Hello Brother.

It's good to hear that you finally received my letter. For a while I thought that someone was fooling with our mail. I had been writing to you regularly. Well it looks as though you will be out to see soon. All I got to say is be careful because I know what it's all about and I've been through plenty of it. In fact I'm still in it. I guess you know what to do just not a kid anymore. Who knows we might meet one of these days. I do see a lot of soldiers now & then so I'll be looking out for you. I got a letter from our sergeant the same thing you did about selling my pictures in the paper. It could be & might it is I've had a few taken. If I was to look at it myself I could tell you. Did you hear that Catherine got a baby boy. When she'll be coming over first, hey. Well brother got to close not much more to say. Be careful & send love. Brother

Mario
