FOR INFANTS

RIDGE'S FOOD for INFANTS AND INVALIDS

Has received the most *unqualified approval* from Physicians, Matrons and Mothers of the highest character and responsibility, in this and other countries.

MULTITUDES OF INFANTS

are slowly starving at a period of infancy when development and growth are remarkably active, because of inability of mothers to furnish the necessary nutriment on account of overtaxing the nervous system, and by prolonged lactation, thus lowering the standard of health in both. RIDGE'S FOOD, from a chemical standpoint, is nearer to human milk than any other preparation.

RIDGE'S FOOD IS NOT A MEDICINE,

neither is it a new, untried preparation, having been in use for 30 years; but it is a *steam-cooked* food, wherein all the flesh-forming properties are carefully retained, and its extraordinary success is due to its intrinsic merit, containing as it does all the elements essential to growth and repair either in the Infant or the Invalid.

THE SUCCESS OF RIDGE'S FOOD

has caused the market to be overrun with worthless imitations. In asking for RIDGE'S FOOD *see that you get it.* Take no other. Can be had of almost any druggist. In cases of **Cholera Infantum, Dysentery, Chronic Diarrhoea, Cholera,** it is invaluable, as proved by testimonials from well-known Physicians of every school.

FOR TABLE USE.
