Hello Mack,

Well I'll bet you will never guess where I ended up. That's right Sampson Tech. and when ever they start shooting at you you just call on John Maley the Gunnery Mate. That's right.

Well hope you like school as well as I like what I am doing. We don't get as many liberties as you but I don't seem to mind that a bit because it gives me more time to study. And I seem to need it.

Tuesday we got a $5\frac{1}{2}$ hr. liberty and went to Geneva and met the same girls you and I met they were asking where you were. We just talked to them for a while and went "wolfing" again picked up two other Babes and had a pretty good time.

Morley is in the same class as I am.

Are there any fellow out there I would know.

Well that's a boat all I have time
for so

So Long.
John.
