

A BRAIN, NERVE AND LIFE GIVING TONIC.

## CHERRY MALT PHOSPHITES

as its name indicates, is a combination of Wild Cherry, Extract of Malt and the Hypophosphites of Lime and Soda, and is very pleasant and agreeable to the taste, and in a low state of the system it will be found particularly efficacious.

Cherry Malt Phosphites acts on the stomach and liver, increasing the appetite, assisting digestion, building up the weak, frail and broken down system, thereby making it applicable for Dyspepsia in its various forms; Loss of Appetite, Headache, Insomnia, General Debility, Malaria, Lack of Vitality, Nervous

Prostration or Exhaustion, and during Convalescence.

It contains blood-making, force-generating and life-giving properties, pre-eminently calculated to support the system under the exhausting and wasting process of fevers and other acute diseases and to rebuild and recruit the tissues and forces, whether lost in the destructive march of such affections, or induced by overwork. It is friendly and healthful to the most delicate stomach, does not cause nausea or constipation. For mothers with young children it is unequalled and can be taken with impunity by the most delicate lady, infant, the aged or infirm, or by the sedentary student whose system has suffered from overtaxation of the brain. For overworked men or women, or all who are suffering from lack of *Vitality* or *Nervous Prostration*, and where there is a fair remnant to build on, will find it a wonderful relief, as it will reconstruct the most shattered and enfeebled constitution.

WE SIMPLY ASK A TRIAL. SOLD BY ALL DRUGGISTS. \$1.00 PER BOTTLE.
