To the Brothers
Just received two of your letters, one was dated
May 7, & the other the 7th of May. It was really
good to hear from you. I'm not worry about writing
too often to me. I understand well enough I'm
in the same boat. I still haven't any idea when
you are sent it but I guess it doesn't make much
difference. I imagine it's been pretty rough. In
one of your letters you mentioned about the fellows
coming home after 18 months & the way they built
them up & then don't send them. The censor crossed
out a word but I made it out pretty good. I imagine
you heard about the way push out here & it
keeping [redacted] [redacted] [redacted]. But nothing to worry
about. I'm still in fine shape. Her jaw long
I don't know. My luck can't hold out
forever. I'm not in that so called place any
more. There's no looking around for me. Will
Brother get to close now & don't worry if I don't
write often. Always & take care. Good luck
mutt.
