It Always Helps
says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. I wish every suffering woman would give

FRIDAY, SEPTEMBER 4, 1914.

Straw hats have begun to look like black numbers.

It looks as if the cotton crop, this year, is to be big for the market.

There are several places around town that the officials might look after and improve.

The Oyster is waking up from his summer nap, and will soon be in the soup.

If murder is a crime what is need less war?

American neutrality means also impartiality.

Here is a rift in the cloud: Potatoes are cheaper.

The look agent with the story of the war will soon be around.

Some men are satisfied with half a loaf, and some loaf all the time.

Every man who isn't prominent imagines he will be so one day.

So far the Greenlanders, Deelanders, and North Polons have not joined in the war.

If Russia is going to depend on its Grand Dukes it might as well give up the fight at once.

Summer is officially over but the warm weather is likely to linger a while longer.

From the consorted war news it is hard to tell which side is getting the best of the fight.

Great Britain may rule the world but Germany seems to be determined to know who the boss is.

The Russians seem to have decided to allow Germany to have her seat of government from Berlin to Paris. Good idea.

Greenville has a cotton storage house already. That's good, and the farmers should take advantage of it to hold their cotton.

The farmers here with tobacco Tuesday found out that buyers on the Greenville market are ready to pay for it.

Cowan says the war news sent out about lightning striking his house was overblown. The censor must have been asleep that time.

Mexico is finding it impossible to create any excitement in the news columns on account of European war is ready for peace plans to be applied.

By the humor of circumstances the German liner Krenprinzessin Cecilie too returns in Frenchman's Bay.

Wonder what effect the New York women thought their parade in protest of the European war should have.

We Americans in our fixed determination to be neutral should be careful in hotels to stifle preferences for "French fried" or "German fried" potatoes and order them served plain.

When President Wilson speaks the people listen.

After some men start they are to lay to sleep.

Please did not know what was coming to him, but he ought to.

Some women just have to kiss each other or remain unloved.

The sick man of Europe seems to be getting better than any of the rest of them.

We might line up the Kaisers, Czars and Kings and Counts "emic monie me" to see who started it.

It hurts our national pride to have the news for American papers censored by a foreigner.

If the Russian bear ever learns that he has been attacked there may be a rampus.

One trouble about a mountain fur war is that there aren't enough arwars to hold a reunion afterwards.

This is going to be a serious war after all. Word comes from Missouri that the demand for mules has almost doubled up in prices.

When Kings begin to make flattering speeches, it's high time for their subjects to take out more life insurance.

If all her foreign citizens should conclude to go back and fight there wouldn't be much left to little old New York.

This is a time when the news editor for once thinks he is a bigger man than the sporting editor.

What would have happened at Liege if Belgium had been devoted to neutrality and peace?

Almost any sensible woman would prefer being the wife of a lively and affectionate wage earner than the widow of a war hero.

Another horror of war is discovered in fact that American bonivants will now have to drink their American wines without imported labels.

Mr. Carnegie's plans seem to have worked out backward. He should have given Europe the Libraries and America the peace Palace.

We did not know until the other day that Cowan was getting an upish lightning was after him. Glad he escaped without harm.

There are some others who are eligible to membership in the Ananias Club.

We can hardly imagine anything that would be more welcome than the end of the European war.

The farmers with wads of tobacco money in their pockets will be welcome fellows from now on.

Why not fall in line and have a cotton storage warehouse in Greenville?

Summer absentees are turning their faces homeward. Those who did not get to Europe find it easier to get back.

Everybody make up his mind that Greenville is the best tobacco market in the trade and work accordingly.

Sometimes there is love at first sight, and then again love is blind.

Occasionally we see a war extra that has some real war news in it.

All efforts to wipe Belgium off the map have been unavailing.

A gentleman remarked yesterday that he gets better information in The Reflector than he does from the real papers. The Reflector gives the real news without padding, and in such form as to be read quickly.

With eight million Russian soldiers moving to the front to engage the German army, a fearful human slaughter may be expected when the forces meet.

Notwithstanding the war has cut off importations for the time being, there will likely be the usual number of Parisian hats worn in America this fall.

It has been suggested that the war in Europe will stop pretty quick if the United States puts an embargo on the export of food stuffs. For goodness sake stop the exports and let the war end.

The worst of the war news is yet to come.

Nations fighting to make peace is a very strange idea.

Tar River is running right by us as usual, but freight boats are not running on it.

The people of the United States have abundant cause to feel grateful that we have Woodrow Wilson in the presidential chair in such a trying time.

There is nothing to keep those Texas prohibitionists from going on a thirst strike.

It will soon be time for the new fall styles in aeroplanes.

The Meuse too, seems to be a River of Doubt just now.

Belgium must be getting tired of being used as a battle field by the rest of Europe.

Russia's press agent is sending out some amazing stories about the patriotic fever of the Russian people.

We wonder what Gen. Sherman would have called it if he had lived until today.

We hope the candidates will not try to make it a war in print.

It is to be found in pluck, and in mightily few other places.

The wheat growers think there is a golden field to the war cloud.

That is a comforting statement of Secretary McAdoo that the government will provide ample money to move the crops.

Nevertheless the exigencies of the times are not such as to make the American people regret that they haven't a military hero like Colo.

Just to think if Columbus had not discovered America, we would now be over on the other side in this mix up.

If that yatch race is pulled off over here it had better be kept within the three mile limit.

The best day's work South Carolina has done was in defeating Colonel Blease for the Senate.

It looks very much as if our own George Fred Williams, had fallen into the censor's toils.

A wave of sadness went over North Carolina in the announcement of the death of Mr. Henry Blount, which occurred Thursday, at the Soldiers' Home in Raleigh. As a soldier he was brave, as a lecturer he was thrilling and eloquent, as a writer he was brilliant. It was his mission to spread sunshine and happiness in the pathway of others, and now he has gone to reap a hundred fold reward.

Next Tuesday is the day for the Democratic primary in Pitt County and every democrat should go to the polls and help to select the best men for the nominees of the party. The men nominated in this primary are the ones who will be elected at the election in November, and no one should stay away from the primary thinking it is alright for anybody to be nominated. Above all things be careful about who is to represent the county in the legislature.

The Raleigh Times suddenly dropped the box head chuckling over the way it faked the item about sinking the American ships, when it saw what other papers of the State thought of it. The first explanations that the papers gave for the benefit of their readers were gleefully copied in The Times, but so far it has not reproduced the editorial condemnations of the disreputable act that stamped it as having a very low journalistic ideal.

It is passing strange that protectionists are not happy these days. For years they have fought to build and maintain a high tariff wall around the country. The condition they sought to obtain is established in a twinkling by the European war. There is no longer any competition with the pauper products of Europe. Foreign manufacturers are all excluded from our markets. We are "protected" to the limit and having no means of shipping, as a result of protecting our merchant marine to death, the beloved "home market" is our only resource. And still protectionists are not happy.

The attitude of the Administration on the question of war loans to European belligerents is eminently sound and sensible. This is a neutral nation. While American sympathies may be largely on one side of the great conflict, the American people are well content to maintain the policy of "hands off." Lending money to one or more of the nations involved in the struggle may not be a technical violation of neutrality, but unquestionably from a moral standpoint it is rendering assistance to a belligerent. Furthermore, as money provides the sinews of war, the best way to insure an early end to the conflict is to withhold the sinews. And peace is the one thing above all others that the United States earnestly wishes for as the speedy outcome of the war.

Annual Feast at Ingletaire. On Friday, at Ingletaire his beautiful country home two miles from town Mr. O. L. Joyner, kept up his annual custom of serving a barbecue dinner to the Greenville Tobacco Board of Trade and some of his friends. There were fifty seated around the long table arranged under the large oaks on the front lawn, and it was a feast indeed of which they partook. The barbecue was prepared "to the queen's taste" with side dishes for relish, and a dessert course of ice cream and cake followed, with cigars as a finishing touch.

The occasion also afforded a reunion of the old tobacconists who had come to this market for another season, and an opportunity for the newcomers to get acquainted.

Headaches and dizzy spells were common and in the morning I was sore and stiff. The kidney secretions were too frequent in passage, scanty and contained sediment which resembled brick-dust. Friends recommended Doan's Kidney Pills to me and I got a box. They relieved me very much, putting my back and kidneys in good shape."

UNFORTUNATE PREACHER DIES. Graduate of Davidson College Dies in Poverty in New York. New York, Sept. 1.—After barely eking out a miserable existence for several years, the Rev. John S. Brockington, a native of North Carolina, graduate of Davidson College, died at one time a brilliant preacher, died today in a little attic room in a house at 1115 Sixty-eighth street, Brooklyn, at the age of 65. Mr. Brockington's life had been composed of a series of misfortunes. At one time he was assistant pastor of the Central Presbyterian church, and has occupied other well known pulpits. After he had lost out in all of his ministerial work through dispensations in his congregations and other misfortunes, he finally was reduced to selling tea and coffee, from which he earned scarcely 25 cents a day.

Tobacco Markets Opened September 1st.

Good Beginning Considering Uncertainty of Prices, 10 cents was The Average.

Today the Greenville tobacco market began sales for the season. There was to great big rush at the opening—nor was such expected—but there was enough tobacco and enough farmers to make a lively start. Many came not to bring any tobacco for the first sale, but just to see how the market opened and how prices started off. It was not known just to what extent the European war would affect prices, so there was a disposition to make a little investigation before doing much selling. The aggregate amount on the floors of the seven warehouses was something like 150,000 pounds and that was a good beginning considering the uncertainty of prices and the busy time with the farmers.

The first sale was at the Gum warehouse which had 13,844 pounds on its floor. Everybody gathered around to see how the bidding would be when Auctioneer Z. T. Broughton started the first pile.

The second sale was at the Liberty where the offerings amounted to about 18,000 pounds. From here the buyers moved to the Star warehouse whose floor showed about 15,000 pounds. Then on to the Centre Brick which had around 30,000 pounds.

The Munford's came next with a layout of about 25,000 pounds, then Gorman & Gentry with about 60,000 pounds, and the sales of the opening day wound up at Johnston & Foxhall with about 18,000 pounds.

All the houses prices ruled pretty much the same, the average being 10 cents per pound. Most of the offerings being first primings, with only now and then a sprinkling of the real good article, hence the opening prices were quite general satisfaction.

The several warehouses are in good shape to handle all the tobacco that comes here, and they will do just as much for the farmer as can be done anywhere.

What J. J. Laughinghouse Will Work To Accomplish if Elected Member of The House

1st. A Recorders Court for Pitt County that will not either interfere with the jurisdiction of the Justice of the Peace, or of the Superior Court. One to which warrants can be made returnable by justice and can dispose of cases more rapidly and more satisfactorily to the State and the defendant, and save \$2,000, or more a year in jail fees and disposing of criminal cases within ten days, whereas it takes from thirty to ninety days, and saving a great deal of time for the Superior Court to give to more important cases.

2nd. Some reformations in our jury system, so that one or two men cannot negotiate what ten or eleven say is justice. Repeal the statute that permits the standing aside of a man who has served on a jury within two years, or who is not a free-holder. Change and simplify the rules of evidence, so that a witness may tell what he knows without constant war between counsel as to what the rule of evidence is.

3rd. Make the railroads give a 2 cent flat rate to every patron of their roads. They carry some at 2 cent and others at 2 1/2 cents. Everybody should be made to pay the same price. There is a discrimination against one class of people.

4th. Our fish and oyster industries are being destroyed by the stationed pound net, with its small mesh, setting day and night, Sunday included, and catching, every size of fish, whether merchantable, or too small, and thus destroying seventy-five per cent of the fish to catch twenty-five per cent to be sold. As a member of the Legislature of 1907, I procured the passage of a bill by the lower House to require a 1 1/2 inch mesh to the pound net, which would have relieved this situation, but it was killed in the Senate. Our oyster beds are being destroyed. Last year several hundred thousands bushels were taken from our eastern waters and planted in the waters of Virginia and Maryland which is literally destroying the interest of North Carolina. This should be prohibited.

5th. In all local matters coming before the people, I shall pass no bill that is not favorable by the majority of the people, or voted on by them. I ask the support of all loyal Democrats, and if I am nominated and elected, will represent the whole County and all the people.

Very respectfully,
 J. J. LAUGHINGHOUSE

STRASBURG VIRGINIA

Mr. Clark Fined Five Dollars and Cost-While Mr. Evans Was Found Not Guilty.

Monday morning at 9 a. m. the case of W. F. Evans and D. M. Clark was tried in Mayor's court. S. J. Everett appearing for Mr. Clark.

The first witness was Capt. J. T. Smith as state witness, I was standing on corner near Mayo's store when the affray occurred, heard some one say there's a fight I turned and saw Mr. Evans and Mr. Clark in combat both doing all they could, I ran to them and pushed Clark one way and Evans the other, there was no serious damage done, Evans receiving a few bruises, I did not see any deadly weapons. Both were fighting willingly but I did not see Evans hit Clark, both had clean hands when I parted them. I saw no knucks.

The next on the stand was Mr. Evans. Stated That when he and Clark were fighting he had his hands under my arm, when I passed by Dr. Noble's office I saw Clark in there with some other parties I kept on toward Main street and on my way some one ran by me but I did not pay any attention to it, but just as I was turning the corner but of 41 1/2 street into Evans or Main St., Mr. Clark showed up from parts unknown whether he came out of Mayo's store or out of the ally I do not know but at any rate I was assaulted by Clark, just as I saw Clark he had his coat on his arm he began to say something to me or about me I could not understand what it was I about this time he threw his coat aside and ran into me, knocking my glasses off, at this time I dropped my mail and all the books I had but two, Clark had some hard substance in his hand and struck me behind the head cutting the skin it could not have been his naked hand, I did not strike him every where he struck me he cut or skinned me, he did not have time to strike him, he struck my hands and cut them twice. I do not know what he had in his hand but he certainly had some hard substance in his hand, I threw one of the books I had in my hand at him, but could not get to him, I would have done had I gotten hold of him, all I know is whatever he hit me with was metal, the scar I received in my forehead could not have been by his naked fist.

I had not spoken to Mr. Clark in over two years not since he called me a ball-facelike, in an article published in the Reflector.

I want to say that Clark did not knock me down he struck me and I slipped and fell on my hands.

D. M. Clark was next to be called on the stand, he stated that I got direct from my office to Mayo's store I had not seen Mr. Evans until I got in front of Mayo's store I had my coat on my arm, when I saw Evans I threw my coat to one side and remarked to Evans you have lied on my family and I will not stand for it, I struck him with my fist, I did not have anything else in my hand, I knocked him on his hands and knees and if I had wanted to I could have did him bodily harm but waited every time for him to get up and give him a chance and did all I did to him with my naked hand, I admit I had a ring on my left hand and I struck scratches both hands and if he received scratches I possibly might have been this that I did it, I did not have anything in my hands I had clean hands, Mr. Evans threw one of his books at me I had not been in Dr. Noble's office at all that morning, Evans continuously kept striking at me he struck at me as hard he grunted but I kept backing in order to give myself good room.

In order to give myself good room, Clark was not in my office at all the morning of the affray, I had not seen Clark until after the fight I was in my office when Evans passed on his way to the Independent and was there when he came back and Clark was not there, I had not seen Clark until some one remarked there is a fight I ran to the door then out where the fight was going on, I did not say any thing to them and I did not see any weapon, further more if a man had hit another with knucks as Evans was struck it would have been on his face, No one came out left needed any more, No one came out of my office and ran towards main street or Mayo's store.

Dr. Thigpen was next called to testify, he stated that he was in Dr. Noble's office and Gus Forbes was also in there, I had not seen Clark until Forbes remarked there is a fight, I ran to the door and saw Clark, I went up in the crowd, I saw Clark and Evans but did not see any weapons and did not hear any statement made by either.

Larry James was called to testify he stated that he saw Clark coming down the street and that he was in some four or five feet of Evans and

President Names First Sunday in October as Day of Prayer for Peace

Washington, D. C., Sept. 8.—President Wilson today signed a proclamation calling on the people of the United States to pray for peace in Europe. The proclamation sets aside Sunday, October 4, as a day of prayer. The President's proclamation follows:

"Whereas, Great nations of the world have taken up arms against one another and war now draws its horrors into battle when the nations of men into battle when the counsel and statesmen have not been able to save from the terrible sacrifice;

"And whereas, in this as in all things, it is our privilege and duty to seek counsel and succor of Almighty God, humbling ourselves before Him, confessing our weakness and our lack of any wisdom equal to these things;

"And, whereas, it is the especial wish and longing of the people of the United States in prayer and counsel and all friendliness to serve the cause of peace;

"Therefore, I, Woodrow Wilson, President of the United States of America, do designate Sunday, the fourth day of October, next, a day of prayer and supplication and do request all God-fearing persons to repair on that day to their places of worship, there to unite their petitions to Almighty God, that overruling the counsel of men, setting straight the things they cannot govern or alter taking pity on the nations now in the throes of conflict, in His mercy and goodness showing a way where man cannot see, He vouchsafe His blessing, bestowing peace again and restore once more that concord among men and nations without which there can be neither happiness nor true friendship nor any wholesome fruit or toll or thought in the world; praying also to this end that He forgive us our sins, ease our anxieties and His holy will and steadfastness and many others and lead us in the paths of obedience to places of vision and to thoughts and counsel that purge and make wise.

"In witness whereof, I have hereunto set my hand and authorized the seal of the United States to be hereunto affixed.

"Done at the City of Washington this eighth day of September, in the year of our Lord, one thousand nine hundred and fourteen, and of the independence of the United States and thirty-ninth of the said Republic of the United States of America the one hundred and thirty-ninth.

Witness my hand and the seal of the said Republic, this 8th day of September, 1914.

By the President:
WILLIAM JENNINGS BRYAN,
Secretary of State.
