Killed by Accident.
A colored boy about 18 years old, son of Philip Bynum, was accidentally killed a few days ago. He was sitting on a shelf in the porch swinging his feet with a gun between his legs with muzzle up. His feet in some way struck the hammer and the gun fired. The load went through his chin and tore away the front of his head and killed him instantly. Scotland Neck Commonwealth.

Greenville Lost.
Greenville brought back a defeat from Washington Wednesday. The grounds were so wet that the playing on both sides was poor. The score was 23 to 17 in favor of Washington.

A KNOTTY PROBLEM.
Is Mr. Arthur Liable to Tax?
The board of aldermen held a special meeting Friday night to consider a knotty problem. The facts drawn out of the case are these: Engineer J. L. Ludlow, who is having the water works and electric light plants constructed for the town, had several car loads of iron pipe that he wanted distributed along the streets. He tried to secure team in town to do this hauling but could not get any at a price considered reasonable. He then went out of town to L. C. Arthur and from him hired a double team and driver by the day with which to do the hauling, the team being sent in every morning and returned home at night.
What the aldermen have to do with this is the question of license tax. The town levies a license tax on public drays of \$5 per year for each horse used, persons who do only their individual hauling not being subject to the tax. The town also levies a license tax of \$25 per year on livery business. The question before the aldermen is whether Mr. Arthur is liable to tax? If so, what tax? Neither Mr. Arthur nor Mr. Ludlow were represented at the meeting of the aldermen, but it was admitted that Mr. Ludlow was not liable to any tax from the fact he is doing only his own hauling and not operating public dray. It is said that Mr. Arthur's contention is that he is not liable to any tax, as he is not doing any draying but has hired out his team by the day to a party to do hauling for himself.
The aldermen discussed the matter from every standpoint, a majority of them holding the opinion that while Mr. Arthur is not subject to dray license tax under the circumstances, he is subject to livery license tax because of the fact that he is hiring his team for use in town and delivers the team and driver to the reter each morning. By a vote of 6 to 1 the aldermen instructed the tax collector to make demand upon Mr. Arthur for livery license tax the decision also being that if he resists paying the tax the question will be tested in the courts.

Escape of Russian Warships.
Chesoo, Aug. 11--A Russian torpedo boat destroyer entered Chesoo harbor at 5:30 o'clock this morning and reported that six Russian battleships, four cruisers and half of the torpedo boats escaped from Port Arthur yesterday morning. The torpedo boat destroyer left Port Arthur last night, bringing in five passengers, who stated that the Japanese fleet is pursuing the Russians and that a battle on the open sea is expected.

Battle Between the Fleets.
Tokio, Aug. 11--The Russian fleet emerged from Port Arthur Wednesday and a severe engagement with the Japanese fleet lasting all day followed. The Japanese destroyers attacked the Russian fleet at night. The results of the engagement are unknown. The Russian battleships Retvizan and Pobeda were seen out Port Arthur this morning.

Aycock on Parker.
"The speech of Judge Parker to the notification committee," said Governor Aycock last night, will challenge the attention of the country as being in marked contrast to the character of President Roosevelt. It shows that Judge Parker is what the country believed him, a safe and conservative man. He can be trusted to govern the country well because he will govern it within the constitution.
"Professions of faith in the people and their capacity for self government is common to both parties and to all candidates, but he who really believes in the wisdom of the people is ever ready to subject his convictions of public policy to the touchstone of the constitution, which is itself the highest and final expression of the wisdom of the whole people. No party that refuses to be limited by the constitution and no officer who is not bound by it can be a friend to the rights of the people. Judge Parker's speech shows him to be one who believes in the people and is willing to abide by the constitution which they have made."
"He was particularly happy in showing that this government is a world power on account of its adhesion to the doctrine of constitutional liberty, and not by reason of its armies and navies. The election of Judge Parker will bring us back to the days of the fathers when law was supreme and liberty fullest."--Raleigh Post.

Editor at the Fair.
A Kansas editor who stopped at the Inside Inn at St. Louis writes: "There are more bellboys than guests in the inn. They use 'em for change. When you give the clerk \$5 he hands you back \$2 for a bell boy. My room is a little far back for meals, but I make it nicely. I start for supper at 9 a. m., and stay for lunch on the way with a friend of mine who lives in room 2507. But a friend of mine who lives in room 76.619 is up against it. He got two days behind in his meals living out in the country at the rear end of the hotel. Finally he found that he was nearer to M. B. M., than he was to the dining room, so now he walks over to Moberly every morning."--Ex.

The Record of a Davis Farmer.
Mr. Sam Smith, a well known citizen of Sheffield, went to farming a few years ago. When he started he had nothing but a Dixie plow and a goose neck hoe, after operating successfully for several years he is well fixed. He now has a farm paid for, a bull calf and a double plow. He has averaged 600 squirrels a year, and during the time has killed 265 wild turkeys. Who can beat this record?--Mocksville Times.

Special World's Fair Party.
The best way to visit the world's fair at St. Louis is to go with a specially conducted party. People of this section will have an opportunity of joining such a party to leave about the 10th or 15th of September. That will be a good time to go. Particulars and terms can be had at THE REFLECTOR office.

Working the Players.
Those 13 runs yesterday in one inning for Greenville was too much for George Heptinstall to stand, they were eye-openers. Hearing of the catastrophe that had happened he left the office at the Eureka Mill, walked rapidly to the ball field and seeking Kugler, the captain of the local team, showed him \$2.00. Kugler immediately "spit" in his above and screamed "boys pay ball." Frank Short saw the act of Heptinstall and realizing that he possessed the latest in rabbits feet, shut one eye and shouted "boys we've got to have runs." Now the question arises whether the \$2.00 or the rabbit foot did the work? The score stood 23 to 13 when the game ended in favor of Kugler's side.--Washington Gazette-Messenger.

Poison in Dish.
Salisbury, N. C., Aug. 10--The family of L. D. Cole of Spencer, consisting of eight members, including several boarders, were poisoned while eating supper last night, in consequence of which all were dangerously ill today. They were affected in three minutes after eating from a dish of beef which had been prepared by a colored cook, who is suspected of injecting poison while cooking. The servant disappeared as soon as a physician was summoned for the family. Mr. C. H. Fricks, one of the boarders, is yet unconscious and his recovery is doubtful.

Congressional Convention.
Delegates to the congressional convention for this district, whose names were published several weeks ago, should bear in mind that the convention meets in Eden ton next Wednesday, 17th. Pitt county should have as full delegation present as possible.

Truth in Preference to Fiction

GREENVILLE, PITT COUNTY, N. C., TUESDAY, AUGUST 16, 1904.

Possibly the greatest danger is from sickness that may follow the wet spell.

Ex-Senator Vest, of Missouri, died Tuesday. He was one of the most prominent men in the country.

Judge Parker says if he is elected president he will not accept a renomination. How very unlike Roosevelt is this declaration.

The small fry are imitating the larger ones, and a notification meeting has been arranged to tell Tom Watson he is it with the populists.

That man McNeill, the new star on the Charlotte Observer, is making some poetry what is. There is nothing wanting about his prose, either.

The enterprising reporters have not yet told whether ex-Judge Parker picks his teeth with a goose quill or a rye straw. They ought to make this discovery.

Of course it is bad, but the picture Wilmington draws of a stupidly drunken father followed through the principal streets by his six-year-old son crying piteously while trying to help his father along, is some of the fruits of the sixty bar rooms to which the city points with so much pride as business builders and liberty promoters.

On Wednesday the notification committee of the national democratic convention met at Esopus to officially notify Judge Alton B. Parker of his nomination for the presidency. Judge Parker's speech of acceptance is all that could be desired and shows that he stands for such measures as are for the best interest of the country. It should win the admiration of all men favoring good government.

When bicycles were in their glory there were plenty of predictions that horses would become back numbers. But the bike soon had its day and the horse stayed right on. Now the world is going daft on the subject of automobiles and some may think the horse will get behind again. It is noticed, however, that horses are commanding higher prices than ever and the auto craze may expect to be short lived also. The horse is here to stay.

Now you see where they are. The secretary of the state liquor dealers' association at the annual session in Greensboro, says the association will be asked to endorse the republican state platform. So the republican party will be the annex of the bar-rooms, or the saloons will be the annex of the republican party. Those folks who are talking so much against the Watts law ought now to see who they are lining up with and playing to.

At Ocean Grove, N. J., a singing evangelist caught a bug in his mouth while singing and came near choking to death. He should not open his mouth so wide next time.

As frisky as the Japs seem on land, they are too slow in their movements on water. They have let the Russian fleet slip away from them again.

The Wilmington Messenger is still expending gray matter on the encampment episode, while the governor continues to do business at the same stand and the encampment goes merrily on at Morehead.

A meeting of the stock holders of the Atlantic & North Carolina railroad has been called for Thursday, Sept. 1st, to consider propositions to lease the road. It is very probable that one of the propositions will be accepted.

The age of ex-Senator Davis, democratic candidate for vice president seems to be giving the republicans lots of trouble. If our side is satisfied we fail to see that the other fellows have anything to be kicking about.

Now and then a philanthropist steps forward with a liberal donation to some of the state's institutions. E. M. Armfield, of High Point, has made a gift of \$5,000 for the endowment of a library for English Philology at the University.

Next Governor, R. B. Glenn opened the campaign at Sharon, Mecklenburg county, on Wednesday, at a rally which was attended by 4000 people. Both Mr. Glenn and Congressman W. W. Kitchen made speeches that thoroughly aroused the democracy of old Mecklenburg. The Charlotte Observer accounts them as great speeches.

The mule is always referred to as a kicker and one of the delights of the cartoonist is to picture this animal with his heels in the air knocking things awry. A writer in the Philadelphia Record speaks interestingly in defence of the mule and among others of his good traits says of his own knowledge he has never known one to kick a man. Horses' kicks are numerous but mules' rare.

A few mutterings of the anxious have been heard that the executive committee should hurry up and call the county convention. No need whatever of any haste in the matter. A short and lively campaign will be new in politics for the people to learn, and instead of listening to the voice of the candidate they had rather be attending to their business. A month will be plenty long for the county campaign, and if even shorter than that it will be all the better.

A child and a box of lye came near causing a tragedy in Durham. These two are a combination as dangerous as a boy and a gun, or a woman and a kerosene can.

Senator Fairbanks is a candidate on the republican national ticket, but there is no intimation that he is going to resign the position he already holds. Possibly he regards that as sure and that it is best to hold on to a certainty.

A special to The Observer from Wilson says that a negro boy who rocked a boat near there was drowned, his companions being able to swim when thrown into the water. Fate is not always so prompt, and it was never perhaps more just than in this case. —Charlotte Observer.

Quite true. It is usually the fool who rocks the boat that escapes, while those who are so unfortunate as to be in the boat with him fall victims to his folly.

The State Farmers' Alliance at its recent meeting in Hillsboro adopted a resolution opposing the lease of the Atlantic & North Carolina railroad. A reason given in the resolution is that it seems that the railway systems of the state will at no distant day be in the hands of foreign corporations working together as a practical monopoly. The resolution further stated that instead of leasing the road it should be extended by convict labor and become a power in the hands of the corporation commission to protect the people of the state from excessive rates.

THE REFLECTOR has about reached the conclusion that the spirit of license taxes is wrong. It looks like a tax upon industry. Take the merchant for example: He pays his ad valorem tax on what he possesses, has to pay another tax for the privilege of doing business, and in addition to this has a still further tax of a certain per cent on his gross sales. Other examples might be given in which special taxes are equally unjust, but this one is sufficient to illustrate the point in mind. In many instances license taxes are overworked and are burdensome. We are not prepared to offer a substitute, but it would be better to encourage industry rather than hinder it.

Asheville, after having for fifteen years one continuous session a day of her city schools, has returned to the old plan of having two sessions a day, with a recess in each. An hour and fifteen minutes is allowed for dinner. Unquestionably the old plan is the best, as it permits children to get regular meals at customary hours. The Greensboro school authorities would do well to follow Asheville's example and discard a fad which is responsible for more indigestion than anything ever saddled upon the rising generation. —Greensboro Patriot.

It is good that some notice is being taken of this matter. The trustees of the Greenville graded school might consider it with profit. We believe the present day method of crowding the day's work into one session is very harmful to the child. Go back to the old method of two sessions a day with a reasonable intermission for dinner.

All Things Are Read.

In a little shop talk we had with a well-known editor at the Greensboro convention, he complained that many of what he considered the good things he wrote were passed by unnoticed—that they were not appreciated by the reading public. We told him nay. All the things, good and bad in the paper were read and duly noted, only he heard little of the good things and much of the bad. It is the way of the world. A man will read something in a paper that will please him immensely. It agrees with his views exactly and he will slap himself for joy but the editor never hears of it. But let him read something that goes against his grain and he will neither eat nor sleep until he has made sure that the editor has been made aware of his displeasure, either by a personal call, a communication, or an anonymous letter. That is one of the things that gall, but the editor who pursues the even tenor of his way, speaks the truth as he knows it and gives his honest convictions, will come out all right in the end. He need not bother about his readers seeing none of his good things. They see them all. —Charlotte Chronicle.

Something Doing at Rosemount.

The newspaper men who are hanging out around Esopus to keep up with Judge Parker can compare notes with the war correspondents in the Far East. They haven't got much so far but are still hanging on. Patience may have its reward, for there will be something doing on the Rosemount porch to day. Heretofore the newspaper boys have given us such items as these: "Judge Parker went down to the Hudson at 6 a. m. and took his usual punge." "Judge Parker is now cutting his rye." "Judge Parker went to the barn this morning to salt his black poll cattle." "Judge Parker has his shoes blacked every morning." Whether Judge Parker has had anything to say or not, we bet he has laughed to beat the time. —Wilmington Star.

The primaries in some parts of the state are receiving a roasting. What the local causes were we are not prepared to say. But we are prepared to say one thing about primaries. This thing of electing delegates, to which a precinct or a county is entitled in a convention, and cutting the delegates vote in halves and thirds, is an abominable nuisance and according to our opinion is contrary to the true spirit of Democracy. Every man attending a convention should be entitled to one vote—a whole vote. That's the way he votes a regular ballot, and bringing him down to fractions.

And, by the way, while so many nice things are being said about Judge Parker's letter of acceptance, it would not be amiss or untruthful to note that the Honorable Champ Clark, of Missouri, made something of a hit himself in formally presenting the convention's work to nominees. Mr. Clark's address was characterized by the best of taste, was dignified and of much force. —Raleigh Post.

The Department of Commerce and Labor acted very foolishly in getting off that joke about wages and salaries having increased in greater proportion than the cost of living has increased. Every married man's wife will be trying to find out what he does with his increase, and it will be hard to make her believe that the Department put out that lie on the old man. —Wilmington Star.

Good Men? Why Not?

We are not taking any special notice of the men who are nominated in the different counties to come to the next legislature. It is reasonable to suppose that in most of the counties the people are capable of choosing their own representatives. With our knowledge of the North Carolina people, and believing as we do in their competency, and in their integrity, it is hard for us to think otherwise.

It's simply a caution to the gods to witness the agonizing efforts of some gentlemen sitting upon the narrow circumferences of their little tripods, literally screaming at folks to listen at them as they proclaim themselves shepherds for the generations of their flocks. In the language of Paul, the apostle, we would say: "Do yourselves no harm; we are all here." "The Lord reigneth; let the earth rejoice."

This old world limped along for many years before some of us got to town, and when we are gone, there will still remain others, who will continue to do business. —Raleigh Times.

Points For Parents.

"Study the child and discover where his greatest interest lies," says Mrs. Theodore W. Birney, Honorary President of the National Congress of Mothers, discussing "The Choice of Occupation," in the September Delineator. Mrs. Birney very warmly advocates a kind of natural selection which is indicated in the trend of the child's play. It is suggested, and with reason, that a child's toys and favorite pursuits is a sure index to his vocation. The plan is founded on child-study, and, as the author says, "If parents gave to the careful study of their children one-half the earnest thought they bestow on matters of comparatively minor importance, we should see far fewer 'round pegs in square holes,' and vice versa."

The United States is the only great nation in the world that spends more for education than for war, and of this fact we should feel intensely proud. Beginning with our common school system, where the masses are enabled to study such branches as will help them to meet life's necessities, we can build our pyramid upward to our great colleges and universities. American people believe that education is the best means of making good citizens and that good citizens alone are capable of making good laws. To this end let the people avail themselves of their splendid opportunities, and every man leave his children the most priceless of all legacies—a first class education. —Durham Sun.

The authorities at Washington have fixed a penalty of two hundred dollars on anyone taking mail out of the postoffice other than their own. Postmasters are liable to make mistakes and get the mail in the wrong boxes, and the law says that the people must examine their mail before leaving the office, and if they have mail other than their own it must be returned at once, that the fault of the postmaster makes no difference. The law includes newspapers as well as first class mail. —Ex.

Why not make Governor Aycock a member of the cabinet if Judge Parker should be elected? Some of the State papers have spoken of this recently, and we think the idea is capital one. North Carolina should be recognized now. No one would represent the State with more efficiency and credit than Chas. B. Aycock. —Mt. Olive Tribune.

Men are such wise creatures that it is easy for a girl who can look pretty while she is embroidering a center piece to make the average one believe she makes all her own clothes.

DeWitt Is The Name

When you go to buy Witch Hazel Salve look for the name DeWitt on every box. The pure, unadulterated Witch Hazel Salve used in making DeWitt's Witch Hazel Salve, which is the best salve in the world for cuts, burns, bruises, boils, eczema and piles. The popularity of DeWitt's Witch Hazel Salve, due to its many cures, has caused numerous worthless counterfeits to be placed on the market. The genuine bears the name E. J. DeWitt & Co., Chicago. Sold by J. L. Wooten.

If the devil has got average good sense, don't you suppose he will want his share of the "best people?"

A Sure Thing

It is said that nothing is sure except death and taxes, but this is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Meter of Shepherdstown, W. Va. says: "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery cured me absolutely. It's infallible for Croup, Whoop Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by J. L. Wooten, Druggist. Trial bottles free. Reg. U. S. Pat. 506 51
