GREENVILLE, PITT COUNTY, NORTH CAROLINA, FRIDAY, NOVEMBER 1

STATE NEWS.

Ransom Godwin, a farmer of Johnston county, who in August brutally shot and killed his wife, and since that time escaped arrest by hiding in the woods, committed suicide Tuesday by shooting himself through the heart.

A report from Seven Springs says that in a recent case of diphtheria in the community there was not only no attempt at quarantine, but school matters were allowed by parents of the afflicted child, to visit the child afterwards attending school. When the facts became known, the school was suspended to await developments.—Kinston Free Press.

Two buildings of the New Bern Cotton Oil and Fertilizer factory were destroyed by fire Thursday morning, causing a loss of \$20,000. The same mills were burned last year.

Being left alone a few minutes by his mother, the little child of Ed. Lyon, of Durham, crawled to the open fire place, began playing in the fire and was soon enveloped in flames. The child was so badly burned that death resulted.

Mr. W. T. Dixon, of Hookerton, died at 8 o'clock last night in the eighty first year of his age. Several weeks ago Mr. Dixon underwent an operation, which was partially successful, but complications set in which, with his extreme old age, resulted in his death last night. Mr. Dixon was an active member of the Methodist church, having been a steward in the church for many years. He was also a Mason in good standing. He was a strong character, and he was the kind of a man to draw friends to him. He is survived by four children. Mr. D. V. Dixon, of Kinston, Mr. W. O. Dixon, of Hookerton, Mr. D. H. Dixon, of Goldsboro, and Mrs. Addie L. Grimsley, of Ormondville. The remains were interred at the old Dixon burying ground near Hookerton. Rev. R. F. Taylor, pastor of the Methodist church, conducted the burial services.—Kinston Free Press.

PUTS CRIME AT RAILROAD'S DOOR.

Leonard's Tale of the Rude Disaster.

Greensboro, N. C., Oct. 24.—It is reported here that H. C. Leonard, the brakeman who was tending the switch at Rude last Thursday night, when thirty-four rushed in on the freight standing on the siding, causing the death and injury to so many passengers, is at his home in Spencer. He is reported to have stated that he worked for the fear of being caught and had nothing to eat the whole time. Explaining the accident Leonard says that he had been on duty over twenty-three hours without sleep; that the switch was closed as soon as the freight pulled on the siding and he sat down waiting for No. 34 to pass; he dropped off to sleep and as No. 34 approached he awoke with a start, and, having the switch on his mind, he frantically pulled it open without realizing what he was doing. This corroborates completely the statement made by Engineer Holton, who was running No. 34. The morning after the accident, while he was perfectly rational, Engineer Holton stated to his physicians in the hospital, that as he approached the siding the white light was burning showing a clear track and closed switch, but just as his train reached the siding, and too late to even apply brakes, the red light showed up and he rushed to destruction. Engineer Holton adhered to this statement until he died so unexpectedly Friday night.—Raleigh News & Observer.

Too Much Rope.

A dog is not a subject of larceny unless it is listed for taxation any more than a deer or rabbit or the wild animal in the forest. J. H. Vick of No. 3, had a dog that he prized, but not enough to pay tax on it. Will State because it broke both the tenth and eighth commandments. This led Mr. Vick to apply to Squire Pender for a warrant. His worship awarded for the law of larceny made further inquiries and elicited the fact that the dog was tied in the yard by a rope and that the rope was taken also. So he made Mr. Vick happy by issuing a warrant charging the man with stealing the rope.—Tarboro Southerner.

Put in its Place.

(Selected.)

One of the most useful habits in the home is to put everything in its place. And it is as useful on the farm as in the home. Every year thousands of dollars worth of machinery is scattered over the farm, and it is wearing out much faster than if it were at use. This is beneficial to the manufacturer whose sale bills are increased thereby, but it is hard on the farmer who is trying to get ahead.

But when we commence this article we had in mind the keeping of things in their place in the home. Children especially are so prone to be careless in this regard. If children would thoughtfully keep their things, or whatever they use or handle, in their proper places, many a weary step of a tired mother would be saved. Children are now in school, and then is when they are particularly careless about their things at home. They seem to think that while they are occupied with their own affairs everybody else must look after their conveniences, and books, hats, wraps, etc., are thrown around promiscuously.

Then comes the vexatious hunting, for things when it is time to go to school, the worry and delay, the leaving home in excitement and turmoil. We are but telling what happens every day, not in all the homes, but in many of them all over the country.

Learn the little lesson of putting everything in its proper place. It will be worth more through life as an acquired habit than a y lesson you will learn at school.

The Companion as a Christmas Gift.

Nobody is too young, nobody too old, to enjoy reading The Youth's Companion. For that reason it makes one of the most appropriate of Christmas gifts—one of the few whose actual worth far outweighs the cost. Welcome to the paper may be to the casual reader on the train, at the office, in the public library, it is, after all, the paper of the home. The regularity and frequency of its visits, the cordial sincerity of its tone, make for it soon the place of a familiar friend in the house. Like a good friend, too, it stands always for those traits and qualities which are typical in the ideal home, and are the securities of a nation's health and true prosperity. Is there another Christmas present costing so little that equals it? On receipt of \$1.75, the yearly subscription price, the publishers send to the new subscriber all the remaining issues of The Companion for 1907 and the Four Leaf Hanging calendar for 1908 in full color.

Full illustrated announcement of the new volume for 1908 will be sent with sample copies of the paper to any address free.

Several weeks ago Mr. Dixon underwent an operation, which was partially successful, but complications set in which, with his extreme old age, resulted in his death last night. Mr. Dixon was an active member of the Methodist church, having been a steward in the church for many years. He was also a Mason in good standing. He was a strong character, and he was the kind of a man to draw friends to him. He is survived by four children. Mr. D. V. Dixon, of Kinston, Mr. W. O. Dixon, of Hookerton, Mr. D. H. Dixon, of Goldsboro, and Mrs. Addie L. Grimsley, of Ormondville. The remains were interred at the old Dixon burying ground near Hookerton. Rev. R. F. Taylor, pastor of the Methodist church, conducted the burial services.—Kinston Free Press.

EASTERN REFLECTOR

PUBLISHED EVERY FRIDAY
D. J. WHICHARD, Editor and Proprietor

Birth in Reference to Fiction
GREENVILLE, NORTH CAROLINA, FRIDAY, NOV. 1, 1907

If you see any stray billions kindly report the fact to St. Louis.

The tobacco trust will be very careful not how it ships cigarettes.

It is quite so warm for the Wall street crowd that they hold midnight meetings to talk over the parlor.

When looking for a good investment Greenville is the place. This town is going to astonish even the natives in the next few years.

Beginning next Monday the public will get another installment of the railroad rate matter, as the hearing is to be resumed at that time.

The worst thing about the New York panic is that it scared so much money into hiding.

If that rate case controversy is compromised, it will suit the people of the State all the better.

Stocks in New York closing in one day, as was the case on Friday, looks like slinky times in Gotham's financial circles.

Greenville is drawing herself together ready to make a jump forward. Keep your eye open.

The weather gave Charlotte a good week and the Mecklenburg fair was something great.

The way cotton has gone down looks like the bears are making a stiff fight against the farmers. The farmers are not going to win by rushing their cotton to market on the low prices.

My! The Charlotte Observer denounces all who lay claim to the detective ability of blood hounds as nature fakirs of the weakest sort.

Blackburn had already lost his mouth, and now that his newspaper mouth piece has suspended maybe he will not be heard from any more.

Champ Clark says it is coming, at least by 1912, and we had just as well get ready to run a Southern man for president. It would not surprise us if there is not enough stir up in the country by that time for us to elect a Southern man, too. Republicanism and sectionalism are both losing their grip and pensions and pie are about all that keep them hanging on now.

Wilmington has decided that municipal ownership is best, and has purchased the water works system in that city heretofore owned by a private corporation.

Cotton has got to do much moving up to get to fifteen cents, but longer bridges than the difference between that figure and the present price have been covered. The farmers will win out this time if they be firm.

When you are working against time, did you ever notice how much faster the hands on the clock seem to go as they approach midnight?

These fellows who had the money to put up to relieve the pressure on Wall street did a good turn with it. Some others might have done likewise, but they just didn't have it.

J. P. Morgan and J. D. Rockefeller both came in handy with their "piles" during the New York panic. No questions asked about tainted money then. It helped out as good as any other.

Raleigh never fails to make people stand and deliver whenever there is a chance at them. This custom has lost that city the State conventions, and is likely to make it lose other things.

Snow is reported up in the mountains. That is getting down to winter business early.

It gives the "morally stunted" much comfort when a preacher says prohibition is a failure, as a visiting bishop said in Raleigh Sunday.

Wall street is doing business at the same stand, with money a plenty to meet the demands in sight. This country is a hard one to shake.

President Roosevelt has signified his intention of issuing a proclamation on Nov. 16th, admitting Oklahoma to statehood. Then there will be another star in the flag.

While farmers are holding their cotton, as is best for them to do, they should bear in mind that it makes it hard on the merchants and others whom they may owe. To help conditions along under such circumstances every one should endeavor to pay as much as possible on what he owes.

The weather man was certainly good to the fair, and the crowds were equally good to the pick pockets.

Recent developments show that the Wells-Whitehead Tobacco Company, of Wilson, makers of the "Carolina Bright" cigarettes, has been owned by the American Tobacco Company since 1903, the public in the meantime thinking it was an independent concern.

The British embassy has been charged to make inquiry into the action of this government in seizing that shipment of cigarettes the American Tobacco was making to the British American Tobacco Company. Now watch and see if John Bull and Uncle Sam have any squabble over the cigarettes.

President Roosevelt says he is going to take his next bear hunt in North Carolina. If he will come down to Pitt county and fall in with some of our famous Chicod hunters he will have some fun right. Mr. Calvin Mills could show him a thing or two when it comes to killing bears.

Three pressing needs of Greenville—more houses, better streets and some factories.

Whoop up the building and loan association and build more houses in Greenville.

We hear something good in the air for Greenville, and have been promised particulars for publication in a few days.

Every day the New Bern Sun starts off its editorial column with a suggestion as to what this country needs. The last item was aukraut.

Miller Phillips, of the New Bern Sun, might include in his pocket that can't be picked among his suggestions of what the country needs.

The kind of financial upheaval the country needs is one that shakes the money loose and lets it stir among the people.

A Greenville man says he saw a bright light in the sky the other night, and that the light went out all of a sudden and left a big hole up there. Wonder what the brand was.

Charlotte profited well by the presence of pick pockets at the fair, even if it did come out of the pockets of visitors. Over \$800 was forfeited to the city by the slick fingered gentry who were arrested, put up cash bonds and skipped. Pity but what the money could be distributed pro rata among the victims.

The Southern has a job before it almost as hard to solve as the rate question. It has issued an order that no more cigarette smokers will be employed; that if a man is known to smoke them even when off duty he will be discharged. It is a wise move, both for the road and for the men. Cigarettes do not kill a grown man as quick as liquor and may not make him such a fool, but in time it will ruin him; in a short time his mind will become impaired, unfitting him for anything. Still they will kick. Most of the roads have an iron clad rule that a man shall not drink while on duty. He may abide by it and still be unfit for work, for should he tank up one night and have to go out next morning on his run he would be in a worse fix than if he had a few drinks. What is needed is a rule prohibiting drinking at any time. This would not seriously interfere with the prohibitionist who keeps a jug at home and takes a little for his stomach's sake only.—Greensboro Record

Good Preceptor for New Series.

Mr. N. G. White, secretary and treasurer of the Home Building and Loan Association, tells me that he has already more than 1000 shares of stock in the association. He says that the association is doing very well and that the shares spoken for are by persons who contemplate building houses to rent through the aid of the association. This is a move in the right direction. Greenville needs more houses and an easy way to build them is through the association. Rent money will almost meet the payments to the association and leave the owner the house as a practically clear investment in little over six years.

COMMITTS SUICIDE.

Mrs. Ann Reddick jumps in Well.

Parties here from Bethel township today tell us of a sad suicide that occurred early this morning about 2 miles from Bethel. About sunrise Mrs. Ann Reddick, wife of Mr. J. A. Reddick, jumped in a well and killed herself. She was missed in a short while and the family searched for her and she was dead when found in the well.

About three weeks ago Mrs. Reddick took laudanum with the intention of killing herself, but her life was saved then. For some weeks it had been noticed that her mind was impaired, as she acted strangely. The leaves a husband and four children, all the latter being grown.

By the President: "El ha Root, Secretary of State."

Proclamation is issued. Observation of the 23rd day of Washington, Oct. 23.—President Roosevelt today issued his Thanksgiving Proclamation, through the Secretary of State, naming the last Thursday in November, the 28th.

The proclamation follows: "Once again the season of the year has come when, in accordance with the custom of our forefathers for generations past, the President appoints a day as a special occasion for all our people to give praise and thanksgiving to God.

"During the past year we have been freed from famine, from pestilence, from war. We are at peace with all the rest of mankind. Our natural resources are at least as great as those of any other nation. We believe that in ability to develop and take advantage of these resources the average man of this nation stands at least as high as the average man of any other. Nowhere else in the world is there such an opportunity for a free people to develop to the fullest extent all its powers of body, of mind and of that which stands above both body and mind—character.

"Much has been given us from on high and much will rightly be expected of us in return. Into our care the ten talents have been entrusted; and we are to be pardoned neither if we squander and waste them; nor yet if we hide them in a napkin; for they must be fruitful in our hands. Ever throughout the ages, at all times and among all peoples, prosperity has been brought with danger, and it behooves us to beseech the Giver of all things that we may not fall into love of ease and of luxury; that we may not lose our sense of moral responsibility; that we may not forget our duty to God and to our neighbor.

"A great democracy like ours, a democracy based upon the principles of orderly liberty, can be perpetuated only if in the heart of the ordinary citizen there dwells a keen sense of righteousness and justice. We should earnestly pray that this spirit of righteousness and justice may grow ever greater in the hearts of all of us and that our souls may be inclined evermore both toward the virtues that tell for goodness and tenderness, and for gentleness and forbearance one with another and toward those to less necessary virtues that make our machinery and our machinery—for without these qualities neither nation nor individual can rise to the level of greatness.

"I therefore, I, Theodor Roosevelt, President of the United States, do set apart Thursday, the 28th day of November, as a day of general thanksgiving and prayer, and on that day I recommend that the people shall cease from daily work and, in their homes or in their churches, meet devoutly to thank the Almighty for the many and great blessings they have received in the past, and to pray that they may be given the strength so to order their lives as to deserve a continuation of these blessings in the future.

FROM PORTLAND TO CHICAGO. Edward Pason Weston Starts Out on Long Trip. Portland, Me., October 29.—Planning to repeat his feat of forty years ago, of walking to Chicago a distance of 1,230 miles in 26 days, Edward Pason Weston started at 5 o'clock to night from the Portland post-office amid cheers and good wishes of 1,000 people who had gathered to see him start. He is 69 years of age. Mr. Weston was greeted by a number of friends including former Mayor James P. Baxter, who watched his departure 40 years ago, and was accompanied to the South Portland city line by Joseph C. Sterlin, who, as a police officer, escorted him over the same route on the first walk. Mayo Clifford witnessed his departure and administered an oath that the conditions of the feat should be complied with.
