

AYER'S HAIR VIGOR.

The human hair is a feature so important to personal comfort and beauty, that men of ability have devoted years of study and experiment in order to become familiar with the laws of its growth,

The Vigor is not a dye; but daily applications for ε week or two so stimulate the roots and color-glands, that faded or gray, light or red hair, gradually changes to a rich brown color, or even black, as may be desired, after which the shade is maintained by occasional use. By its use, also, thin hair is thickened, and baldness often, though not always, cured. As a DRESSING for ladies' hair, there is nothing more agreeable than the Vigor. It is colorless, and renders the hair soft, pliant and glossy. To brashy, weak, or otherwise diseased hair, it restores vitality, and imparts the brilliancy and freshness of youth; while its immediate softening and beautifying effects are very lasting, making it the most economical as well as the best dressing in

the world.
