In Suits. Long Coats are the thing, with long, narrow lopels and semi-shaped backs. The newest idea is to have no vent in back, though men men prefer side or centre vents. All coats are "three button" this year, and those cut either "straight front" or nearly so, are con sidered the best style. Colors are mostly dark mixtures,—black, blues, and browns,—though greys are still very popular. Plain colors are always stylish.

In Overcoats \$15 to \$30

The latest is the "French Flare Back" model, of which you get some idea from the picture. This is a semi-fitting garment with wide skirts and a deep centre vent in back, made of the new worsteds and other appropriate fabrics. Rain Coats, both lease and form fitting, are more popular than ever, while the Top-Coat is a garment always in style. Paddocks and Box-Coats are also among the fashionable over-garments of the year.

The Tobacco That Made **Chewing Popular**

Man's fondness for chewing tobacco is created and popularized by the tobacco produced in the famous Piedmont tobacco belt. Only choice selections of this well matured, thoroughly cared lenf are used in making SCHNAPPS. That's why SCHNAPPS requires and takes a smaller amount of sweetening than any other kind -and that's why SCHNAPPS has a wholesome, stimulating and satisfying effect on chewers.

There are many imitations of SCHNAPPS claiming to be "just as good," but without the flavor or quality that has made SCHNAPPS sales more than all similar tobaccos.

It is made in the Reynolds factories, famous for producing the best chewing tobaccos, by clean, sanitary processes, under the same direction, since 1875, of men who have made the business a life study. They are the largest and best equipped flat plug factories in the world and are situated in the very center of the world's greatest

If you've never chewed SCHNAPPS, now is the time to get acquainted with the cleanest, most healthful, stimulating, satisfying and wholesome form in which tobacco can be used. Do not accept
