

DO NOT DRINK ICE WATER!

ALLEN'S ROOT BEER EXTRACT.

For a number of years we have prepared a package of Medicinal Roots, etc., for making Root Beer, which has met with considerable favor; but from time to time we have received complaints from our customers that they had not facilities for properly extracting the virtues of the ingredients. To obviate this difficulty we have prepared this Extract from precisely the same articles contained in our packages, which not only greatly simplifies the process of making the Beer, but also avoids the trouble of boiling and straining that is necessary in preparing Beer from packages. These advantages, we feel confident, will be appreciated by all who enjoy this healthy and refreshing beverage.

In Summer, when one requires more drink, ice water is hardly the thing. Allen's Beer Extract makes a splendid drink for children, being made from Roots and Barks, (Ginger, Dandelion, Hops, Wintergreen, etc.,) making a pleasant and healthy beverage. Price, 25 cents. One bottle will make six gallons of Beer. Just the thing for the Hay field, Shop or table, bright and sparkling, contains no alcohol, and is a medicine as well as a beverage, acting gently on the Kidneys and Liver. Sold by All Druggists and Grocers.

PREPARED ONLY BY
