THE STAR-SPANGLED BANNER

Oh say! can you see by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming?
Whose broad stripes and bright stars, through the perilous
fight,
O'er the ramparts we watch'd, were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof thro' the night that our flag was still there.
Oh, say, does that Star-spangled Banner yet wave
O'er the land of the free and the home of the brave?

On the shore, dimly seen thro' the mists of the deep,
Where the foe's haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep,
As it fitfully blows, half conceals, half discloses?
Now it catches the gleam of the morning's first beam,
In full glory reflected now shines on the stream;
'Tis the Star-spangled Banner, oh long may it wave
O'er the land of the free and the home of the brave!

Oh, thus be it ever when free-men shall stand
Between their lov'd homes and the war's desolation!
Blest with vict'ry and peace, may the heav'n-rescued land
Praise the Pow'r that hath made and preserved us a nation!
Then conquer we must, when our cause it is just,
And this be our motto: "In God is our trust!"
And the Star-spangled Banner in triumph shall wave
O'er the land of the free and the home of the brave!

PURPOSE OF THE ORIENTATION PERIOD

FOR FRESHMAN

This is your introduction to college life and to this college campus as a student. We hope the introduction and subsequent associations here may be mutually pleasant and profitable. During the next three days we shall try to acquaint you with several features of college life. By learning these first lessons well, you may avoid inconvenience later and have greater satisfaction in your college experience.

To some there is a fairly wide gap between high school and college: the latter is more complex and exacting, it is less receptive to excuses, and it may expect a higher degree of skill in the various things you do.

This special period of three days is set apart for your introduction to college—to give you a chance to learn about certain routines, practices, requirements, duties, and privileges of a college student, while other students, except a few helpers remain away from the campus.

Do not hesitate to ask questions about anything that concerns your relationship to the college, the students, curricula, rules, etc. You are among sympathetic friends who were, likewise, freshmen just a few years ago.

FOR TRANSFER STUDENTS

This is your introduction to citizenship as a member of a new college community. Your success as a student depends largely on how well you make this adjustment. Dr. Orval L. Phillips, Registrar, is your special counsellor for adjustment to citizenship on this college campus. Please meet him as scheduled elsewhere in this program and consult him about your adjustment problems during the college year. He will be pleased to serve you at any time he is called upon.

INTRODUCTORY EXPLANATIONS

●

The college dormitories will be open on Monday, September 6; the college dining hall will be open to students for the evening meal.

Students arriving Tuesday morning should arrive not later than 8:30 A. M. in order to find their rooms and then be ready for the beginning of the official program at nine o'clock in the Wright Auditorium.

MAJORS AND MINORS

You may select from the catalog any curriculum that you may desire. One major or one minor must be selected from the following fields: English, Foreign Language, Mathematics, Science and Social Studies.

ADVISERS

Each student has an adviser whom he should feel free to consult on any matter connected with his college work and college attendance. Get acquainted with him at once and cultivate that acquaintance at every opportunity; he is here to help you and to serve you. You will find a list of the advisers by curricula in this bulletin.

Choose your majors carefully, for the curriculum in that major is the road map by means of which you will travel in search of education, certain skills appropriate to your native ability, and profitable employment after your college course is completed.

A.B. AND B.S. DEGREES

This college offers a general liberal arts degree (Bachelor of Arts) and the professional education curriculum leading to the Bachelor of Science degree. The Bachelor of Science degree will be awarded to those students who prepare for

teaching and the Bachelor of Arts degree for those who do not pursue the professional education curriculum. The Bachelor of Arts curriculum will not require the courses in education that qualify for the teacher's certificate. Consult your advisers for details concerning these two degrees.

Students desiring to enter certain professional fields other than education will be able to take at East Carolina College one to three years of work preparatory to entering colleges giving full curricula in those fields. Fields in which work is offered: pre-medical, pre-dental, laboratory technician, pre-nursing, pre-legal, dietetics, pre-engineering, two year curriculum in Forestry and two year curriculum in Agriculture.

EXTRA CURRICULAR SKILLS

It is advisable for a student to develop during his four years in college one or more specific skills that will add to his equipment as a teacher and enable him more readily to secure a teaching position. Superintendents and principals in a great many cases want a teacher of a particular subject who can also direct certain extra curricula activities such as, having charge of the library, directing a glee club, playing the piano, coaching one or more athletic sports, coaching dramatics, teaching public school music, and supervising school publications. The prospective teacher without one or more of these specific skills is often at a disadvantage in securing a teaching position. The most frequent calls for teachers with extra curricula skills are for teachers who can play the piano, direct public school music, and coach athletic sports.

BUILDINGS AND DEPARTMENTS

Please note the abbreviations used on schedules for the names of buildings in which classes are held, and the departments using each building:

- A. AUSTIN BUILDING: English, Foreign Language
Mathematics, Music, Art, Social Studies, A.R.O.T.C.
- F. FLANAGAN BUILDING: Business Education, Home

 - b. The equivalent of the completion of the first year of college work, or
 - c. Graduate from a high school with a minimum grade point average of 2.0.
- To be admitted, the applicant must show evidence of ability to do college work.

Students generally begin about:

40 quarter hours of credit the first or freshman year.

FOR REFERENCE**Do Not Take From This Room****THE OLD NORTH STATE**

Carolina! Carolina! Heaven's blessings attend her!
While we live we will cherish, protect, and defend her!
Tho' the scorner may sneer at and witlings defame her,
Our hearts swell with gladness whenever we name her.

CHORUS:

Hurrah! Hurrah the old North State forever!
Hurrah! Hurrah! the good old North State!

Tho' she envies not others their merited glory,
Say, whose name stands foremost in Liberty's story?
Tho' too true to herself e'er to crouch to oppression,
Who can yield to just rule more loyal submission?

Then let all who love us, love the land that we live in
(As happy a region as on this side of Heaven)
Where Plenty and Freedom, Love and Peace smile before us.
Raise aloud, raise together the heart-thrilling chorus!
