Yellow Fever List Grows.

New Orleans, July 29 -The list of those dead or stricken with yellow fever continues to increase day by day and now there is strong sentiment in favor of asking the U. S. Marine Hospital service to take full charge of the sanitary and protective measures.

"About January ist, 1902, I took down with weakness and dropsy, and gradually grew worse. I was told by my family physician that my case was hopeless. My neighbors and family had given me up to die. My limbs and body were swolien to one-third larger than normal size, and water had collected around my heart. For at least three months I had to sit propped up in bed to keep from smothering. I sent for five bottles of Dr. Miles' Heart Cure, and by the time I had taken them all I was entirely cured. I feel better than I have for twenty years, and I am able to do any kind of work on my farm.
