Truth in Preference to Fiction. ONE DOLLAR PER YEAR. VOL. No. XXV GREENVILLE, PITT COUNTY, NORTH CAROLINA, FRIDAY, JULY 5, 1907. NO.

THE KING WAS HANDED TO HAWTHORNE.

In a discussion of the occult with Julian Hawthorne the following story was told, much to the discomfort of one of the followers of Mme. Blavatsky, who happened to be present: Blavatsky and a party of her adherents were traveling in India and halted one evening at a small village for supper. There they were joined by Julian Hawthorne and Colonel McClure. After supper, asked in the open, Blavatsky served for a "manifestation" and...

Hot Water For Medical Purposes. Hot water has far more medical virtues than many believe. Because it is so easily procured making it so valuable. There is nothing that so promptly cuts short congestion of the lungs, sore throat or rheumatism as hot water applied promptly and thoroughly. Headache yields to frequent application of hot water to the feet and back of the neck. A towel wrung out of hot water and held to the face will generally give relief in neuralgia and toothache. A napkin wrung out and put around the neck of a child suffering from croup will sometimes bring relief in ten minutes. A tumbler of hot water taken in the morning half an hour before breakfast will help cases of stomach trouble. Very hot water will stop dangerous bleeding.—Housekeeper.

Eastern Training School. Greenville, N. C. July 1st. 1907. To the Board of Aldermen of Greenville, N. C. Gentlemen: It is my pleasure to submit to you the following report for the year just ended: That during the fiscal year, ending June 30, I have as mayor held 301 cases. Of this number I took final jurisdiction of 265, and from this number 3 appeals were taken to the superior court, and there were 36 cases bound over to the superior court.

Snow White. Greenville Audience Delighted. If applause counts for anything the audience in Masonic temple open house, Monday night, was delighted with the presentation of the operetta "Snow White" by the young people of Washington. It was bright, catchy and the music was fine.

Mayo-Patrick Nuptials. And Social Functions Preceding. Some time ago the engagement of Miss Bessie Patrick to Mr. Cary Mayo was announced. Ever since then Greenville people have eagerly looked forward to the marriage of this popular young couple.

An Enjoyable Occasion. (Continued.) Shelmerdine is noted for its refined and hospitable people. It has an excellent class of unusually bright children that would be a credit to any town. The Sunday school is thoroughly organized and under the management of Mr. G. H. Cole, an efficient and capable superintendent.

All Over The House. A Little Care Will Prevent Flattening. Many housekeepers are annoyed by their fatirons becoming rusty from dampness in the cupboard. This may be easily prevented. Before putting the irons away after the ironing is finished rub them with a little warm grease on a piece of soft paper, and wrap them in thick brown paper. When they are to be used again dip them into very hot water with a little soda dissolved in it and wipe them dry before putting them over the fire for the ironing have some brown paper on the table with a little powdered bath brick on it, and rub the iron on this. Have a piece of paraffin tied in a muslin bag, rub this lightly over the iron, and wash it on a soft cloth. It takes longer to tell this than the actual work does, but the process makes the iron delightfully smooth and easy to use, and consequently one may get over the clothes more quickly.

A Little Nonsense. How the Colonel Promptly Took a Hint. "Who is that man limping along on crutches, with his head all done up in bandages?" inquired the eastern man of the landlord of the Metropolitan hotel at Red Dog. "He looks as though he had met with a terrible accident."

Preserving Orange Peel. When you have peeled oranges for dessert do not throw the peeling away. Instead cut it into about inch long pieces with seasons and then put it on the stove in cold water and let it come to a boil. Then cook a cup of sugar and a half cup of water until it is the consistency of sirup. Throw in the orange peel and let it boil in the sirup until it is soft. Then put it in a jar with a broom straw. Then dip out piece by piece, roll on a sheet of brown paper, being careful not to let the pieces touch each other.

Cleaning Silk Laces. Laces that are embroidered with silk and colors, and gold and silver should be spread out smoothly on a piece of spotless white calico and be cleaned carefully with a soft brush dipped in spirits of wine. If silk laces are much discolored it should be soaked in hot milk for three hours before being washed.

His Exact Meaning. "Yes," said Popple, "my baby's got hair like I'm pretty sure to have some day."

Chance to Prove Himself. She—I would never marry a man who was a coward. He—About how brave would it be necessary for him to be in order to win your approval? She—Well, he'd have to have courage enough to—propose.—Des Moines Register.

Next Came the Maids of Honor. Miss Bertha Patrick, sister of bride, and Miss Lottie Blow, each wearing white net and carrying a bouquet of bride's rose.

The Bride Entered on the Arm of her father. Mr. B. F. Patrick, the bride's father, led her to the altar by her father, left Greenville for her town Tuesday morning.

The Entire Chancel and Altar were decorated in green and white, potted plants forming a background.

At the appointed hour, preceding the ceremony, Miss Mary Medearis of Winston-Salem and Miss Whittfield, accompanied by her father, left Greenville for her town Tuesday morning.

RESOLUTIONS OF RESPECT. The sad intelligence having reached us of the death of the little son of our brother, L. A. Arnold, therefore we it resolved: 1st. That we, the members of Whiteoaks Tribe No. 35 I. O. R. M. extend our sincere and heartfelt sympathy in their loss. We commend them to the Great Spirit who alone can comfort them in their sorrow.

BUY TICKET ON SOUTHERN. And You Get the Right to See Road for Five Hundred Dollars. The last Legislature made in a penalty of \$500 every time a railroad sold a ticket for more than 2-1-4 cents a mile. Yesterday all the lawabiding railroads obeyed the law and sold tickets at 2-1-4 cents (as per Judge Pritchard) a mile for every mile.

JESSAMINE. (With apologies to Edward Hearne.) By Mrs. W. G. Williams. When comes the summer's glories, And sunlight dapples o'er the wave, With odorous revels with the moon, Sweet Jessamine I crave. From among the beautiful flowers, They pluck the fairest kind, Amid the wood-lark's bowers I seek sweet Jessamine.

Truth in Preference to Fiction

GREENVILLE NORTH CAROLINA FRIDAY, JULY 5, 1907

It looks like Judge Loving is going to come clear.

You will find Greenville, on the map and can mark it as the best town in the East.

One of the newspapers in Peking, China, is five hundred years old. That beats anything over on this side by a good deal.

The number of strangers around looking over Greenville shows that more people are interested in the town besides the home folks.

Charlotte is to embrace Carr's Nation. Second handed, however, as Salisbury got the first pass at her.

It used to be that there was no great amount of campaign talk except in election years but now it goes on from one election to another.

Texas has sent forward the first bale of new crop cotton and brought 40 cents a pound at auction in New York.

The real summer weather was not in long business before reports began coming from some of the cities of people dying from heat.

Hon. Williams Jennings Bryan is to visit North Carolina again. It is announced that he is to speak at the State fair in Raleigh on the 17th.

Potatoes can grow more prolifically than the weather is too wet for digging. It is hoped the price will also rise in the meantime.

The first half of the year has been good for Greenville in the way of progress. Lets all do our best to make the list list.

Judge Loving was acquitted of the murder of young Estes, as was expected, but both he and his daughters are marked with a snake bite can never outgrow.

If the town officials had been compelled to wade through the oceans on Eighth and Ninth street Saturday, they would feel like taking some steps to divert the water and prevent such floodings.

The testimony shows that Judge Loving was considerable of a booze artist, and the pity of it is his daughter seems to have inherited a taste for it.

The American Tobacco Company listed for taxation in Durham over \$2,000,000 worth of tobacco stored in that city. No wonder Durham is glad to have the A. T. Co. around.

The 21 cent railroad fares intended to go in effect July 1st are held up, Judge Pritchard having granted the injunction to prevent the law becoming operative. In this instance the Federal court is bigger than the State, but it is lifting up future trouble for the railroad.

WHY SUCH CONFUSION?

The last legislature passed a law providing for the establishment of the "Eastern Carolina Teachers Training School," and placed the selection for the location of such school in the hands of the State Board of Education. It was known that several eastern towns wanted the school, and some time after the legislature adjourned the board sent out notices that sealed bids for the location would be received at Raleigh on the 5th day of June. With this notice was sent the rules governing the bids. Eight towns had representative present on the date designated and bids from these were deposited with the board in accordance with the regulations stipulated by that body.

It was also designated by the board that it would after receiving the bids go in a body and personally inspect the sites offered by the towns before making a decision as to where the school should be located. The bids were filed, the tour of inspection made, and the board met in Raleigh on the 26th to make up a decision. The following resolution adopted at the meeting is all that was done:

"That the selection of the site of the East Carolina Teachers Training School, as provided in Act No. 10 of the Session of 1906, be referred to a committee of five members of the Board of Education, to be appointed by the Board, to visit the sites offered by the towns, and to report to the Board on or before the 10th day of July, 1907, as to the merits of the bids, and to recommend to the Board the site which it deems most desirable for the location of the school."

As said before, Greenville and Pitt county are in no way responsible for the misunderstanding of the Board of Education, and it is not our business to enter the contest determined to win on merit only, and as has already been asserted in this paper, if we cannot get the training school because we merit it we do not want it.

Confessman E. W. Pou, of the Raleigh district, declares, that he is not ready to pull out and take the race. Because of his condition of his health it was hinted that he would not stand for nomination again, and forthwith candidates began to announce themselves as willing to take the honor. Mr. Pou's statement may put some of them out of the race.

At this writing we have not learned the reason of the State Board of Education postponing the location of the Eastern training school, but take it for granted that it had a good one. At the same time we believe every town interested will be glad when the decision comes to a close.

The contest of the railroads against the 21 passenger fare law passed by the last legislature is being heard before U. S. Judge J. C. Pritchard in Asheville. The outcome of the case is watched with interest as the result will show to what extent the States have power to regulate railroad rates. Every detail of the case is being followed.

forth clearly, legally, and in strict compliance with the rules laid down by the board.

This bid was deposited with the State Board of Education and will remain in their hands. It is so clear that it cannot be misunderstood in the slightest detail. Not a sentence in it bears the least confusion. Not a vestige of ambiguity can be found in a word of it. Should the board so desire it can publish this bid, and we venture the assertion that no person who reads it will fail to understand every syllable it contains.

The bid was made in good faith, and since it was made Greenville and Pitt county have made no effort by word or act to influence the members of the board in their decision. Our people have rested upon the merits of their bid, determined to await patiently the verdict of the board, and this will be their course to the end of the matter.

When the board visited Greenville on the tour of inspection, in deference to the wishes previously expressed there was no demonstration, no banqueting, no public reception, nothing whatever that could be construed as intended in any way to influence the members, nor was a word spoken in disparagement of any other competing town. Yet every courtesy was shown the members of the board as they were quietly and without ostentation taken in carriages by a committee of citizens to view the different sites offered here. Had a demonstration been desired here, Pitt county could have easily turned out thousands of the best people on the face of the earth to meet the distinguished guests, and who would have done full credit to such an occasion.

As said before, Greenville and Pitt county are in no way responsible for the misunderstanding of the Board of Education, and it is not our business to enter the contest determined to win on merit only, and as has already been asserted in this paper, if we cannot get the training school because we merit it we do not want it.

It will doubtless interest hundreds of our farmer readers to know that Prof. W. F. Massey, so long and so successfully identified with the Practical Farmer, has severed his connection with that paper, and will hereafter write regularly for The Progressive Farmer, of Raleigh, N. C. Certainly no man in Southern agricultural work has won a greater following than Prof. Massey, and as his life work has been in the South, he will hereafter contribute only to Southern farm papers. His letters will appear in The Progressive Farmer each week.

President Roosevelt is reported as saying to John Temple Graves, that if he was assured that he could carry the electoral vote of a single Southern State he would consent to run for the presidency again, notwithstanding his declaration that under no circumstances would he again be a candidate. This shows that there are men who so hate to see the South solid that they will even go back on their own words to break it, and the president is one of them.

According to a recent report of the government pension commissioner, the pension list has actually begun decreasing. In January, 1905, the maximum was reached when the list contained more than a million names. A few thousand have dropped off since then. Considering that it is forty two years since the war closed, the pension list is an outrageously large one and contains thousands of names not entitled or worthy to be on it.

The State Board of Education called for sealed bids for the Eastern training school, and sealed bids were presented on the 5th. After these bids had been in their hands fifteen days the board went on a tour of inspection of the sites offered. Returning from their tour of inspection, twenty two days after the bids were in hand, the board announced that there is so much variance and ambiguity about the bids that they are misunderstood. What it is about the bids that confuses the gentlemen of the board we are not prepared to say, but we can say with absolute certainty that there is not one iota of the Greenville and Pitt county bid that can not be readily understood. Just read that bid again, gentlemen, and you can clear up the muddy waters.

"OUGHT TO HAVE IT."

In a statement printed in the Wilson Times, and perhaps elsewhere, Senator Fleming, of Greenville, makes use of the following language: "Nine out of every ten reading and thinking people of the State, both in and out of the territory to be served, feel that Greenville ought to have it, (the training school)."

The senator evidently means nine out of every ten reading and thinking people who read and think as he does. But as has been shown on various occasions there are people who take other lines of thought than those indulged in by the senator. We wish it distinctly understood that we have only a very kind feeling for Greenville in this contest. Greenville has shown herself to be wide awake as to her interests in this matter. She has striven for the prize with commendable zeal and has shown herself to be a "foeman worthy the steel" of any community. But we do wish to protest against the idea as expressed above that people outside the interested community believe that any special favor "should have it." Greenville "deserves it" no more than does Washington, Rocky Mount or Kinston or any of the other contestants.

"Deserves it," or "ought to have it!" How come?—Kinston Press. The editor of the Winston-Salem Press undertakes to go for Senator Fleming and Greenville in its issue of June 29th on account of the interview of Senator Fleming recently published in the News and Observer and copied in the Wilson Times, especially the following part of it, "Nine out of every ten reading and thinking people of the State, both in and out of the territory to be served, feel that Greenville ought to have the Training School."

The Free Press says in commenting on the above: "The Senator evidently means 'nine out of every ten reading and thinking people,' who read and think as he does. But as has been shown on various occasions there are people who take other lines of thought than those indulged in by the senator."

Senator Fleming is different from the editor of the Free Press at least in one particular question the senator does not think one way today and another tomorrow. Senator Fleming went to the senate an advocate of the Training school and he is still advocating it.

If the editor of the Free Press will refer to his editorials of last January he will find that he was a hard hitter and a strong fighter against the establishment of the Training school, saying there was no necessity for it and that the way to improve the public schools, was to pay the money direct to them. Now the Editor of the Free Press thinks Kinston deserves the school and he thinks so, as he says editorially in his issue of April 8th, because it would be a big saving to Kinston's treasury in providing high school at the expense of the State and to the relief of Kinston's taxpayers. "Here, then, would be an actual saving for an indefinite number of years to the city treasury. This would be in addition to the further saving resulting in the city's being relieved from the necessity of erecting a high school building and maintaining a separate high school, says the Free Press. How different a purpose have Greenville's advocates of the school and how much more splendid and useful an institution does she hope to make at the expense of the State, liberally aided by the treasury of Greenville and Pitt county!!

The department of agriculture has given out the information that there is not much danger of eating ripe fruit is it done with adequate mastication. Somebody connected with the department must be interested in the sale of paregoric. At any rate if you don't want the colic you had better eschew the green apple.

The Sun is the name of a new morning paper published at New Bern which made its first appearance Sunday morning. It is eight pages in size and makes a creditable appearance. The Sun is published by a stock company with Mr. R. M. Phillips as editor

also that Greenville's bid was higher than any other made. Then with a bid that was clear and unmistakable on every point, and one recognized to be higher than any other, the board certainly had light enough before them to know what to do. Daintily use of all styles at B. F. Manning & Co. Highest prices paid for them. Keep cool these hot days. Get your umbrellas at B. F. Manning & Co. Ladies' belts and umbrellas for summer use at B. F. Manning & Co. The famous Hawks glasses at B. T. Cox & Bro. Don't neglect your eyes.

Greenville does not appreciate the friendly feeling expressed by the Free Press, coupled with the assertion that, "Greenville has shown herself wide awake to her own interest in this matter." Greenville has striven hard for the establishment of a school that means something to all Eastern North Carolina as well as to the town of Greenville and the county of Pitt.

Senator Fleming in his interviews very correctly pictured the situation, and if the institution is to answer the need intended to be met by its advocates for Greenville and the legislature that granted it, the school would certainly be located among people who have a higher and nobler idea of its benefits than that expressed by the Free Press.

The State Board of Education sealed bids in hand by which to reach a decision as to the location of the Eastern training school. If the gentlemen allowed themselves to be confused, when on their tour of inspection, by outside statements not included in the sealed bids, they departed from their legal duty in giving such outside statements consideration. Greenville and Pitt county made a clear, straightforward, sealed bid, one that any man can readily understand, and from here have emanated no outside statements that could in the least confuse the impartial.

There should be no child's play over the training school matter. The Board of Education advertised for sealed bids and got sealed bids. If the members of the board afterward turned their ears to outside propositions not embraced in the bids and thereby allowed themselves to become confused, the fault is in themselves and not in the bids. Greenville and Pitt county on the 5th of June made a plain, practical bid, and since that time nothing whatever has been added to or taken from it. Nor has anything been said or done in the effort to unduly influence the board in arriving at a decision. The part about it the people cannot understand is why the whole matter should be reopened again.

Somebody connected with the department must be interested in the sale of paregoric. At any rate if you don't want the colic you had better eschew the green apple.

The Savory Seemless Roaster.

Is far superior to any other Roaster made, not an ounce of substance lost. Other roasters waste from 10 to 20 per cent. The Savory Seemless Roaster needs no water, grease or attention of any kind. It simply asks to be let alone. Retains all juices and flavors, renews the youth of the toughest fowl. One great feature of the Savory roaster is the oval bottom, with the ordinary flat bottom roaster the moisture brought out of the meat by cooking has no chance to accumulate and is burned and dried up in the bottom of the pan. In the oval bottom this meat juice flows continuously to the lowest point of the bottom, where it is turned into steam and condensed on the surface of the meat. This condensation continues until the roast has become heated through to the temperature of the atmosphere in the roaster, when the condensation stops and the browning of the roaster begins. The Savory roaster is self basting and self browning. The bottom is raised off the oven by the outside heat-retaining jacket, which applies a uniform heat to the roast from all sides. The Savory roaster is in a class to itself. It is guaranteed to give satisfaction when used according to directions. Buy one, take it home, go by the directions, use it thirty days, if not all we claim for, return it to us and we will give you back your money, providing the roaster when returned, is in good condition. See our window display of the Savory roasters. We will be glad to show you. Call and see them.

Farmville, N. C. July 2. Crops are whooping up and our farmers are beginning to smile.

The Primitive Baptists held their annual meeting on Sunday at Tyson's church with a large crowd. Rev. P. D. Gold, of Wilson, and Mr. Yelveton preached Sunday.

Mrs. Mary R. Thigpen, wife of W. J. Thigpen, of Hassel, Martin county, died Saturday, June 22nd. She had been sick two weeks with typhoid fever. She was buried in the family burial grounds near Farmville. Elder Forbes conducted the services. Mrs. Thigpen was sister of Dr. C. C. O. L. and Benjamin Joyner.

She leaves six children, oldest 9 years of age, youngest 8 months, husband one sister with a host of friends to mourn her death. Our heart goes out in sympathy with the bereaved ones.

There has been some excitement in our neighborhood a few days over a mad dog making his appearance last Saturday evening fighting and biting nearly all the dogs around. W. R. Horne killed one that he fought on his farm. One at Mrs. Mollie Tyson's was killed, two at W. H. Wilkerson's. It was thought the mad dog came from Greenville and left on the Wilson road, but we hope some one has been lucky enough to get a shot at him. What is the law about killing dogs that have been bitten by mad dogs?

Last Tuesday 25th, I found myself enroute to the picnic at Green Spring. Arriving there about eleven o'clock I found the grounds well strewn with the crowd of good looking social and jovial crowd of friends and also some strangers. Best of all every one seemed in fine spirits, and a gala day was in view for all.

The spring water was in great demand, the weather being warm and the water extra fine and refreshing. A generous supply was constantly on the ground supplied by Mr. Watt Parker, manager of the picnic and also the spring. In his usual gracious manner he welcomed, waited on and talked to every one, and made every one glad they had visited his picnic and tasted his life saving mineral water. I think this one day has won for him a lasting remembrance by all present. There was many other enjoyable features of the day. Among them were the music rendered by the Farmville string band which was appreciated by old and young, but those who tripped the light fantastic toe enjoyed it best. About 1 p. m. lunch was served and every one seemed to think the mineral water or something had quite an appetizing effect. The different groups of friends all over the grounds seemed to enjoy eating and chatting, and being gathered together on the delightful occasion. After a needed rest the music reminded the crowd that the musicians were feeling better prepared for their duties and dancing again began on the pavilion, and every one there seemed interested and enjoyed the hours as they slipped by so swiftly. About 2:30 o'clock Senator Willis R. Williams was announced to make a brief speech and I feel that all present felt honored by having such a staunch, deep, well read man to entertain them. His speech was based upon facts of personal experiences associated with the spring and surroundings and friends who had passed away. Oh! I just thought how glad that I had come, to hear these brief sketches by one so true, tried and trusted. Hope he may live to make many more just such. After the speech a base ball game between Castoria and Green Spring after the decided favor of old Green Springs, and of course most all present were glad to raise three cheers for our boys, but we equally sympathized with the others. Come over again boys and try to get over after the game of ball and gathered around the pavilion to enjoy the dancing, &c. until the sun began to remind us we were a little distance from home and that we had only a short time to bid our friends adieu, and express our hearty thanks to all who had been so royal in making this day just the day that it was, and to be remembered forever.

TOWN MATTERS

The Aldermen Levy License Taxes. The board of aldermen met in adjourned session Monday night six of the members being present. License taxes were levied as follows, in most instances remaining the same as last year: Pool and billiard tables \$20. Over house \$30. Draying materials and materials showing outside of license hall, \$15 per day. Public auctioneers \$10. Butchers and fresh meat dealers \$10. Wood and coal dealers \$10. Undertakers \$1.50 per day \$10. Photographers \$5 per year. Itinerant photographers \$10 per month. Junk dealers \$5 per month. Livery stables \$25. Hotels charging \$2 per day \$15, charging \$1.50 per day \$10, charging \$1 per day \$7.50, private boarding houses \$5. This not to apply to houses not taking more than two boarders. Dealers in pistols, etc., \$5 per year. Restaurants \$5. Exhibitions of wax works, &c. \$10 per day. Merry-go-round or stand for any game \$10 per day. Drays, one horse \$10, two horses \$20, three or more horses \$25. Dogs, males \$1, females \$2. Vendors of medicines or other articles selling on foot, stand or vehicle or horse rented temporarily \$10 per day. Dealers in second hand clothing \$50 per day. Circus, one rin \$50, per day, two or more rings \$75, each side show \$20. Oil storage tank exceeding 500 a lions capacity \$100. Hinerant oculist or optician \$25. Street vendors of lemonade, etc. \$5. Gypsies, palmist, fortune tellers etc. \$50, per day. Feather renovators \$10. Bill poster \$5. All license are for one year except where otherwise stated. Several applications for license for pool tables and restaurants were granted. Two applications for pool table license in second story of buildings were denied.

THE SEWERAGE SYSTEM. The board held a meeting Monday afternoon, six of the members present, in regard to the acceptance of the sewerage system. The committee appointed to inspect the system reported that they found it in good condition and it was accepted. An order was drawn for the Burt Kason Construction Co. to complete payment for construction. This company also presented an extra bill for \$1,401.80, which they had charged against the town for lost time arising from delay in getting material. As the town was not responsible for this, bill was not allowed but referred to a committee. Payment was also made with Mr. Ludlow in settlement of his services. Mr. Ludlow's bill contained an extra charge of \$720, being 8 per cent on the \$9,000 the sewerage system cost over the original estimate of \$15,000. There was some discussion over the matter but the bill was allowed. Aldermen Carr, Wood ward, Bowen, Moore and Forbes voting for it and Alderman Flanagan voting against it.

Sewerage Accy. Engineer J. L. Ludlow, who was the representative of the town in the matter of the system of sewerage that was recently completed, spent Monday here going over the system and the final account between the aldermen and the contractors. The system was turned over to the town by the contractors and accepted. Engineer Ludlow says Greenville has an excellent system of modern sewerage.

Everybody wants a fan. A fan is a necessity in every household.

Two Boats Collide. Washington, N. C., July 8.—The gas boat Victor and the Altiro had a collision about 6 o'clock yesterday afternoon while on Pamlico river near this city. The Victor is owned by Mr. R. H. Lane, of Aurora, and had brought an excursion of colored people to this city. There were about 40 people on board when the accident occurred. The Altiro, which runs between this city and Greenville, caused the collision by running into the Victor. The Victor had one side smashed in, but was run around before she could sink. The Altiro was apparently uninjured and proceeded on her way.

Kissed Her Dog. A Solomon came to judgement in St. Louis the other day in the person of a police captain, who determined the proper ownership of a dog disputed by two women by saying: "The lady that kisses the dog can have it." The real owner was on the spot with the goods.

Warehouse Enlarging. Work has commenced enlarging the Star warehouse for the Farmers Consolidated Tobacco Co. The house will be made 60 feet wider and when completed will hold 100,000 lbs. of tobacco.

Kissing the Girls. Senator Vance once stamped North Carolina in John Johnston's Anzette, the Republican candidate for the governorship. All the white Democrats turned out to hear Vance, and the colored Republicans to hear Settle. At the conclusion of the speaking one day, Vance was told that a number of young women had expressed a desire to kiss the Democratic candidate. He adopted down from the dais and kissed a dozen or so of the pretty young women, when he stopped long enough to turn around to his competitor and shout, "I'm kissing my girls, Settle; now you kiss yours."

Death of Mr. T. H. Fleming. Quinerly, N. C., July 8th, 1907. There is a spirit of gloom recently cast over our community by the death of one of our best men. On Friday evening, July 15th, the spirit of Mr. T. Heber Fleming took its flight after an illness of nearly four weeks. He died at his home in Quinerly, N. C. Mr. Fleming was especially sad as he and his little girl were both taken down about the same time with typhoid fever, and both have been nursed most of the time in the same room, until Mr. Fleming became so very low, then the little girl was removed to another room. It was several days before she was able to walk but she died, and it is a sad fact that she was a nurse and we had all hoped the nurse would be victorious, but fate it seems had decreed otherwise and at exactly 9 o'clock his life passed out as gently as the falling leaf of autumn tide.

Wreck on Seaboard. Sunday afternoon two Pullman cars on the Seaboard train turned over near Kittrell, and Mrs. C. E. Harris, of Alabama, was crushed to death. Col. Harry Skinner, of Greenville, was a passenger on the train, going to Raleigh, but had gone in one of the forward cars before the accident occurred. Several people were hurt in the two cars that turned over.

Mr. J. J. Tucker Dead. On Tuesday morning Mr. J. J. Tucker died at his home in Chicod township. In poor health, Mr. Tucker was about 70 years of age and a most excellent citizen. He is survived by several children all of whom are grown.

SUNBEAMS SOCIETY.

Young People Organize for Work. On Sunday afternoon the young people and children of Memorial Baptist church and Sunday school organized a Sunbeams Missionary Society. There was a large attendance and the first meeting was very encouraging. The following officers were elected: President—Miss Lillian Burch. Vice-President—Miss Pattie Wooten. Recording Secretary—Miss Annie Leonard Tyson. Corresponding Secretary—Milton Pugh. Treasurer—Miss Mattie Lawrence. Pianist—Miss Hennie Ragsdale.

The following committees were also appointed: Membership—David Whichard, Alexander Harper, Misses Mary Lucy Depee and Myrtle Warren. Absentees—Misses Jessie Brinkley Inez Pittman, Ethel Bowling and Maggie Norman. Music—Misses Ruebelle Forbes, Hennie Ragsdale and Helen Pugh.

The society will meet the first and third Sunday afternoon in each month.

Death of Mr. T. H. Fleming. Quinerly, N. C., July 8th, 1907. There is a spirit of gloom recently cast over our community by the death of one of our best men. On Friday evening, July 15th, the spirit of Mr. T. Heber Fleming took its flight after an illness of nearly four weeks. He died at his home in Quinerly, N. C. Mr. Fleming was especially sad as he and his little girl were both taken down about the same time with typhoid fever, and both have been nursed most of the time in the same room, until Mr. Fleming became so very low, then the little girl was removed to another room. It was several days before she was able to walk but she died, and it is a sad fact that she was a nurse and we had all hoped the nurse would be victorious, but fate it seems had decreed otherwise and at exactly 9 o'clock his life passed out as gently as the falling leaf of autumn tide.

DISCOURAGING OUTLOOK.

Excessive Rain Has Caused Much Damage. Mr. R. W. King, chairman of the board of county commissioners, spent a portion of last week at his farm over the line in Craven county. While away he passed through much of the south-eastern portion of the county, and says that in the twenty five years he has been going over the county he had never observed poorer crop prospects. He says that beginning about 5 miles southeast of Greenville and on to Maple Cross, there is a section of the county where the rains have been so excessive that it does not look like more than 40 per cent of a cotton crop will be made. The corn crop has also suffered greatly.
