

MAYER, MERKEL & OTTMANN, LITH. N. Y.

SLEEP.

Many persons are kept awake at night by some slight nervousness, caused, it may be, by the worry of business, by family cares, or not unfrequently by undigested food. This wakefulness, from whatever cause, renders the night long and tedious and unfits one for the duties of the next day.

Relief from this unpleasant experience, and a good night's rest with refreshing sleep, may be obtained by taking small doses of Carter's Little Nerve Pills, as directed on the circular wrapped around the vial.

These pills are free from any form of opium or morphine, do not effect the bowels in any manner whatever, but are made solely for the relief of Nervousness, Sleeplessness, Dyspepsia and Indigestion. They may be used alone or in combination with the Little Liver Pills, and in either case will give the most perfect satisfaction.

While we take what we regard as commendable pride in the appearance of all our preparations, we think these little pills in particular are really handsome. Those persons who have always had a horror of taking pills, find no trouble in using these, and often compliment the makers on the evident good taste with which they are given to the public.

We therefore give you this advice: If you are nervous or dyspeptic, or either one or both, try Carter's Little Nerve Pilis, they cannot fail to benefit you. Dyspepsia makes you nervous, and nervousness makes you dyspeptic, either one renders you miserable, and these little pills cure both.

Price 25 cents.

Sold by Druggists everywhere, or sent by mail.
