### WHO WILL GET A PRIZE?

# To PUR YOUNG FRIENDS

We dedicate the First Two of our ALBUM SERIES,

# THE "BRIGHTON BELLE" AND THE "RUSTIC BELLE."

(THERE WILL BE SEVERAL MORE, MAKING THE SERIES COMPLETE.)

Our artist has charmingly pictured the Golden days of childhood bright with hope, so that even the aged feel their blood flow faster and dream that they are

young again while looking at them.

Now if you would prolong these happy years, obey implicitly the laws of health, eat and drink with moderation, breathe pure air, sleep nine hours a day, take but little medicine. If at any time you feel the least unwell begin immediately a course of diet and regulate your Stomach by the use of

### QUAKER BITTERS.

Give nature a chance and you may dispense with a Doctor almost entirely, at the small cost of a few bottles of QUAKER BITTERS, the STANDARD FAMILY MEDICINE of New England for the past 25 years.

We must be candid and tell you two reasons why

we send you these BEAUTIFUL CARDS.

FIRST.—Is that if you are suffering from any of the complaints mentioned in our circular, that you may know you can be cured at a very trifling expense.

SECOND.—To say that we mean to offer a valuable prize to any one returning to us the complete Album series, and with them One QUAKER BITTERS Label printed by us and put on the bottle.

## Dyspepsia case of 12 years standing Cured.

I feel I owe so much to Quaker Bitters, that I most gladly add my testimony to their great worth. I have been a sufferer from dyspepsia and its accompanying evils for a long time. My sufferings both mental and physical cannot be described, only those who have been similarly afflicted know. I considered my case hopeless. For the past twelve years I have not been able to take a mouthful of food for breakfast without vomiting, headache and faintness. Suffering and despair seemed my lot. The medicines which I took seemed to afford no relief. In fact all the medicines that I tried proved worthless in my case. I was at last induced to try Quaker Bitters and what seemed almost a miracle has taken place gradually. I commenced to feel better and now after following your directions, I am able to eat a hearty breakfast with a relish, without pain or distress. I feel like a new being, my spirits, strength and hope have returned. I earnestly recommend this most valuable medicine to all suffering as I did. Why suffer when you can be cured as I have been. Truly Quaker Bitters are a blessing to mankind. Mrs. M. E. MESERVE, 283 Shawmut Ave., Boston.
