

EASTERN REFLECTOR

PUBLISHED EVERY FRIDAY BY A. J. WHICHARD, EDITOR AND PROPRIETOR

GREENVILLE NORTH CAROLINA FRIDAY, JUNE 7, 1907

Truth in Preference to Fiction

Some of the anxious want to know what the president will do when he gets out of his present office.

Mr. Hearst is accused of being hunting for Republicans to reorganize them in a party of another name.

Greenville drew number seven in the lottery to go before the State board of education in the Eastern training school hearing.

The eleven have returned. Now come seven and then the training school.

The Raleigh News and Observer issued a 96-page edition Thursday in celebration of its "house warming" in its new building.

If the people of the South really want to stop the operations of the New York cotton exchange there is but one way--step dealing with it.

Keep up the spirit of pulling together that has existed during the past year, and Greenville will become the capital of the East.

Candidates for governor and for commissioner of labor and printing are numerous. Some of them had as well make up their minds to stay home.

Greenville will send the others an invitation to come to the laying of the corner stone, and we want you all to come and help us have a big time.

Who will be Greenville's next mayor is coming along for occasional mention.

When the brethren finally get settled on those ten best things to eat, we hope they will pass some of them around, or get up a spread and send out invitations.

The wise man contemplating owning a home in Greenville should not wait until after the training school is located to buy a lot. It will be money in your pocket to buy now, and not be a long bit.

Fining the corporations only brings a smile. They can make the fines several times over by violations, and of course will keep it up until there is something more stringent than a fine.

As it seems to be understood that the officer of commissioner of labor and printing will be filled by a newspaper man, several of the brethren are expressing a willingness to have it.

WHO PAYS THE PENALTIES?

The New York Journal of Commerce has asked "who pays the penalties?" Referring to the penalties imposed upon railroads, we would say the people pay them.

That is a good cyclone story from out in Illinois. It says a farmer driving a wagon along the road was caught up in the wind and blown away, and no trace of either the man or team can be found.

Yes, when it comes to water Greenville has a plenty, and the State chemist says it is A. 1.

The News and Observer is the only paper around Raleigh that does not seem to have found out anything about the Eastern Carolina teachers training school, and that Greenville was by far the highest bidder for it.

Let us like they are about to make a stir out of one of Speaker Cannon's speeches on his recent visit to North Carolina. He is quoted as saying things complimentary to the South and her method of handling the race problem, that he did not want his friends in the North to know that he had said.

In this age when the spirit of commercialism is a life, other things being almost lost sight of in the mad pursuit after the dollar, the announcement of a protracted religious meeting should arrest attention.

No battle-scarred flag at the Richmond reunion could have been more a reminder of a generation that is rapidly passing away than the appearance of several old time negroes in the parade. The marching side by side of former master and former slave, evidenced the tender feeling that still exists for the faithful negro in the South.

All of these people who are arguing that women should be especially protected, because they are more delicate than men, should take a look around at the girls who are wearing peek a boo waists while men are shivering in their winter flannels.

The editorial page of the Durham Herald indicates that editor King has gone fishing again. How we envy him!

After the Eastern training school is located many other industries will follow. Just as well be getting ready for them and keep things humming.

A New York woman lawyer says the time is coming when women will do the proposing. If it does, along with it may come the experience of seeing how breach of promise suits feel.

Such a law is very unjust and should be repealed. Of course when the railroads by delay of freights inflict damage upon the consignee the latter should be allowed to recover such actual damage as has resulted, but if there is any penalizing to be done such penalties should go to the State and not to the consignee.

THE BUILDING AND LOAN.

Charlotte is the best exponent North or South, of the value of the building and loan association to a community, and The Chronicle has never hesitated to give the building and loan association advertising with a free hand.

May Irwin says a woman is happiest with a young husband. This is undoubtedly true, if the young man has no deep-seated prejudice against splitting the kitchen and lighting the kitchen fire in the morning.

Owing to a mistake of the legislature, Texas people will have to go without a drink for twenty days. That will give the Texans a chance to discover that it is not an impossibility after all.

A Texas judge has ruled that a common table fork is not a deadly weapon. Possibly it will now be easier to induce the Texans to make more general use of it.

During the president's visit to Lansing, Mich., the mayor prohibited the sale of peanuts. Perhaps he didn't want people to get the impression that an entire circus was coming to town.

The next edition of "Wild Animals I Have Known" by Ernest Seaton Thompson will doubtless include the president.

According to the census figures, there are 4,833,630 bread winners among the women of this country. If there were that many good bread makers among them, there would be a falling off in the demand for dyspepsia tablets.

A Memphis woman has sued the same man for divorce five times in seven years. After while he will be getting tired of paying for that kind of amusement for her.

The ice cream soda crop should not be omitted from the list of failures for which eccentric climate is held responsible.

Well equipped summer resorts this year should provide refined bathing suits and oil-stoves.

On last Saturday at Beaufort there was a celebration of the completion of the Norfolk and Southern railroad to that town. Thousands of people were present and the occasion was one that marks an epoch in the history of Eastern North Carolina.

One of the speakers at the celebration was Mr. Frank S. Cannon, president of the road. He clearly set forth the interest the Norfolk and Southern has in the development of this section, and the assurance that the policy of his road is to comply with the spirit of the laws of the State, even though some of these laws are adverse to its interests, was truly commendable.

Prices are on a higher level than they have been for seven years, according to the bureau of labor. We are glad to know they are on the level if it is higher.

The charge of the straw hat brigade is not yet--but soon.

The Irish are threatening to boycott all goods bearing a portrait of the British lion. This is a new way of twisting that animal's tail.

A scientist has discovered that bullets carry disease germs, but we assure him that we needed no information of that kind to strengthen our determination not to let any bullets if we can help it.

RANDOM REFLECTIONS.

An Ohio man has been twice struck by lightning and as we understand it, he never gave his neighbors reason to suspect that he had a hankering for office.

stronger each year. When I satisfied Mr. Perry and his associates that the people of this section of our country would appreciate any effort made in good faith to cooperate with them in the up-building of their country's resources, they unhesitatingly responded to every call for funds to prosecute improvements of your transportation facilities.

Birds Share Nest. A curious friendship between birds has been observed here. A blackbird built her nest in a quiet covert in this neighborhood, and after laying four eggs, she was joined by a thrush, who also laid four eggs in the same nest. Owing to the sheltered nature of their retreat, the hospitable blackbird and her friend hatched the doubled brood in peace. This appears to be the earliest recorded instance of the matriarch in ornithology--Scotsman.

It doesn't necessarily follow that a man is any good just because he's as good as his world.

In the Green Isle dwelling flourished years ago as much as it did in France. When a Trinity college student asked the provost what books he had better bring to college the latter said: "Never mind the books. Bring a case of pistols. The students were in the habit of settling their little affairs either just before or just after morning prayers. All the distinguished Irishmen of the eighteenth century were duellists. Curran, Grattan, Sheridan, Barrington, Fitzgibbon, Flood, O'Connell, were often 'out,' and later the O'Gorman Mahon had twenty-two affairs to his credit. The bar led the list.

are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart. Indigestion causes the stomach to expand—swell, and puff up against the liver with its action, and in the course of time the heart becomes diseased.

TOWN MATTERS.

Proceedings of the Aldermen. The board of aldermen met in regular monthly session Thursday night, seven of the members being present. Chief of fire department reported that he had tested all the fire hoses as directed by the board. The standing committees had no reports to make. Alderman Carr was appointed as special committee to report on condition of the dispensary. The officers filed their reports of collections for the past month. The superintendent of the water and light plants was given permission to ride his bicycle on sidewalks to enable him to get to the work around town quicker. Chairman Cobb, of the water and light commission appeared before the board for instruction relative to extending the service to the new territory recently taken in to corporate limits of the town. The matter was referred to the water and light committee in regard to extending the service. The finance committee was instructed to have all accounts of the clerk and re-assessors checked up ready for the closest fiscal year. Accounts for the past month were allowed and orders issued for payment of same. The board adjourned to meet Tuesday night, 18th.

Americans at London Horse Show. Cable to Reflector. London, June 6.—The Londoners say they fear nothing at the horse show from the Americans except the heavy harness and saddle classes, although Vanderbilt's four-in-hands are regarded as dangerous. An interesting feature will be the jumping competitions, in which Continental cavalry officers in uniform will take part. The Italians expect to make the highest honors in this line of exhibition, and have sent some of their champion jumpers. Vanderbilt has entered horses for no fewer than 93 classes, but Walter Winans, who owns half a million dollars worth of horse flesh at Durrenden Park, Kent, is a powerful rival to Vanderbilt. The Winans stables contain blooded horses from all nations, including one hundred show animals.

Special to Reflector. Jamestown, June 7.—This is tidewater day at the exposition, and all Virginia tidewater has turned out to celebrate the event. All the country in what is known as Tidewater Virginia has taken a good share of its population to the show, and the turnout is a grand one. Mayors of seven cities and representatives of all the counties of Tidewater Virginia are present, determined, they say, to make this the biggest day of the whole exposition. Prof. H. B. Smith has quite a nice collection of work done by the pupils of the graded school, that will be sent to the Jamestown exposition. We looked over the collection and were surprised at what the children have accomplished. If we are to judge by the thousands of people who are being daily swindled by the numerous get rich schemes that infest the country, the American people are becoming particularly easy. Almost every large city seems to be a fruitful field for the swindler's operator, and the poor dupes almost tumble over each other in their effort to get something for nothing or fabulous returns for a small outlay, which anyone of average intelligence ought to know was a swindle without being apprised of the fact. Aside from this the press of the country is continually warning the people of the dangerous character of those swindling operations and publishing reports of the thousands who have learned by dear experience of the fraudulent nature of so many concerns in which they have entrusted their all. We would say it serves them right were it not for the fact that the victims in many cases are poor people who can ill afford to lose their daily earnings in this manner.—Mt Olive Tribune.

GREENVILLE WILL GET SCHOOL.

Leads by \$15,000 All the Towns Bidding for Same. The competition for the Eastern training school in Raleigh on Wednesday was short. Greenville led all the others in its offer and it is now conceded that we have won, without a shadow of doubt the school. The Board of Education will soon visit and view the sites and when our magnificence sites are seen the board will be proud that we have the opportunity to so admirably locate this school. It was shown that Greenville is in the center of all the territory to be served by the school and also in the center of all the eight towns competing for the school. Most of these towns now concede that Greenville is the logical place for the location. We have never seen such a concentration of opinion the State over that we have every ideal for the location of this school. Our position is central, our health record and our social conditions are fine, our religious advantages good, and our educational spirit, enthusiasm and progress are all that can be desired. With this institution located here Pitt will soon stand as one of the foremost counties in the State in everything that it takes to make a great county, and our people are to be congratulated upon the efforts they have made for their county and to our friends throughout the entire State.

AN INTERVIEW WITH GOV. JARVIS

About Location of Eastern Training School. The delegation from Pitt which appeared before the State Board of Education returned home Thursday night and a reporter asked Governor Jarvis to give us his impression of the day's work before the board and the probable outcome of it. In response to this inquiry Governor Jarvis said: Eight splendid towns represented by splendid delegations appeared before the State Board of Education. It was a beautiful contest between these towns conducted on a high plain among the delegation there were preachers, teachers, lawyers, doctors, bankers, judges, business men, farmers, and laborers. It is rare that a more splendid set of men ever met in Raleigh in the interest of any cause. There were more men there capable and in every way fit for any position, however high and important. While the different delegations were earnest in the presentation of the claims of their communities, still the rates of feeling prevailed and there was manifest among them all a determination to make the school wherever located a great institution. To have won out in such a contest as this is a great victory and one which every citizen of the county should be proud of. It is true the State Board of Education has made no decision and will not 'till they visit all the competing towns and inspect the sites offered. Yet, knowing as I do the money offers and the sites offered, I feel absolutely certain that when the board has made its inspection of these sites that Pitt county will get the school by the unanimous voice of the board. I speak of the county because I wish to give proper credit to the county for the great work it has done in this matter. Without the help of the county Greenville would have been overwhelmed by the larger and more populous towns. The work and cooperation of the county brought the school to Pitt and I trust our fellow citizens in every section of the county will rejoice with us in this great victory. I desire also to mention the fact that it seemed that all the competing towns desired Greenville to have the school if they could not get it. Not only was this true, but it is also true that it seems that every section of this State has a kind feeling for Pitt and that our work is admired and commended everywhere, and that there will be a general approval of the action of the State board in locating the school in Pitt.

MEETING OF SCHOOL BOARD.

Vacancies Filled—Music to be Added. The board of trustees of the graded school held an important meeting in the superintendent's office Friday night. All the vacancies in the county were filled. The two new teachers are Miss Edith Payne, of Graham, and Miss Betty Wright, of Clinton. Miss Payne will succeed Miss Sweet, and Miss Wright will take the place of Miss Wright in the upper grades. The board decided that it would be useless to make further effort to employ a male principal for the coming year, as practically all the men who would be available in the county were employed. The demand for more men in the schools was never greater than it is today, and certainly they were never fewer. The trustees decided to establish and maintain a department of music in connection with the school. Provision will be made for a suitable room, a piano secured, and the very best teacher employed who can be procured. The rates of tuition will be such as to make the department self-supporting, or practically so, no charges higher than those usually prevailing in Greenville will be made. The board of trustees took this step because they believe it a wise one, and also because a number of people have requested it of them. They hope to have a reasonable patronage by the people. Any one desiring to know more of this feature of the school work would do well to consult Superintendent Smith or Dr. L. Carr, F. C. Harding or D. C. Moore, the music committee.

Special to Reflector. June 7.—This is tidewater day at the exposition, and all Virginia tidewater has turned out to celebrate the event. All the country in what is known as Tidewater Virginia has taken a good share of its population to the show, and the turnout is a grand one. Mayors of seven cities and representatives of all the counties of Tidewater Virginia are present, determined, they say, to make this the biggest day of the whole exposition. Prof. H. B. Smith has quite a nice

burdens. Our neighbor W. R. Horne opens his heart and barn and gives a barrel of corn. R. L. Davis, cash \$1.00. Jason Joyner, cash \$1.00.

We had the pleasure of greeting our old friend J. L. Smith, from Maple Cypress, today in Farmville. He will spend a few days in our midst visiting his son, Glasco, who is with R. L. Davis & Bros., and his daughter, Mrs. Walter Barrett, Dr. Bynum and others.

Walter Sheppard of Trinity college is home among his friends and relatives for a short while. Walter is a good boy, and is taking a wise step, and we hope him much success in his ministerial efforts.

W. Y. Swain, of Rocky Mount, has been in our neighborhood since last Friday, returning this morning. Several of our young people went down to Blue Banks on the old Tar Sunday, just to try their luck fishing, sporting or courting.

At our spring last Sunday we had one hundred and thirty six visitors taking 120 gallons of water away with them, and we could not miss one drop. All seemed to enjoy the cool sparkling water very much and comparisons of the various springs that had visited but the greatest attraction seemed to be the many Indian mounds and other specimens of smaller articles that reminds us of the departed Redman.

Miss Mable Barrett will give a birthday party on Wednesday evening at her home. B. T. Thigpen, of Saratoga, spent Sunday and Sunday night in Farmville, the guest of Mrs. Letha Burnett.

Floyd Bryant came in to visit his sister, Mrs. F. M. Davis, Monday. Mr. Bryant has recently returned from Baltimore where he has been attending the medical college.

Dr. D. S. Morrill left Monday for Morehead City where he will spend several days. A. C. Monk and Miss Vivian Parker spent Sunday in Snow Hill visiting friends.

THE EASTERN REFLECTOR. D. J. WEAVER, Editor and Owner. Truth in Preference to Fiction. ONE DOLLAR PER YEAR. VOL. No. XXV GREENVILLE, PITT COUNTY, NORTH CAROLINA, FRIDAY, JUNE 21, 1907. NO. 22

RAISE OF SALARY. It was announced a few days since that the salary of the postal clerks would be increased on the first of July \$100 and on the first of August \$200. This was the first increase in the postal department since the first of August 1906. The postal clerks are very well paid and their salaries are well known. There are a few instances where the raise will not apply. Carriers that have been receiving \$720 per year will be raised to \$800; those receiving from \$684 to \$702 will get \$684; \$686 class is raised to \$810; \$612 class to \$720, and \$576 class to \$630. It can be seen that the highest salaried men will get the largest increase, the greatest raise being \$180.

Good News From the Department of Rural Free Delivery Carriers. Let the defendant serve six years in a Federal prison, the term beginning today. This was the sentence pronounced by Judge James E. Boyd this afternoon at 4:30 o'clock upon Frank H. Jones, the self-confessed defaulter of the Charlotte National Bank.

It was a hushed scene in the crowded court room when the presiding judge pronounced sentence after expressing much feeling for the widowed mother and the faithful wife of the condemned man. The defendant himself heard the sentence without a tremor, having stood his trying ordeal with all the fortitude that a man can command after fully determining to meet his fate regardless of the consequences.

As soon as the sentence was pronounced the large crowd began to disperse. But a number of people for a long time friends of the man who is now a prisoner remained behind to take him by the hand and express to him their sympathy in his giving way to a temptation over which it was shown in his confession that he had no control.

Several continue to attend church at Parkville from the services have been going on for two months. J. O. Williams and wife went to Parnele Sunday and returned same day.

Rev. W. O. Winfield will preach in the C. B. H. hall next Sunday at 4 p m. J. S. Cherry and family, of Stokes, visited here Saturday.

Miss Fannie Mizell, of Hamilton, was here last week. James Congleton, of Oak Grove, was here last week. E. Rodges and J. E. Hines went to Robersonville last week.

RESOLUTIONS OF RESPECT. Whereas, The Great Spirit in His wisdom has seen fit to remove from our midst our good brother, Joseph Riggs.

Therefore, be it resolved by Shawnee Tribe No. 62, I. O. R. M. in council assembled. 1st. That in the death of Brother Riggs this council has lost a good and faithful member, and his family a kind husband and father.

2nd. That we extend to the family of Brother Riggs our generous and fraternal sympathy due from every Red Man to the widow and children of our deceased brother, and beg to assure them that the Great Spirit, who keeps the happy hunting grounds, will take all things well.

3rd. That a copy of these resolutions be spread upon our records and a copy sent to the family of our deceased brother, and one be sent to the Daily Reflector for publication.

Bank Increases Capital. New York, June 18.—The stockholders of the New York County National bank met today and passed a motion to increase the capital stock from \$300,000 to \$500,000. They also authorized the directors to declare a special dividend of \$3,000,000 out of the surplus to be used in paying for the new stock.

Record of Disaster. The year is not yet half gone, statistics compiled by the Chicago Tribune shows that its record of casualties already exceeds that of 1906. Two hundred and seventy-three persons have been killed and 925 injured in thirty-eight railroad wrecks and 902 lives have been lost in twenty-three steamer wrecks. There have been thirteen men accidents in which 35 persons have perished. Tidal waves have claimed 2,240 victims, and earthquakes, 5,100.

Marriage Licenses. Register of Deeds R. Williams issued licenses to the following couples since last report: J. E. Hopkins and Minnie L. Jones.

Charles Cheek, of Burlington, was found dead Tuesday morning on the banks of the Southern Railway, near the station at Burlington. He was 45 years of age and was a native of North Carolina.

Which Are You? This from an exchange may bring to mind similar cases that have come under your own observation. We recently saw one of our citizens going home with a small basket of fruit. A few evenings later we passed him again and held under \$500 bond to court to answer to the charge of arson, as a result of Mr. Hines' dog, of Greenville, dogs trailing from the rear of Mr. Graham's store, which was burned at Harlowe Saturday night. The dogs were not put on the track until at least 35 hours after and it was feared that the trail was too cold, but they followed from immediately back of the burned store a track made across a field by a running man, and taking this through a tortoise trail, seven miles, to where Harrington was plowing in a field near his home. Mr. Hines was accompanied by the deputy sheriff of Carteret; and Mr. Pratt, of the Dixie Insurance Company, at whose instance the dogs were brought, and Harrington made no resistance when the dogs pointed him out as the man.

A repeating Winchester rifle was found in Harrington's house and this the officer took charge of. He was taken to Beaufort and given a preliminary hearing at which some other evidence was offered besides the dogs' trailing him, and bound over to court in the sum of \$500. Harrington mortgaged property for his bond. It developed at the trial that he was feeling on his part against Mr. Graham, whose store was burned. She witnesses swore that the dogs were one resembling Harrington, crossing the river at the point the dogs trailed to. The tracking lasted three and a half hours; winding through tortuous bypaths twice the distance it was by a direct road from Harrington's to Graham's store.

The fire occurred about 1 o'clock Sunday morning and Mr. Graham, a saw mill man and merchant at Harlowe, lost his store, entire stock and \$50 in cash burned, with only \$1,063 in insurance, making a loss to him of \$2,500, at least. The money was chiefly in silver and this melted and all run in.

The insurance people paid Mr. Hines \$30 and expenses for his dog's work and were highly pleased at the result.—Kinston Free Press.

Seven Bodies Found. Newport News, Va., June 17.—Clad in full naval uniform and with faces and hands fearfully mutilated, the bodies of Midshipmen W. C. Ulrich, of Wisconsin, class 1907; W. H. The bodies, after being identified, were taken by the naval hospital at Portsmouth.

Newport News, Va., June 18.—Today the waters of Hampton Roads gave up the bodies of four more victims of the Minnesota's launch disaster, two dead midshipmen and two bluejackets being picked up within a mile of Fort Wood Riprap, about half a mile of where the launch was sunk. The corpses were those of Midshipmen Walter Carl Ulrich and Herbert Leander Holcomb and Coal Passer Jess.

North Carolina and the Railroads. The North Carolina business men do not simply want to know "why" North Carolina is discriminated against in freight rates, but they want a stop put to it. It is result and not talk they are after. When goods are hauled through the State to a point beyond for less than the rate would have been to stop them in the State, there is good ground for a kick. North Carolina wants her rights. She needs every cent of money for education, for religion and for industrial advancement, and it is but right that our people should seek to get justice for the old North State in the matter of freight rates.
