Dear Frank,

I received your letter & was very glad to hear from you. I really didn't expect you to ans. my letter so quickly because I thought you wouldn't have time, but I was glad to hear from you. I don't know what got in me tonight but I finally got in the mood of writing. You should see all the homework we got tonight in all our four subjects. ~~to~~ get homework every night. I got the 2nd lunch but I don't like it. I guess its because I'm used of having the first lunch. But the day passes by quite fast. Then when I go to work why it seems like I just get in there and before you know it its 5.30. Thats the time I get out. I work all day Saturdays. I'll make about \$8 this week. We're learning the (~~fundamentals~~ ~~fundamentals~~)

fundamentals of machines, and then the second half year
electricity & then shop theory. Is that the same thing
you're studying about? What we're learning is hard
and complicated but it's interesting & the time
goes by fast. I've got Mr. Leahy. He's pretty good
he seems to know what he's talking about & he
makes you laugh. Frank Scaduto is in my room
but that's the only period. How are you making out
in your work? What will you be when you finish
your school ~~training~~ training? and when will
you finish it. I weigh 134 with ^{suits} ~~trunks~~ and
I am about 5'7 $\frac{1}{2}$ " tall without my shoes I'm taller
than papa. I got a letter today from Mutt & "he knows
how to drive an ^{ambulance} ~~ambulance~~ now." Everyone is
fine at home so don't worry. Tell Frank
The kids want to go to bed so I guess I'll
close now
Tony.
