

SECTION II

PERINEUM, PELVIS, AND THORAX

Male Perineum

- No. 1.—Superficial Muscles, &c.
- No. 2.—Root of Penis.
- No. 3.—Triangular Ligament
- No. 4.—Structures covered by Triangular Ligament.
- No. 5.—Prostate Gland from the Perineum.

Pelvis

- No. 1.—Pelvic Brim and Cavity, viewed from above and in front (Female).
- No. 2.—Vertical Mesial Sagittal Section through the Male Pelvis, to show the Viscera and the Peritoneum.
- No. 3.—Vertical Mesial Section of the Male Pelvis, to show especially the Viscera.
- No. 4.—Vertical Sagittal Section of the Male Pelvis slightly to the left of the Mesial Plane.
- No. 5.—To show the Nerves and Vessels and the course of the Ureter and Vas Deferens.
- No. 6.—Side Wall of the Pelvis.
- No. 7.—Coronal Section of the Pelvis, with the Bladder and Prostate *in situ*.
- No. 8.—Same as No. 7, after removal of the Bladder and Prostate, and of the Anterior Wall of the Anal Canal.
- No. 9.—Rectum from behind.
- No. 10.—Rectum, &c., in relation to Sacrum.
- No. 11.—Anterior relations of the Rectum from behind.
- No. 12.—Seminal Vesicles and Prostate from behind, *in situ*.

Female Perineum

- No. 1.—Superficial Structures
- No. 2.—Triangular Ligament and Deep Structures.
- No. 3.—Levator Ani and Bladder, from the Perineum.
- No. 4.—Bladder, &c., in relation to the Pubic Arch.

Female Pelvis

- No. 1.—Rectum, from behind.
- No. 2.—Anterior relations of the Rectum from behind.
- No. 3.—Bladder, Ureters, and Urethra from the front.
- No. 4.—Broad Ligament, Uterus, and Vagina from the front.
- No. 5.—Uterine Vessels and contents of the Broad Ligament from the front.

Thorax

- No. 1.—Anterior view of the Thoracic Wall, showing the position of Bony and other Landmarks in the Male.
- No. 2.—Dissection of the Anterior Thoracic Wall.
- No. 3.—Wall of Thorax.
- No. 4.—The Pleural Membranes seen from the front.
- No. 5.—The Lungs in relation to the Chest Wall, seen from the front.
- No. 6.—Pleural cavity and lower border of Lung, viewed from the right side.
- No. 7.—Lower lateral limit of Pleural Cavity and Lung, viewed from the left.
- No. 8.—The Heart and Pericardium with the Sternum and Left Lung in position.
- No. 9.—Pericardium, Phrenic Nerves, and Thymus Gland, seen from the front.
- No. 10.—Anterior surface of the Heart in topographical relation to the Chest Wall.
- No. 11.—Interior of the right side of the Heart, to show the Valves, &c., in position.
- No. 12.—Interior of the right Auricle and Ventricle in topographical relation to the Chest Wall.
- No. 13.—Interior of the Ventricular Chambers from the front.
- No. 14.—Position of the Valves in relation to the Chest Wall.
- No. 15.—The superior aperture of the Thorax, and structures passing through it, viewed from in front and slightly from above.

Mediastina

- No. 1.—Interior of Thorax, after removal of the Thymus Gland, the Pericardium, and its contents, &c.
- No. 2.—The Heart Bed, viewed from the left side.
- No. 3.—The Mediastinal Partition, viewed from the right side.
- No. 4.—The superior Mediastinum, viewed from the front.
- No. 5.—Superior Mediastinum and upper portions of the Pleural Membranes, viewed from the front.
- No. 6.—The Aortic Arch and the Posterior Mediastinum.

Lungs

- No. 1.—The Lungs, viewed from above and in front.
- No. 2.—Mediastinal surface of the Left Lung hardened *in situ*.
- No. 3.—Mediastinal surface of Right Lung.
