

# Catarrh, Neuralgia & Headache

"NO MORE!!"

CUSHMAN'S  
MENTHOL  
INHALER.

CURES \*  
DISEASES OF THE HEAD INCLUDING  
\* HAY-FEVER, COLDS & BRONCHITIS. \*

MAN'D BY H. D. CUSHMAN, THREE RIVERS, MICH.

**M**ENTHOL is the active principle of  
OIL PEPPERMINT.

*Very volatile at ordinary temperature.*

CUSHMAN'S

Menthol

Inhaler

is so constructed that crystals of pure Menthol are held in a glass tube, in such loose condition that air passes freely through them, and is thoroughly Mentholized, conveying enough Menthol to the delicate membranes and nerves throughout the Head, Throat, and Lungs to produce the cool and exhilarating effect peculiar to Oil Peppermint, affording quick relief of inflammatory diseases; destroying disease germs and miasm, and curing diseases mentioned on other side of this card.

The INHALER is neat, clean, durable. Does not require renewing. Convenient to carry in the pocket, ready to use at any time. Lasts eight to twelve months.

**PRICE, 50 CENTS.**

Sold by all druggists, or sent by mail.

Write for circulars and testimonials.
