LETTER TO A. L. BLOW.

Greenville, N. C.

Dear Sir: What's the penalty for selling adulterated paint in your state?

What is adulterated paint? Is clay paint? Is chalk paint? Is barytes paint? Is lime paint? Is benzine? Is water? Is soap? Is mud?

We know what is; what is not is the question. Apparently nothing is not; but we're only a paint-manufacturer, not a lawyer.

Devoc is paint, all paint; and full measure; no whitewash; no nothing. We know what is; what is not is the question.

Yours truly,

F. W. Devoc & Co.

P. S. H. L. Carr sells our paint.

THE LEGISLATURE.

WEDNESDAY.

Senator Webb introduced a bill to authorize a bond issue of \$500,000 for the purpose of providing sufficient funds to equip the state hospitals for the insane.

Other new bills were to decrease the salary of brigadier general; to increase the rank of quartermaster general; to relieve ex-Treasurer Worth of loss sustained by failure of a bank in Asheville; to enlarge the powers of the corporation commission.

TEACHERS' MEETING.

They Enjoy the Class Work—Prizes Awarded.

There was a large attendance today at the monthly meeting of the teachers' association. The exercises were varied from former meetings and the work today was by classes in arithmetic, reading, geography and other studies. It was exactly like a model school and all present received much enjoyment as well as benefit from the work. The teachers of Pitt county are certainly up with the times in their methods and they are placing the schools of the county in the front rank.

Before the meeting closed the winners of the prizes for best essays on North Carolina history was announced. The first prize, the Mary Octavia G. James medal, was awarded to Miss Lala Chapman and was presented in an eloquent speech by Solicitor L. L. Moore. The second prize, a gold pen, was awarded to Miss Novella Bunting and was presented in a timely speech by Prof. T. H. King, president of the teachers' association.

These annual prizes are stimulating much interest in history on the part of the school children. THE REFLECTOR hopes to publish the two winning essays that our readers may have the benefit of them.

Health Condition

The January bulletin of the State board of health says 95 counties now have superintendents of health. The report shows whooping cough in 25 counties, scarlet fever in 17, diphtheria 29, but with no great number in any county; typhoid fever 26, this being very prevalent in Madison; influenza in 10, and pneumonia in 22 with a great many cases in Onslow. A case of hydrophobia is reported from Guilford, and one of lock-jaw from the same county. Smallpox is reported in 31 counties, Beaufort 20 cases, Bladen 14, Camden, an epidemic; Cherokee 25, Craven 17, Greene 35, Hertford 25, Lenoir 40, New Hanover, 25, Onslow many, Richmond 20, Sampson 15, Scotland many, Union 21, Wake 46, Wilkes 15. It will be seen that smallpox now prevails from the coast to the Tennessee line. Hog cholera is reported in Brunswick, Clay, Onslow and Sampson, and black-leg in Alleghany, and distemper in horses in Ashe. No diseases were reported in Alexander, Alleghany, Bertie, Bancombe, Chowan, Iredell, McDowell and Polk.

HOG TLKEN UP.

I have taken up a black sow, weighing about one hundred pounds, marked smooth crop in both ears. Owner can get same by calling at my home on the Tee place near House station, proving property and paying charges. Feb. 6th, 1905. J. T. TEEL. 2-6 1td 4wks sw

THURSDAY.

Representative W. C. Phipps, of Watauga county, having died the previous evening, the house adjourned out of respect to him and no business session of that branch was held.

The senate also held only a short session and adjourned at noon in respect to the memory of Representative Phipps. Only a few bills were introduced, and all special matters went over to another day.

FRIDAY.

After a stormy debate on the Ward bill, which is an amendment to the Watts law, that measure passed its second reading in the senate by a vote of 25 to 16. Senator Fleming made a fight for his substitute but found that sentiment was against him and withdrew it.

Mr. Fleming said in advocating his substitute that he was in favor of police regulation for the sale and manufacture of whiskey, and was in favor of the Watts law, and its interpretation by the Democratic platform, and is in favor of abolishing every town that does not carry out the provisions of the Watts act. He declared he was opposed to the Ward bill, saying it was in violation of the principles of the Democratic party, and against the temperance people, and he therefore offered his substitute, not offending the temperance people, but showing them the true temper of the temperance cause. He declared the Ward bill was a fraud upon its face.

Mr. Ward, author of the bill, owing to physical disabilities, said he was unable to speak as he wished but said when Mr. Fleming posed as the champion of the temperance forces and the advocate of the Democratic party and the spokesman of the senate, he was mistaken and self-deluded. His own bill had been pending a great many days, and every newspaper in the State had favored it, not one word had been spoken in opposition to it.

The Fleming substitute is a miserable failure, and it was introduced to kill the Ward bill. But if Mr. Fleming has made promises to the distilleries of Pitt county, he has performed his duty well, and Mr. Fleming has used immoderate language with all his intellect and physical power.

A large number of new bills were introduced in the house, but they were all of a local nature.

Representative Laughinghouse offered a bill to protect wood and timber lands from fire.

HOW HICKS STOOD.

His Predictions for February Weather and How They Turned Out. The weather predictions of the Rev. I. R. Hicks are banked on all over the country. One thing most people do not notice in his forecast—he never predicts good weather; he is always betting on the devil and high water; he seldom finds anything good, if he does he says nothing about it. What he predicted for February is that there will be five storm periods. The first will strike the east about February 3rd or 5th; the second about the 9th or 10th; third will be February 15th or 18th; the fourth on the 19th to 21st, and the fifth on the 26th to 28th.

Of these the fourth, he declares, will be the most violent, and will comprise two storms. One of these will originate on the Gulf, and he warns all concerned to take due notice. Many coasts will be exposed to the gales and violent tidal waves will around. Continuing, he says:

"The barometer will drop to low readings over most parts of the country, and general rain and snow will visit the country within six hours of 8 p. m. on the 19th.

"High gales and a sweeping blizzard out of the north west should be counted imminent probabilities, all followed by high barometer and far reaching cold wave."

WILL HAVE SEWERAGE.

Aldermen Voted to Have the System Put in.

The board of aldermen held a joint session with the board of internal improvements, Thursday night, to confer about matters pertaining to the water works and electric lights. The improvement board reported that the plants would soon be in readiness to turn over to the town and it is time arrangements were being made for their supervision.

Aldermen C. S. Carr, W. A. Bowen and A. H. Taft were appointed as water and lights committee to act with the improvement board in selecting a superintendent and arranging the schedule of rents.

The aldermen also by unanimous vote authorized the board of improvements to put in a system of sewerage, and instructed that in connection with the committee named above, which is also the finance committee, to arrange for borrowing not to exceed \$10,000 this amount to be supplemented by \$5,000 from the town treasury.

The sewerage system to meet the present needs of the town will cost approximately \$15,000 and can be constructed now cheaper than to wait later. Without the sewerage there would be few if any centers of water, for they could not use it without an outlet to take it off.

The water and light plants will be ready for use about the first of March.

High gales and a sweeping blizzard out of the north west should be counted imminent probabilities, all followed by high barometer and far reaching cold wave."

The man who is always predicting will hit it sometimes; he cannot miss everything. This is Hicks.—Greensboro Record.

BROWN STAMPS

Have Come to
Greenville.

The best store in town offers them to you in your cash purchases. Every time you spend there will do extra service—home-foreth—service that will please and benefit you.

Since you must spend money spend it so that you get full returns. And unless each ten cents in cash put out brings a BROWN STAMP on, you are not getting full value for your money.

Brown Stamps are like compound interest. They accumulate without effort on your part, and the splendid premiums they bring will save many a dollar free for pleasure or for saving. Just such things as you would otherwise have to buy are offered for Brown Stamps and it takes but 500 stamps to give you your free choice of whatever you can best use or most need.

WE GIVE YOU \$1.00 WORTH, 10 STAMPS, FREE with each new book. Unless you already have one, call at our store and get it and the \$1.00 worth of free stamps. That dollars worth rolls up like a snow ball down hill, and presto! all-most before you know it you have \$50.00 worth a book full. Just keep the ball rolling every time you spend cash; spend it where Brown Stamps are given; and

ALWAYS ASK FOR BROWN STAMPS. This store wants your trade—your steady trade—your Cash Trade. It offers low prices, splendid service and Brown Stamps in exchange. You cannot afford to accept less. Therefore you should deal here.

The stamps do not apply on purchases of Groceries and Provisions.

END OF THE CENTURY BOOK CLUB.

Reported for Reflection

On Tuesday afternoon, Feb. 7th, a number of the ladies of the End of the Century Book Club gathered in the parlors of Hotel Macon, where they were graciously received by Mrs. D. E. House and made welcome as her guests.

It was the occasion of great regret to all the members of the club that the president, Mrs. R. R. Cotten, could not be present. In her absence, the meeting was presided over by the vice president, Mrs. F. G. Hartman.

One item of business under discussion at this meeting should be of interest to the reading public. The interest shown by the people of the town in the public library as indicated by the number of books taken out, is most gratifying.

It is the desire of the ladies of the club that the library be kept open every day in the week, and in order to do this a regular librarian becomes a necessity. Plans to this end were discussed, but no definite arrangements can be made until funds are in sight for this purpose.

The literary program consisted of the reading, by Mrs. Arthur, of an interesting selection from the "Queens of England," finishing the study of the life of Matilda of Flanders.

A number of the club members were detained on account of sickness in their homes, and their absence was noted with much regret.

It was our pleasure to have with us as guests the following ladies: Mesdames T. J. Jarvis, J. A. Ricks, Sam Parham, Hywood Dail, E. A. Tucker, B. W. Moseley and the charming president of the San Saut club, Miss Pat Skinner.

Delightful refreshments were served by the hostess, assisted by Mrs. J. G. Moye and Mrs. E. B. Ficklen, after which the club adjourned to meet on Feb. 21st at the home of Mrs. F. C. Hardin.

A Very Close Call

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by J. L. Wooten. Price 50c.

Fourteen Passengers Hurt

Columbia, S. C., Feb. 9.—Fourteen passengers and nine members of the train crew were slightly injured in a rear-end collision between the Southern railway's southbound New York and Florida express train No. 33 and a shifting engine pushing freight cars at the entrance of the old Blading street station, in this city, at three o'clock this afternoon.

Both engines were badly wrecked and the mail car of No. 33, was telescoped, but none of the passenger cars left the track. All of the crockery in the dining car was broken and four of its employees were injured. The accident occurred on a sharp curve of the embankment, and that no one was killed is miraculous. The mail and fireman of the passenger saved themselves by jumping before the crash.

Coughs and Colds
Coughs and pulmonary ailments are curable and are cured by One Minute Cough Cure. This medicine cures the phlegm, soothes the throat, and restores the strength of the system. It is pleasant to take and is sold by all druggists.

Russian Movement.

Tokio, Feb. 8.—Information from the Sha river indicates that the Russians are concentrating at Chitiraisud and Eelinsbu, west of the Hun river, apparently in anticipation of a movement on the part of the Japanese threatening their lines of supply. Otherwise the situation is unchanged. A general battle is not imminent.

Mukden is crowded with Russian wounded and hospital accommodations are fearfully inadequate. There is also much confusion in the Russian camp. Naturally desertions are on the increase.

Military critics in Tokio consider that the centre of each army is so strongly fortified as to defy assault. The non-success of the Russians in mountain fighting renders it improbable that they will attempt to turn the flank of General Kuroki, who commands the right wing of the Japanese army. Accordingly, despite the defeat the Russians recently sustained, it is considered likely that the Hun valley will be the scene of the crucial struggle.

Price Is After Blackburn.

Salisbury, N. C., Feb. 9.—There is every indication of a lively tilt between Representative-elect Blackburn of this district and A. H. Price, assistant district attorney.

In an interview today with the Evening Post Mr. Price declares Mr. Blackburn's purpose, as he puts it, to enroll every Federal officeholder in the State as a member of the Republican club at Greensboro. Mr. Price learns that Blackburn has declared that he must walk the plank, and he announces his purpose personally to visit the President and Attorney General and present to them his record as a public official and loyal Republican.—News & Observer.

Tonic to The System.

For liver troubles and constipation there is nothing better than DeWitt's Little Early Risers, the famous little pills. They do not weaken the stomach. Their action upon the system is mild, pleasant and harmless. Roy Moore, of Lafayette, Ind., says, "No use talking, DeWitt's Little Early Risers do their work. All other pills I have used grippe and make me sick in the stomach and never cured me. DeWitt's Little Early Risers proved to be the long sought relief. They are simply perfect." Persons traveling find Little Early Risers the reliable remedy to carry with them. Sold at Wooten's Drug Store.

Report of Terrible Explosion.

Birmingham, Ala., Feb. 9.—A terrible explosion at a dynamite plant at Boyer, five miles north of Birmingham, tonight wrecked the plant and broke windows and extinguished all lights within a radius of two miles, but so far as learned no one was killed. The shock was felt for twenty-five miles. Every avenue for obtaining details is cut off tonight.

A Watch Cost His Life.

Mr. W. Morgan, a prominent citizen of Randolph, and well known as Major Davidson county, died on Monday morning, after a few days' illness with la grippe at his home. Mr. Morgan was 40 years old and leaves a wife and 10 children. The funeral and burial took place at Shepherd church Saturday afternoon and was attended by a large number of relatives and friends.

Mr. Morgan was for several years a successful horse trader; later he became an agent for McCormick's machinery and engaged in the business of buying and selling machinery. He accumulated considerable property and his estate is valued at several thousand dollars.

About four weeks ago, while crossing Uwharrie river, Mr. Morgan accidentally dropped his watch in the stream. He waded in the cold water after the timepiece and became thoroughly chilled. He went home, was stricken with la grippe, followed by pneumonia and death resulted last Friday.—Lexington Dispatch.

Over Twelve Million Ginned.

Washington, Feb. 7.—A report issued by the census bureau today shows the quantity of cotton ginned from the growth of 1904 to January 16, to be 12,767,690 counting round bales. These consist of 12,524,777 square bales, 289,425 round bales and 98,110 sea island. Counting the amount as running bales total is 12,912,312. This was ginned by 39,221 ginneries, which were operated at some time this season prior to January 16. North Carolina reported 7,047,801 bales and 2,929 ginneries.

Truth in Reference to Fiction

GREENVILLE, PITT COUNTY, N. C., FRIDAY, FEBRUARY 14, 1905.

GREENVILLE VS. SCOTLAND NECK.

By way of comparison the Scotland Neck Commonwealth says:

"About three weeks ago mention was made in these columns that the Greenville REFLECTOR carried in a single issue twenty-two columns of advertisements by the home merchants. Since then that paper has carried in one issue twenty-five columns of advertisements by the home merchants there.

"The REFLECTOR of February 2nd said that requests for copies of the paper have come from Northern and Western cities because persons there wish to see how the Greenville merchants are advertising their town. Such liberal advertising has caused considerable press comment, and the country is beginning to learn about the progressive methods of the business men of Greenville.

"The Commonwealth offers to the business men of Scotland Neck just as easy means for advertising as THE REFLECTOR offers to the business men of Greenville; but they do not avail themselves of the opportunity.

"Scotland Neck has as attractive business places any town of its size in the country including a handsome drug store, ten or twelve dry goods stores, eight or ten grocery stores, two hardware stores, three or four brokers, several law offices, insurance agencies at almost every corner, shops, factories, livery stable, sale stables, and a number of other things that could be well advertised; but no man on earth would think there are half so many business places here by looking through the columns of the town paper."

That is where the people of Scotland Neck make a grave mistake, and the same is true of any other town whose business men follow such a course. The man who tries to do business without advertising injures himself. If advertising did not pay you would not see the best business men doing so much of it. Beside the value to the advertiser, a newspaper is an index to a town and the outside world forms its opinion of a town largely from its newspapers.

Whiskey has won one victory before this legislature. The legislature two years ago incorporated a little place called Advance, in Davie county, to allow a distillery to be located there. A bill was introduced at the present session to prohibit the sale of liquor at Advance and the house committee made an unfavorable report on the bill by a vote of 15 to 11. One remarkable thing about the petitions presented in opposition is that they declared that the order and morality of the town were better than before the distillery was established. A distillery fostering the morals of a community is something new.

Grafter Machen and some of his confederates in the postoffice scandals are now in the penitentiary. There are some of the unconvicted who also ought to be with them.

STOP THE LATE GOING

It was once said of a man that he always went to church late or got up and left hurriedly just to attract attention. Possibly it is the same idea that prompts many people to never be at a place of public amusement on time—just want to be seen. They get seen all right, but the look given them is one of disgust rather than admiration from those in the audience who are annoyed by the late coming. The Greensboro Record says:

"A performance at a theatre might be scheduled to begin at 19 o'clock or even later, yet there would be scores of people to remain long after the curtain was rung up. The only way to stop it would be to close the doors as soon as the curtain is raised and permit no one to enter until the close of the first act. This is done in some places and it works like a charm."

Just why people will persist in annoying others by going late is hard to understand. It is a custom that ought to be stopped and the managers of play houses should make and enforce such rules as will put an end to it. Those who pay their money and go at the proper time to enjoy a play have a right to demand that they be not disturbed by late comers.

John Tharpe, a white man who is an old offender, was before the mayor for being drunk and disorderly. He faithfully promised Mayor Springer that if he would suspend judgment on him he would leave the city at once. The mayor thought the best thing for the community would be to accept Tharpe's proposition, so he was told to get out of town at once and he would escape the punishment he would otherwise receive, in all probability a term on the roads.—Wilmington Messenger.

That was a poor way to dispose of an offender, if he had committed deeds that deserved punishment, he should have been punished in accordance with his offence. Suspending judgment on condition that he leave town was only sending him away to be a menace to some other town. This method of disposing of bad men should be stopped.

To the Charlotte Observer or Greenville REFLECTOR: Some lasses in an adjoining county sent a young man to the Commonwealth office yesterday asking for some "high dives." The young man said they told him that he would find "high dives" only in a printing office. We pass it on to the Charlotte Observer and the Greenville REFLECTOR to enlighten us about "high dives" in printing offices.—Scotland Neck Commonwealth.

This is one on us, and we will have to pass it on to the Charlotte Observer and let that paper walk off with the palm for a correct answer if it can.

Every time Miles opens his mouth he makes the matter worse.

There are some sharp lawyers in the legislature. One of them has introduced a bill to prevent compromise of suits by litigants until all attorneys fees are paid, and the house committee has made a favorable report on it. That is a bill that should not get on the statute books. We are unable to see why the state should make any more provision for lawyers to collect their bills than are made for farmers, merchants, doctors, and all other occupations, trades and professions.

High Point has fully demonstrated that there is at least one place that can pull off a successful banquet without having recourse to the cup which both cheers and inebriates.—Charlotte Observer.

Durham once did the same thing. At the meeting of the North Carolina Press Association in that city in 1890 (we think that was the year) the editors were given an elegant banquet and not a drop of intoxicants was served.

Two new stars must be added to our national flag, congress having passed a bill to admit two new states. One of these is the state of Oklahoma and embraces Oklahoma and Indian Territory, and the other is the state of New Mexico. Arizona was left out, as that territory did not want to be admitted with New Mexico as one state under the latter name.

Six per cent interest is a sufficiently high rate to pay on money, and the people of the state have prospered for many years under that rate. The bill before the legislature to allow an increase in the rate to seven per cent should be knocked out on the first round.

A Gaston county man rescued from a mill pond an escaped inmate of the county home, and presented to the county commissioners a bill for \$25 for his heroism. The commissioners did not pay the bill.

A business that has to be hedged about and legislated about as much as the liquor traffic is a bad business. The whole country would be better off by stopping the business entirely.

The Louisburg Times has entered its 35th year, and J. A. Thomas has edited it for twenty-eight years. It is one of the oldest weekly papers in the state and ranks with the best.

The town of Littleton wants to close its dispensary and have prohibition. That is the goal that all dispensaries should be the stepping stone to.

The Legislature has passed the half-year post, and new pray tell us what it has done?—Wilmington Dispatch.

Down this way we thought it was very bad weather, and so it was. But it was mild to what struck the central and western portions of the state.

Packages of seed from the congressmen are reminding the people that spring may come along after awhile.

If the bill to tax dogs becomes a law there may be more sheep in the state in a few years.

This matter of providing for an issue of bonds to the amount of half million dollars is something the legislature should go slow on.

Unless something happens there will be a hanging in Virginia tomorrow with the body of McCue at one end of the rope.

After Greenville gets the electric lights, waterworks and sewerage completed, the next move should be for better streets.

With the weather record it is making we can't be thankful that February is a short month.

1894 And 1904 From A Political Standpoint

The Nashville American prints some interesting figures in connection with the electoral vote to be canvassed on February 8th, and that reviewed by the Senate a hundred years ago. Of the 476 electoral votes cast in accordance with the election of last November, 336 were for Roosevelt and 140 for Parker. One hundred years ago, when the Senate canvassed the electoral vote, it found that Thomas Jefferson had received 162 votes, while the candidate of the Federalist party, Pinckney, of South Carolina, received only 14. Eight years before he had been defeated by John Adams by three votes, Adams having received 71 and Jefferson 68. In 1800 Jefferson defeated Adams by eight votes, Adams receiving 65 and Jefferson 73 votes. Commenting on the above disclosed situation, The American says:

"Jefferson's triumph in 1804 was a deathblow to the Federalist party. It never recovered from that defeat, and a few years later ceased to exist, even in name. Proportionately Jefferson's majority of electoral votes was greater than Roosevelt's. After an honorable and useful existence of one hundred years, the Democratic party meets defeat nearly as overwhelming as its triumph of a century ago. Let us hope that, unlike the Federalist party, it will survive such a defeat and gather in strength as it gathers in years."

It is to be hoped that our contemporary is not as despondent regarding the future of the Democratic party as its words imply. Things change a good deal faster nowadays than they did a hundred years ago, and therefore results are more pronounced. The Democratic party, from a national standpoint, has been practically put out of business, it is true, but it will ere long again come into power—just how or when this good fortune is to overtake the country is, however, a matter for future determination. Although its own folks have done all they could to scuttle the ship, it will float again.—Charlotte Observer.

The Corporation Commission reports one hundred and sixty-four State, seven private and twenty-seven savings banks in North Carolina. The total resources are \$32,000,000 against \$28,000,000 a year ago. The deposits subject to check are \$19,000,000.

BOSTON'S BLANK BALLOTS.

The ballot law of Massachusetts has been recommended for adoption in other states because it compels the voter to express a preference for each candidate and thus in theory favors "split ticket" voting. It has another curious quality—the number of blank ballots it produces.

Parker for president had 10,609 plurality in Boston, but about 6,000 ballots cast were not marked for this office at all. Douglas' plurality was 33,078 in the largest vote cast, but even for governor there were 4,615 blanks. For lieutenant governor there were 9,557 blanks, for secretary of state 13,776, and so on in generally increasing ratio until 23,256 blanks out of a total vote of only 96,634 testified that 24 per cent of the voters didn't care a pencil mark who was to be sheriff.

Evidently the Boston problem is not to get the voters to the polls, but to make them take the trouble to vote right through the "bill of fare" when they are there.—New York World.

Thrives on Poison.

There is a young American achieving fame in England in an unusual way. He is showing the British medical men how much poison he can eat and drink without ill effect. His menu on a recent occasion was Paris green, strychnine, blue indigo, phosphorus and arsenic. It was all very simple. Each plate contained its deadly burden of brilliant green and blue and white powders. One after the other the American partook of each, missing none, but deploring that he had been unable to secure certain other things owing to the stringency of the law controlling the sale of poisons. Medical experts marveled at the demonstration. Every dish was severely tested, and the admission was freely made that enough poison had been swallowed to kill a regiment of ordinary mortals.

Cravats of Wood Pulp.

A syndicate of English capitalists is engaged in an endeavor to promote a market in this country for tie silks made chiefly from wood pulp. This product is principally obtained in South America, Paraguay furnishing a large supply. The vegetable silk has its origin in trees and is readily adaptable to native looms. The woad threads are supercalendered, which process presents a silky finish resembling merized goods. For several years past this glossy material has been sold in piece lengths to the upholstery trade, by which it is utilized for filling purposes. The selling test of artificial silk for cravats is anxiously awaited by local manufacturers.—New York Press.

Electricity and Agriculture.

The application of electricity to general agriculture has been successfully made in southern France and has been followed in Germany on an even greater scale. Power is provided from a central plant, and motors for thrashing grain, grinding flour, pumping water, etc., are rented to proprietors, who find that the work can be more quickly and cheaply done than by the use of horses. The application of electricity to growing seeds has been found exceedingly advantageous, such use of the subtle agent having been first made by the experiment station at Amherst, Mass.—Cleveland Leader.

Won and Lost.

Thomas G. Gaylord, a New York lawyer, was arrested charged with speeding his automobile beyond the legal limit. He offered to bet the policeman who took him in charge that no fine would be imposed. The officer took the bet and told Magistrate Breen of the transaction. "The prisoner wins," said the court calmly, and Gaylord smiled triumphantly as he started to leave the court. "I shall hold him for trial in special sessions," added his honor. And then it was the policeman's turn to smile, even though he had lost the bet.

The New Campaign.

Work on the new campaign Venice is being pushed as possible, and it is hoped the entire structure will be complete by the spring of 1906. The remains of the proved that the building used for various purposes stage, in arched tops of walls, the most important they were not bricks.

THREE JURORS CURED

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates on experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better: he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale at Wooten's Drug Store.

THE MEETING.

Interest Deepens With Each Service—
Business Houses Close for
Evening Service.

The congregations yesterday at the Methodist church were larger than they had been since the series of meetings began. Those who hear Dr. Comann once are anxious to hear him again. In all his discourses he sticks close to the Word of God. He realizes his dependence upon the Spirit of God for real power; and God honors his simple faith and gives to the messages he delivers an unction that is not of earth.

His text yesterday morning was St. John, 7:17, "If any man will do His will, he shall know of the doctrine, whether it be of God, or whether I speak of myself." The discourse based upon this text was exceedingly helpful to all who heard it. He emphasized the important truth that God communicates special illumination to those who yield themselves entirely to His will, and to them only.

At night he selected his text from the Gospel by St. John, 3:5, "Jesus answered, verily, verily, I say unto thee, except a man be born of water and of the Spirit, he cannot enter into the Kingdom of God." Based upon this text, and supported by numerous passages quoted from other parts of the Old and New Testament, Dr. Comann delivered one of the most powerful sermons ever heard in Greenville, and the close attention paid to every word of the discourse by the large congregation, testified to the fact that they realized that the speaker was saying something worthy of their attention.

From now on to the close of the meeting all the business houses in town will close for the evening services. The ladies will hold a prayer service at 3:30, p. m., each day, and we expect gracious results from the services to follow.

LETTER TO KING HOUSE.

Greenville, N. C.

Dear Sir: There is endless discussion about barytes in paint. Perhaps this settles the question. Two houses exactly alike at Delhi, N. Y.; the owner of both is Mr. N. Avey. One was recently painted Devoc; the other with a paint; same painter did both jobs; his name is George Gilbert.

One cost \$27; the other \$54. The first took 6 gallons; the other 12. Six gallons Devoc, as to covering, equal twelve of the other.

Yours truly,

F. W. DEVOC & Co.

P. S. H. L. Carr sells our paint.

Spanked.

I guess my mamma 'd feel real bad
And cry and go round awful sad
If I'd run 'way away!
I guess she'd be real sorry then,
And never laugh nor smile again.
I guess I'll go today,
'Cause I've been spanked!

I guess my mamma 'd
And wish she had
If I'd lie down and
I almost cry myself
Of me, real dead,
I'll lie right down
'Cause I've
