Atlanta, Ga., March 14-An places the electrical storm of great severity. accompanied by a heavy rainfall, e merchant. visired Atlanta late today. Near-.t displays an ly two inches of rain fell between tion in the use noon and dark. The tower of the Second Baptist church was set on rprise. It shows fire this evening by lightning. Nearly a hundred phones on the north side of the city were burned out and a number of electric street cars were also put out of commis sion. The church was damaged about \$1,000. The total loss from the storm will probably amount to several thousand dollars.

Preacher Hurt.

We learn that Elder M. T. Lawrence, of Hamilton, who serves the Briery Swamp church in this county, was painfully hurt when returning from his appointment at that church last Sunday. While erian churches of the Uni-es met today in the First the harness broke. This frighten terian church. The meeting anized by the election of the officers who served the ttee at the last meeting held the back of the buggy, but in dotsburg, Pa. Dr. J. R Searle, w Brunswick, N. J, is modr, and Dr. J. D. The

NEGROES TO BLAME.

Southerners have been abused for their treatment of the negroes. To outsiders there ao. pears no reason sufficient to incite an attack upon the negroes. When a riot or lynching takes place a lot of peop e in other sections take it as a matter of course that it was a premeditated and spontaneous move on the part of the whites with no previous advance by the other side

This is not always the case. And while we do not believe in lynchings and mob violence and have ever favored the law taking A beautiful line of crockery, glass bird dog took a hand, Ie first more than \$10,000,000. Although bank is located There has never themselves This was the case

who are, as is well known, very gible character of the stocks rich and exceedingly ambitious to increase their possessions, and which now and again create a Pure Plymouth Rock Chicken SPECIAL SALE. increase their possessions, and which now and again create a whites. Finally the unrest de-Eags for sale at 75c per setting of SPECIAL SALE. who would naturally view with whirl-pool in the realms of high veloped into an attack. It is done by a negro ex-convict The result was that two hundred white men gathered to avenge the blood of an aged old white man who was shot in the back by the egroes.

Further developments will be watched with interest.

ltidoes .ook as if the negroes would sometime learn the lesson that when they precipitate trouble between the races they always get the worst of it. It is usually the case that several of their number must pay the penalty for the toolishness of a few. This is merely another example of the folly of the negroes the aggressors.

It is all wrong Mob violence and rioting should not occur, and yet when they do the negro is usually the loser, though he appears to be unable to learn the

Dr Lord, a co'ored physician ille, is now a resident of Concord and the T ibune tells that a citizen of that town asked the doctor recently "how come" colored folks don't have appendicitis. "That is simple enough." answered the doctor, "they haven't got the price " Once when there was an epidemic of scarlet fever in Statesville a council of physicians was held to Capital stock paid in, \$10,000 00 advise with the city authorities 1000.00 as to ways and means to hold the pest in check. Dr. Lord was 1.334 25 called in to report conditions. Divideads unpaid : . : 66 00 among the colored people. THE RALSTON HEALTH SHOF

Shee making has been developed on wooden teet---lasts---which know no "pinch" nor discomfort. The soft, yielding, tender flesh of a live foot has thus been compelled to inhabit an unnatural, ill-fitting and oftentimes unsanitary shoe. To be foot-tired is the average man's daily inheritance. And how much ill health can be traced to an ill-titting shoe. When the foot is improperly shod the delight of walking is gone, and man's best friend,---his feet---refuse to him the comfort he should enjoy. A perfect walking shoe, one that keeps the foot always in good condition .-- can such be had?

This question brought into being the Ralston Health Shoe. Recognizing that the foot sole is a curve made by the twenty-six bones which form the heel, ball and toes, (a fact strangely ignored by shoemakers in the past) we evolved a construction method which places prime importance in last modeling.

Ralston lasts are anatomically correct and differ from all other makes. Ralston constrution is a principal combining comfort, ease, service, style, fit and commonsense, --- real quality in tootwear, built into the shoes from the very start.

Shoes made on Ralston lasts are nature shoes, conforming to the natural foot, and because they need no "breaking-in" they never lose that charm and style for which Ralston shoes are famous, -- and which cannot be obtained in other methods of manufacture.

In the selection of materials for Ralston shoes the World's best makers are searched and every bit of upper, top, or sole leather, linings and tittings must pass the Ralston test

before acceptance. The same idea with our employees. Each and all must do his or her part according to the Ralston idea, whether it is cutting, stitching, lasting, making or finishing. The result is a shoe unrivalled in pleasure giving, service and abounding in comfort and style. Thus our immense factory with its army of happy, skillful employees is dedicated to the gospel of the foot salvation from cramped and unsuitable footwear. The Ralston Shoe cannot be duplicated at the price asked --- \$4.00--- and as good a shoe is not made or sold for less.

ARE FOOT FORMED

New Spring styles of Ralston Health Shoes are new on display in our store, and we invite you to give them a look

Every **Heart-Ache**

Every pain in the breast, difficult breathing, palpitation, fluttering or dizzy spell means that your heart is straining itself in its effort to keep in motion. This is dangerous Some sudden strain from overexertion or excitement will completely exhaust the nerves, or rupture the walls or arteries

of the heart, and it will stop. Relieve this terrible strain at once with Dr. Miles' Heart Cure. It invigorates and strengthens the heart nerves and muscles, stimulates the heart action, and relieves the pain and misery.

Take no chances: make your heart strong and vigorous with

OURS, NOT MINE.

A Simple Plan That Might Prevent Many Home Tragedies. "It is mine!

"I tell you, you are mistaken; it is mine!" Divorce court.

Which is a terse way of putting the sad history of many a marriage disagreement over the things mine and thine and the domestic misery

that follows. The way to settle such a disagreement is for both parties to say, "It

is ours.' Because of the struggle for mine

and thine the records of history are rolled in blood, nations have fallen, barriers of hatred have been raised, brother has fought brother. Envy, dissension and division have come because men have contended for that which is not theirs, but "ours." Organized selfishness in our day

has manifested itself in the great corporation spiders that have spread their webs far and wide, controlling the avenues of approach, watching for victims with their many faceted eyes, gathering to themselves what is not theirs, but "ours."

The world is ours.

Sky and earth-ours. Sunshine and shade-ours.

Flowers and birds-ours.

Fruits and fertile fields-ours. And the Master of us all taught us to pray, "Our Father." Ladies and gentlemen, everywhere

is needed this doctrine of "ours"in the family, city, state, nation, world.

The solution of all earth's problems is wrapped up in the one say-"Everything is ours."-Milwaukee

Journal.

Better Blood.

In the home of a New England farmer there are two small heirs, bright little fellows, six and seven years old, named Will and Eugene. Like most other lads, both of them dislike work, especially "chores," and when these small services are required each frequently evinces a desire to have the other take the laboring oar. Once the family physician was calling at the house in attendance on the mother. As he was putting on his gloves to go away he ran a professional glance over the two youngsters.

"Mrs. Fuller," he remarked, "the younger of your two boys, Eugene, is more robust than Will. He has greater vitality. His blood is bet-

About an hour later, as dusk was falling, the mother said: "Will, you must fill the wood box for morning. Fetch in four armfuls."

"I don't want to!" whined Will. "Make Gene go. His blood's bet-ter'n mine."-Youth's Companion.

Human Hair Market.

The human hair industry is a very active one in France, the depart-ments most frequently visited by the hair merchants being those of Correze, Creuse, Allier, Cher, Dordogne and Haute Vienne. The average price given for a full, long head of hair is from 8 shillings to 25 shillings for the very best quality and color. The girls of the districts mentioned above, which are exceedingly poor, stipulate that their hair shall not be cut short in front and conceal the shorn appearance at the back by a draped colored handkerchief. The best shades of light and blond hair are obtained from Germany and Switzerland, and for these high prices are paid.-London Mail.

Britishers Do Not Flatter.

A Boston lady who had been received with much favor by the Folklore society in London rather questioned the sincerity of her warm reception and said she supposed, like the French people, the English flat-ter. "Not at all," was the protest of a London friend. "You need not consider it possible for an English person to flatter." And then she gave an instance. Some one looking at a painting said to the artist whose picture it was, "It isn't so bad, you know." "Now don't be fulsome," was the reply .-- Doston Herald.

Wilson and the Mining Expert.

A man named George Wilson owned the famous Paris mine in Park county, Mont. Wilson was vi ited by come Englishmen one day among whom was an expert of th English pattern-one who knew al about mines and a great deal about everything else, in his own opinion. They wanted to see some of Wilson's gold, and i.e panned out some very fine colors for their edification.

"But that isn't gold," pronounce the youthful expert after a critica examination. "Me deah fellah, am a graduate of the English Scho of Mines, and I know gold when I see it, you know. That is iron."

Wilson didn't say much. He jus leaned over and took the alleged ex-pert contidingly by the shoulder. "Mebbe it isn't," he said, "but don't go and give it away to those fellows down at the Denver mint, for I have been selling this stuff to them for gold all along."

BANKRUPTSTOCK WW OF A.E. TUCKER TO BE SOLD AT ONCE.

REAL ESTATE IN GREENVILLE IS A

Safe investment.

Secure a Good Location while there is an opportunity to do so at

Reasonable Prices and on Easy Terms.

I have devided that splendid property, just east of the town limits in South Greenville, into convenient lots for home-seekers and will sell them on easy terms. There is no better location for homes anywhere around Greenville. High elevation, level. and convenient, being only a few minutes walk from the business part of towr. This property is just outside the corporate limits, yet those who reside there will have the benefit of the graded school, and be as near to the churches, and depot and postoffice as are the people in many parts of the town, being only three hundred yards from Five Points, nice neighborhood adjacent to the property. Talk it over with me and let me show you these desirable lots. No better time than NOW to buy. Greenville will grow rapidly in the next few years and property will be higher. Catch the opportunity before it is too late.

One of the most convincing hat has been delivered in the course of the rate debate was trusts, has turned against them: that of Senator Rayner, of Maryland. is trying to oust the biggest of He said that it was impossible to all its children, the Standard Oil adjust all the digerences and in Company This is base ingratiequalities in railroad rates without tude, after pocketing millions in conferring on the Interstate Com fees for incorporating trusts .merce Commission the rate making Farm, Stock and Home. power. In addition he said that if one were to make an accurate map one were to make an accurate map of the United States showing its Move. 10 10td sw discrimination in rates, it would be considered by most people as the working of a disordered brain. Yet he said, the rate on goods from New England to the Gulf was less than to the same point from Chicago, which was 509 miles nearer. Goods could, he said, be shipped from New York to San Francisco and back to Sait Lake for less than the freight to Falt Lake direct. And the freight on certain goods by certain lines was more from Chicago to Denver than to Denver from New York. Mr. Rayner said that it would be better for the railroads to submit to the rulings of the proposed Hepburn bill than to inflame the public ag inst them and force the formation of a political party that had for its the adjustment of rates on a far more stringent basis than that now pro posed He said that has not op pos d to the railroads and did not || want to see their property practically absorbed by a confiscatory rate, but he was anxious to see some adjustment between the people and the roads before socialism stepped in and altogether annexed the concessions that it was now in the province

ous case has recently been decided in the Supreme Court of North Carolina. A dispensary had been established in a town in the State and the act under which it was operated provided that all profits therefrom should go into the town treasury. Bat in response to popular demand from the county the act was so amended as to provide that one half of the pro fits of all such dispensaries should be paid over to the county treasurer to be used in improving the public roads. The citizens of the town in question were up in arms against the amendment and the authorities forbade the town treasurer to pay any money received from the dispensary to the county treasurer. The case finally went

WHAT IS BROMONIA? (BROMOZONE.)

Bromonia is a product as near capable of curing the majority of diseases as it is possible for Modern Science to produce. The use of Bromonia makes pure blood. Bromonia is not a miracle but simply the result of the scientific investigation of the greatests chemists of the present century. At the first symptoms of fatigue headache or backache, which are often the forerunners of disease, send for your physician if you will, but, if you take Bromonia, you may find that by the time he has answered your call, that the symptoms have disappear.

Use Bromonia as directed. Live a temperate life. If you become ill while so doing, we will pay any reasonable doctor's bill on demand and proof of illness. We don't want you to invest a cent, however, until we have bought the first bottle for you. Fill in the coupon under this advertisement and mail it to us, taking care to write your name and address plainly, and we will send you without any cost to you whatever a full size package to try. No matter what your trouble is, write to us. Correspondence con tidential. Address Brom-

onia Co., New York. J. L. Wooten will give his personal guarantee that you will receive an order on your nearest druggist for a free bottle if you send us coupon. Be sure to write your name and address prainly.
