Dear Frank,

Received your letter
and was glad to hear
from you.

I'm feeling fine
and hope this finds
you the same.

What does it always
do there rain - rain
and rain some more.

I like ~~some~~ summer
weather but not rain

Yes, leave it up to
"Little Italy" to do
all the celebrating when

2

the time calls for celebrating
I never get tired of
watching any of those
block parties and if there's
dancing (there always is)
you can always count me
in. I don't go in for
drinking so all those
that do can have my
share too.

I haven't been going
to the movies lately.
Main reason because
I saw all the pictures
now playing at the
Local theaters while they
were on Broadway. That's
what I get for going

there.

I don't know if I told you about the elevator strike there was around here. Well I work on the ninth floor and none of us felt like walking up. So the first morning of the strike a whole bunch of us bought our lunches and went to the Paramount. We had some time eating our lunches during the picture "Luff's Lavern". The picture was swell and had plenty of laughs.

#

of course we had a little giggling fit of our own. It's a wonder we didn't get thrown out.

The talk of the town is that Sinatra is coming to the Paramount at the end of Oct.

You can bet your life I'll be there to see that man. No comments from you. I get with enough fights over him but I still like him. Too bad they don't sell tickets before time. Regards from the girls here. Jessie.
