening,  
but an instantaneous and deadly  
assault. When they have laid hold,  
too, they hang on and worry in a  
sickening fashion while they strive  
to inject as much as possible of  
their tenacious yellow venom."

In India, says this same writer,  
it is held that the proper way to  
treat natives who do their best to  
die of pure "nervous depression"  
after imaginary snake bites is to put  
a drop of croton oil into the patient's  
eye, which gives him something  
real to think about. He tells the  
story of an Indian cooly who, while  
walking across a courtyard after  
dark, trod on one end of a piece  
of iron hoop, with the result of  
bringing the other and jagged  
extremity sharply up and into contact  
with the back of his leg. Not  
unnaturally the man took for granted  
that he had been bitten by a snake  
and probably by a venomous one.  
He accordingly made up his mind  
to die and would rapidly have  
succeeded in doing so had not an  
experienced person been handy with  
a bottle of croton oil.

A Victim of Vacillating Conduct.

In an Indianapolis family, in which  
thirteen at the table is not allowed,  
an informal dinner of relatives recently  
was found to present the alarming  
number. Big Robert said he would  
stand up and dine from the sideboard  
to quiet the nervous women of the  
family, but a side table was speedily  
arranged for little Robert, who seemed  
thoroughly mystified and impatient with  
the entire disturbance. Matters were  
going on nicely when an unexpected  
uncle arrived and again set the agitating  
thirteen superstition in operation.  
To balance the matter, little Robert  
was recalled from the side table and  
again seated in a rather tight place at  
the large table. As the thoroughly  
irritated and puzzled six-year-old boy  
resumed his dinner he offered a remark:  
"Well, if I was as grown up as all  
these people are I'd try to know my  
own mind."—Indianapolis Journal.

At the Matrimonial Agency.

"The young lady whom you propose  
as a suitable wife for Count X.  
has no stain on her character or  
that of her family?"  
"Not a shadow."

"But I think I remember having  
heard that her father in Russia?"  
"He died of apoplexy. Quite  
right, signora. One morning at 5  
o'clock. It appears some practical  
joker perpetrated the foolish trick  
of placing a running noose around  
his neck and suspending him to an  
apparatus in shape like an arm. He  
died very suddenly, poor man!"—  
Osservatore Romano.

It Was Washed On.

Johnny's sister has a ring that  
Johnny is very fond of. He is allowed  
to wear it sometimes for an hour  
or so when he has been very good  
or has promised to be. One day  
he suddenly found that he wanted  
to wear that beautiful little gold  
band, and so he informed his sister.  
She wasn't just in the mood, so she  
told him, as he insisted, that she  
couldn't take it off because it was  
"washed on." Johnny said little  
and thought much, and the next  
afternoon when his sister had called  
on an ottoman in the middle of the  
room.

"Johnny," reminded his sister,  
"your cap, dear."

"Oh," returned the boy innocently,  
"I can't take it off, sis. It's  
"washed on."—New York Times.

#### BENSONIZER LUNG CURE

NO MORE EXILE FOR CONSUMPTIVES.

A Cure at Last Obtained, After a Searching Investigation, by St. Louis Internists.

A few months ago the attention of a few scientific and philanthropic gentlemen of St. Louis was directed to an entirely new method of combating that most dreadful of all diseases, tuberculosis, commonly called consumption. Out of 115 test cases, 77 were completely cured and 28 have shown such improvement that their ultimate recovery is but a question of a few weeks.

So astonishing have been the results and absolute cures in cases pronounced incurable by all old methods that a company has been formed and is now prepared to furnish at a normal cost, this cure to all sufferers of the "White Plague." One of its chief features is that patients can remain at home, surrounded by friends and relatives, and in a great many instances, especially the incipient or early stages of the disease, pursue their daily vocations and still become completely cured.

Patients receiving the same treatment here in St. Louis have completely recovered as rapidly as those in Colorado, New Mexico and Texas. The wonderful results in question have been accomplished by the Bensonizer, and the company which controls this marvelous medical device have located their main office at 417 North Seventh street, St. Louis. They have also located a factory on Easton avenue and a laboratory has been built at Hillside, Mo. The cure will be known as the Bensonizer Lung Cure, and Mr. C. P. Benson, the discoverer of the fluid inhalants which are used, will personally have charge of the affairs of the company. Mr. Benson will personally meet all who call at the office of the company on Seventh street, and will answer all communications from sufferers who are unable to make a personal call.—From the St. Louis Globe Democrat.

## Truth in Reference to Fiction

GREENVILLE, PITT COUNTY, N. C., FRIDAY, JULY 15 1904.

### THE MATTER SETTLED.

The dispensary muddle that has existed here for some days has been settled. From the standpoint of stopping the strife and restoring peace to the community all are glad that the controversy has come to a close but there are many who do not approve the terms of the compromise. The men who engaged in conducting an illegal dispensary went at the business with their eyes open, knowing full well how the Wats law read on the subject, and having been warned that they were acting contrary to law. Having defiantly resisted the efforts of the town authorities to make them close their illegal business until a higher court interposed and stopped them, there are not a few who think they should meet the consequences of such conduct. The board of aldermen held an opposite view, however, which was also advised by many others, and accepted the proposition made by the other side to abandon their position, deeming this the best and quickest step to restore peace.

The matter is thus settled, further argument over it can accomplish no good. Though there may be different opinions, it is perhaps best under the circumstances to put these aside and let the contentions end. Taking issue with it now can do no good.

The action of the aldermen in withdrawing the prosecutions only affects the matter so far as the town is concerned. The bench warrants are already before the state court and will have to be determined there. The solicitor for the state had no part whatever in the compromise.

Let Pitt come in line with a Parker and Glenn club.

It is time to let Bryan have a rest now. He has earned it.

Another good thing about the candidate for vice-president is that he has a barrel.

Good bye to the boll weevil. The Guatemalan ant has been tried on him and cleaned him up in short order.

Hon. Henry G. Davis, the democratic nominee for vice-president, is 81 years old, yet a strong, vigorous man.

Greensboro is getting thoroughly warmed up in the prohibition campaign. Go it, good people, and drive the saloons out.

Hearst got plenty of advertising while it was going on, even if it did cost him nearly a million and a half. He had the money to spare, and it may be worth that much to him.

### AND DAVIS, TOO.

This is the time of year when lightning gets in its deadly work.

Saturday night the St. Louis convention nominated Henry G. Davis, of West Virginia, for vice president.

At this dull season of the year all who can should pay their debts promptly so as to help make conditions easier.

Winston-Salem is beginning a war on saloons. Let the good work go on until they are entirely wiped out of the State.

The announcement is made in New York that Sully will soon be in business again. Perhaps he will have a hand in making the next cotton season lively.

All the nominations are in now except for congress and the county ticket. We all know that Small will be re-nominated for congress, and the county nominations will be made in due time.

The democratic ticket so far, national and state, is all right. Let us observe the same high plane when the county nominations are reached. It is a time when good men are wanted.

No paper in the state is making more rapid progress than the Raleigh Times. It is now preparing to go into new quarters with an improved plant. Continued success to such an excellent paper.

### Observe the Point.

They had just been married. She was very pretty and lovable, but very fresh to the household duties, and the husband was a very patient man. One night, however, she had a great surprise in store for him, so, putting her arms around his neck and kissing him, she said: "Come and look, darling; I have been stitching up two big splits in your coat."

He then kissed her to hide the look which came over his face, called her a busy little woman and went out and groaned.

She had sewn up his coat tail pockets.

### An Act to Create the Office of Chief of Fire Department and Decrease the Fire Waste of the State.

We have been requested to publish the following:

The General Assembly of North Carolina do Enact: That there is hereby created in the cities and incorporated towns of the State where not already established by their charters the office of "Chief of Fire Department." It shall be the duty of said "Chief of Fire Department" to do and perform the duties prescribed in chapter 28, Public Laws of 1899, and acts amendatory thereof, and such other duties as are prescribed in the charters and ordinances of the cities and towns of the State.

Sec. 2. That where it is not fixed in the charters of said cities and towns, it shall be the duty of the Board of Aldermen and Commissioners in each city and town to elect such officer, and to fix the term of office, prescribe the duties and obligations and compensation of "Chief of Fire Department," and change the duties and compensation from time to time, not inconsistent with the duties as prescribed in chap. 28, Public Laws 1899, and acts amendatory thereof.

Sec. 3. That where said duties are not prescribed by the charters of Board of Control of incorporated cities and towns, it shall be the duty of said "Chief of Fire Department" in addition to the duties prescribed in chapter 29, Public Laws of 1899, to preserve and care for the fire apparatus, to have charge of the fighting and putting out of all fires, to make annual report to their city or town governments, to seek out and have corrected all places and conditions dangerous to the safety of the city from fire, to look after buildings being erected with a view to their safety from fires and to do and perform such other duties as may be prescribed by the governing boards of the several cities and towns.

Sec. 4. This act shall be in force from and after its ratification. In the General Assembly read three times, and ratified this the 14th day of March, A. D. 1901."

### Odd Power of Russian Miss.

An account of a phenomenon observed in a girl of 12 residing at Vladikavka, in the Caucasus, has been communicated to the Novoye Vremya.

The girl is the daughter of a workman named Luba, says the Chicago Inter Ocean. It is stated that every object which she approaches begins to move. If she goes near a dresser with plates upon it they begin to dance, washing hung on a line flies off it, a bottle standing on a table is raised in the air, and, falling down, is broken in pieces, and stones lying on the ground leap in the air and fall again.

The girl is perfectly healthy, and laughs at the occurrences called forth on her appearance. No one can explain them, although a number of doctors and professors of physical science have been consulted. At present money is being collected to send the child to St. Petersburg in order that her marvelous magnetic powers may be examined by medical authorities.—Ex.

And now a man in Texas has gotten out an injunction against the bringing into Texas of the Guatemalan ants which are expected to administer the solar plexus blow to the boll weevil. But then it is remembered that there are still some folks who oppose vaccination and a few who do not believe that a successful flying machine will ever be perfected.—Charlotte Observer.

### Another Cleveland.

Jude Parker's gold standard telegram has brought upon him much approbation and no censure. Senator Daniel, of Virginia, said that he was a foot taller than before he sent it.—Col. Guffey, the Pennsylvania Democratic leader, says: "It is the grandest exhibition of moral courage I have ever seen in a candidate. Parker shows himself a much greater man than those who managed his fight." The Washington Post, independent, says it was "a timely display of political courage amounting almost to audacity," adding that "it was a bold, courageous stroke, and will do much to dispel the popular opinion that the party's candidate is without firm convictions upon the issues before the country," and concluding that "Judge Parker's bold stand on this question has made him many thousand vote stronger than he could possibly have been had he accepted the nomination upon a platform that ignored the money issue." While The Philadelphia Record says that "silent when there was no occasion for speaking, Judge Parker has spoken the decisive word because the occasion has arrived. He has proved himself the man and the patriot that his friends knew him to be, and, rising above personal ambitions, and what was believed to be party expediency, he has stated with absolute clearness his position on the currency question where the silence of the platform invited misconception and was liable to compromise him."

Indeed it was a brave man who could renounce a presidential nomination rather than preserve a silence which might have been misinterpreted and who last Saturday sent this telegram to the convention which had nominated him.

"I regard the gold standard as firmly and irrevocably established, and shall act accordingly if the action of the convention to-day shall be ratified by the people. As the platform is silent on the subject, my views should be made known in the convention, and if it is proved to be unsatisfactory to the majority, I request you to decline the nomination for me at once, so that another may be nominated before adjournment." Has the Democratic party discovered another Cleveland? It looks a little that way.—Charlotte Observer.

The effort to protect Texas from the ravages of the cotton boll weevil which threatens to destroy the cotton crop of that state and to sweep across the entire cotton belt if not arrested, is accompanied by many suggestions to stay the advance of the plague. Professor Cook of the Agricultural Department has brought from Guatemala to Galveston a large number of voracious ants peculiar to the fauna of Central America whose function and pleasure it seems to be to attack and destroy the weevil. A corps of experimenters has assembled at Victoria, Texas, where, under direction of Dr. Cook, they will release the carnivorous ants into cages covered with mosquito netting inverted over infected cotton plants. The result of these experiments will determine whether this lively exotic is an effective antidote to the bane from which Texas has for ten years been suffering. Another hopeful remedy is proposed in "the cotton tree" which grows to the height of forty or fifty feet, multiplies very rapidly, is immune to the boll weevil and will yield from twenty to twenty-five pounds per tree, including seed. If difficulty is found in gathering the crop, the tree is easily dwarfed, so as to bring the cotton within reach. At an average yield of twenty pounds of cotton per tree, the yield would be sixteen bales to the acre. The expense of planting is no greater than that of corn, and it is able to withstand droughts during eight months of the year. It is planted only once in twenty-five years. This tree comes to us by way of Mexico.

### Cupid's Strategy.

Two young men of this neighborhood were rivals for the hand of a pretty girl. One of them was poor and handsome, and the other was a slow witted fellow with considerable money. The capitalistic one conceived the idea of buying off his rival. He offered him \$100 to go away for six months. The poor man said he would consider the matter. And he did—in company with the girl. They agreed to take the money of the young man, get married and go away together. The deal was completed, and the poor young man got his money and started for Denver. But he stopped at the first station where he was joined by his lady-love, and they were married by a justice of the peace. The rich young man consulted a lawyer and was told that he had no grounds for a suit; that it wasn't stipulated that he should go alone. And the local paper says the town is laughing at the expense of a rival.—McCraken Kansas Enterprise.

## A FAMOUS CONSPIRACY.

The Plot to Liberate Marie Antoinette and Her Children.

After King Louis XVI had been guillotined at the time of the French revolution a bold plot was formed by a few royalists to liberate Queen Marie Antoinette, her two young children and Mme. Elizabeth, the king's sister. These conspirators in chief were a curiously assorted trio. First in rank comes the Chevalier de Jarjayes, who had married one of Marie Antoinette's ladies in waiting, a shrewd and experienced soldier. The second and third of the chief partners in the scheme were jailers of the queen, Toulan and Lepitre. Toulan, once a book and music seller in Paris, was now a member of the commune, an indefatigable, gay, resourceful Gascon, honestly republican by conviction, but with a redhot Gascon heart for a woman in danger and distress. Lepitre was a schoolmaster and rhetorician. He had a seat on the provisional committee, and, more important by far to the interests of the conspiracy, he was president of the passports committee and could furnish the necessary passes.

A very likely plan had been elaborated. On a dark night of winter, Toulan and Lepitre being in charge of the prison, the queen and Mme. Elizabeth, disguised as municipal officials, were simply to walk out of the gate, as Louis Napoleon, in his carpenter's clothes, walked out of the chateau of Ham. The little Mme. Royale was to be dressed like the child of the prison lamplighter, and a loyal kitchen boy was to carry in a basket the small Louis XVII. Jarjayes would have three cabs in readiness, and the fugitives were to make for the coast of Normandy, where an English boat would stay for them. The scheme offered very considerable difficulties, but they were not insurmountable.

But the poor queen's luck was cold. Lepitre, a romantic coward, failed her when the time came to furnish the passports. One other chance was left. De Jarjayes and Toulan, doubly strong in their devotion after the defection of Lepitre, planned an escape for Marie Antoinette alone, but she would not leave her children. "It has been a beautiful dream," she wrote to Jarjayes. It was the last dream of liberty that she had.

### A Sure Thing

It is said that nothing is sure except death and taxes, but this is not altogether true. Dr. King's New discovery for consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre of Shepherdstown, W. Va. says "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery cured me absolutely. It's infallible for Croup, Whoop, Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by J. L. Wooten, Druggist. Trial bottles free. Reg. U. S. Pat. 500 511.

### PARIAH OF THE SKY LINE.

Coyote Always a Tantalizing Mark For the Man With a Rifle.

There is a deal of coyote hunting in the west that is not attended by the niceties of the club hunt. Ever since the first pioneers pushed their way across the great plains the coyote has been an outlaw, looking for no mercy at the hand of man. His predatory habits have made the animal the bane of the ranchman, and his howl has made him the exasperation of the camper and the terror of the tenderfoot. Then, too, his habit of skulking just within rifle range has always made him a tantalizing target for the man with the rifle.

In spite of his unpopularity with all classes of men, however, the coyote has managed to hold his own better than any other animal in the great west. The antelope is swifter of foot, mayhap, but, not having the cunning of the coyote, has been lured within rifle range until practically exterminated in many states. The ranchman's lust for fresh meat, the eastern tourist's desire for antlers and elk teeth and the native who slays for the market have depopulated Colorado and several other states of their best game. The bear, cougar and bobcat have felt the same blighting influence, but the coyote still figures in the sky line of the average western picture. Sometimes he is unwise enough to eat of poisoned carcasses of cattle, but this is seldom. Again, he falls a victim to a coyote "drive," organized by ranchmen and participated in by townspeople, tenderfeet, newspaper correspondents and amateur photographers. These coyote "drives" are held annually or oftener in nearly all western communities where the prairie pest flourishes. An average "drive," participated in by several hundred individuals, will yield sometimes none at all. A good deal depends on the wind, and more depends on the coyote's cunning and ability to sprint.—Outing.

### Clock With Loud Tick For Africans.

A Birmingham clockmaker discovered that a rival was sending out large stocks of cheap clocks to the heart of Africa, and doing good business with them. He spent a large sum in making better clocks and shipped thousands of them to the same market. Strange to say, his sales were small, although his rival, turning out a cheap and inaccurate timepiece, was selling all he could make. Finally he found a key to the mystery. Savages like noise. The clocks made by the first exporter had a particular loud and aggressive tick. His competitor had made a better clock, but it was almost noiseless, and the savages would have none of it. The next cargo of clocks which the Birmingham maker shipped to the Guinea coast ticked louder than anything ever heard there, and they sold like pink lemonade at a circus.—Ex.

One day last week a spider sought a hiding place in Frank Blair's ear. It was two or three hours before it could be induced to come out. Capt. ### "A Crime to Miss the World's Fair."

Ferdinand W. Peck, who was vice-president of the World's Columbian Exposition, and commissioner general for the United States at the more recent Paris Exposition, thus speaks of the St. Louis World's Fair:

"I can freely say that this exposition is on a more colossal scale than any which preceded it. The grounds and buildings are larger and the exhibits more complete.

"If any citizen of the United States who can possibly attend remains away he is almost committing a crime.

"Besides my connection with the Columbian and Paris expositions, I have represented the state of Illinois at Atlanta, Nashville and Omaha, I state unequivocally that the world has never seen anything so valuable, so educational, so magnificent as this and I repeat it would be a crime to miss it."

Dr. C. Alphonso Smith Will Not Go to Tennessee's University.

Chapel Hill, N. C., July 12.—Dr. C. Alphonso Smith returned from the University of Tennessee today and your correspondent interviewed him in regard to accepting the presidency of the University.

He said: "Yes, I have just declined the call to the presidency of the University of Tennessee. It was a call that touched my ambition in many ways—a call that appealed profoundly to me. But after spending three days on the ground studying the problem at first hand I came to the conclusion that my duty for the present lies with the University of North Carolina. The University of Tennessee is in the shape and has before it a future of great expansion and usefulness. The State ought to give it at least fifty thousand dollars a year. Its development, like that of every other State University, depends on the intelligent and liberal co-operation of the State."

### Different Kinds of Kisses.

To steal a kiss, says a French writer, is natural. To buy a kiss is stupid; for two girls to kiss is a loss of time; not to kiss at all is an insult; for two men to kiss is quite ridiculous; to kiss the hand or the tips of the fingers is droll; to kiss one's sister is proper; to kiss one's wife is an obligation; kissing a child is often a regret for not being permitted to kiss the mother; to kiss an ugly person is gallantry; to kiss an old, faded widow shows great devotedness, but to kiss a young, blushing widow is charming; to kiss one's waiting maid is very dangerous; to kiss one's affianced is a premeditation and a right; an old, rich aunt is a hypocrite; a young cook in the bloom of age is delicious, dainty; to kiss a neighbor's wife is doubtless very good, but quite wrong; kissing three girls the same day is an extravagance; a girl whose father is watching her, it may make one jump over the fence; to kiss a mother-in-law is a sacrifice; an old maid, it is politeness; finally, a kiss to one's mother is the purest, the sweetest of all kisses.

A Model Farm. Any one wishing to see a model farm in a high state of cultivation would do well to visit the well equipped and splendid farm of Mr. Alonzo Holton near Ridge Springs.

Mr. Holton is all the good farmer in this section for we have several. We could mention numerous fine farms within ten miles of our town; but we do mean to say Mr. Holton's farm four miles west of here is a beauty. He brought a cotton bloom to our office that came from his patch the 20th of June. Today his fields are alive with blooms and promises a wonderful yield while corn, tobacco, fruits and vegetables are more than abundant and show careful work.—Ayden Baptist.

### A Sham Battle.

One of the interesting features of the Fireman's Tournament in Salisbury will be a sham battle. Says the Sun:

"A feature of the Firemen's Tournament which had not been anticipated is a sham battle on the second day of the tournament, the Statesville, Lexington, Concord and Salisbury companies participating. Other companies may be present and the Rifles are now in correspondence in reference to the matter. The date of the battle has not yet been fixed but it is expected to take place on the first day. The military companies will participate in the parade."

### Pickwick Club Entertained.

Reported for Reflector: Those who attended the entertainment to the Pickwick Club Friday evening will ever cherish a happy memory of those pleasant hours spent in the home of Miss Bessie Haskett. The charming manner in which Miss Haskett entertained added much to the pleasure of all present.

Mrs. W. B. James had handsomely decorated the reception hall with ferns, potted plants and ivy, and as the soft green foliage caught up the enchanting strains of music and wafted them gently over the perfumed air all felt truly that it was "good to be there". Then, nearing the close of the happy evening the following couples partook of delicious refreshments served in the most graceful manner by Misses Mammy and Bessie Haskett and Mrs. R. F. Betts.

T. A. Duke and Miss Fannie Bogwell, E. L. Strickland and Miss Sadie King, Wm. Smith and Miss Mary James, J. Y. Monk and Miss Mary Goodwin, Wm. Lipscomb and Miss Margaret Skinner, W. L. Best and Miss Mamie Hasket, F. M. Hornaday and Miss Bessie Haskett, Mr. and Mrs. R. F. Betts.

### Two Hundred Lost.

Manila, July 18.—A cloudburst over the hills northeast of Manila caused a flood which has destroyed San Juan Del Monte. Two hundred hives were lost. The low-lying districts were inundated. The homes of Americans and foreigners are isolated. Transportation through the streets is carried on in boats only. Rain has fallen for 27 hours, totaling 17 1/2 inches. This is unprecedented. Communication with outside places is interrupted.

The damage to property is estimated at \$2,000,000.

### "Amen and Amen!"

DEAR REFLECTOR, I am still watering you with loving eyes. When you said (July 12): "We hope Wilmington and Greensboro will do as well in their coming anti-saloon elections as did Charlotte and New Bern."

I said "Amen!" When on the same page you said: "The result of the elections in Charlotte and New Bern show how the sentiment against saloons continues to grow. May it continue to increase until there is not a saloon left in the state."

I said "amen" again. I long to live to see your prayer answered. A. D. BETTS, Lillington, N. C.

### Greenville Wins Again—12 to 4.

The home boys simply outclassed the Kinston team Thursday afternoon in a one-sided but still interesting game of ball. Our boys were in the game from the time the first ball was twirled until the last and it is necessary to state right here that so far the Greenville boys have shown their superiority over every team they have met this season.

In order that they can play Rocky Mount, Goldsboro and other towns in the Eastern part of the State this season, they must have some backing. The rooting so far has been tip top, but to run the team and have several games played here this summer, they must be financially supported. On the two games they have had here this season they lost money.

Following is the score of Thursday's game by innings: Greenville 1 4 2 1 3 0 1 0—12 Kinston, 0 0 0 2 1 0 1—4 Batteries, Greenville, James B., White and King.

Kinston, Meacham and Armstrong. Line up for Greenville—Blow, ss-3b King, c, White, 3b-p, James, B. p-ss, Randolph, rf, Anderson, lf, Forbes, 2b, James, D. cf, Jarvis, 1b.

### Sensible Talk.

To be a live, up-to-date business town and take advantage of every good thing that comes along, the merchants and business men generally must cultivate and have a friendly feeling for one another. Because one man has different opinions politically and religiously from you is no reason you should hold yourself aloof from him. A member always that his friendship is worth more to you than his opinion. In friendship there is harmony, and in harmony there is strength.

One man alone cannot build up a town, nor can half its citizens do so when the other half oppose them. It may be a bitter pill to pull in the same harness with your neighbor up the street, but aim to be one if you pull with him awhile you will find out that he is a better man than you thought for, and if you are pulling to accomplish the same good end, in this way you will quickly become acquainted with his good qualities, like him better and soon overlook his faults.—Eagle.

### Complementary to Miss Blow.

A number of young men gave a delightful outing Wednesday evening complimentary to Miss Lottie Blow of Greenville, N. C., the guest of Miss Neil Hinsdale. Penny's pond was the objective point and a luncheon was served upon their arrival there. The party included Misses Lottie Blow, Nell Hinsdale, Mary Barbee, Irene Lacy and Frances Lacy and Messrs. Percy B. Fleming, Hubert Hill, James Arrington, Baxter Durham and Mr. Hubbard, of Providence, R. I.—Raleigh Post.
