February 10, 45
Saturday Note

Dear Frank

What do you think of
the Pacific? I suppose
there are a whole lot of places you
would much rather be in
but believe me some of
that tropical heat would
be good for what ails
the Berkshires. I suppose
they've written to you about
all the snow. Each day
there seems to be a little
added on. It isn't that
I don't love the snow
but I don't like thinking
of all that messy stuff
that we'll have to put up
with in the spring.

There is nothing new
here in town just the

2.
same old routine of going
to work every day. I slept
Sunday of course. There are
a lot of New Yorkers up to
ski for the week-end &
they certainly think they can
take the city over when
they're here. I'd like to
try out those trails but no
one else would care & I
haven't the courage to alone.
Skiing calls for a lot of
equipment too.

You said my letters
didn't contain much
about myself. If they
did I'm afraid you'd
find the letters less
interesting than they are
now. My gal friends
perhaps go to a show which
you probably have seen - go
bowling once a week and

3
I'm the lowest scarer of
the five - any five - any maybe
if the weather and ice is
decent we go skating.

Marian Bayer received
a letter from Larry Griley
this week. He has been
typing them lately so it
must not be too primitive
where he is stationed.

Hoping this finds you
well & basking in the
sun, I will close with
Larry's address & hope the
two of you meet up soon.
There's nothing like a familiar
face from home to brighten the day.
