The Savory Seamless Roaster,

Is far superior to any other Roaster made, not an ounce of substance lost. Other roasters waste from 10 to 20 per cent. The Savory seamless roaster needs no water, grease or atten-tion of any kind. It simply asks to be let alone. Retains all juices and flavors, renews the youth of the toughest fowl. One great feature of the Savory roaster is the oval bottom, with the ordi-nary flat bottom roaster the moisture brought out of the meat by cooking has no chance to accumulate and is burned and dried up in the bottom of the pan. In the oval 1 ottom this meat juice flows continuously to the lowest point of the bottom, where it is turned into steam and condensed on the surface of the meat. This condensation continues until the roast has become heated through to the temperature of the atmosphere in the roaster, when the condensation stops and the brown ing of the roast begins.

The Savory roaster is self bast ing and self browning. The pottom is raised off the oven the outside heat-retaining iacket, which applies a uniform heat to the reast from all sides

The Savory roaster i sin a class to itself. Is guaranteed to give satisfaction when used according to directions. Buy one, take it home, go by the directions, use it thirty days, if not all we claim forth, return it to us and we will give you back your money, providing the roaster when returned. is in good condition. ### Deafness Cannot be Cured

Deafness Cannot be Cured by local applications, 'asi they 'cannot reach the diseased port on of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed con-dition of the mucous lining of the Eas-tachian Tube. When this tube is in-flamed you have a rumbling sound or imperfect hearing, and when it is en-tirely closed. Deafness is the result, and unless the inflammation can be ta-ken out and this tube restored to its stroyed forever; nine cases out of ten are caused by Cataurh, which is nothing but an inflamed condition of the mucous surfaces
