Professor P. Adler presented a new course proposal, HIST 2410, the Individual and Society in Modern Europe. Professor Adler stated they would plan to delete some periodical titles presently on subscription and hopefully add new titles if necessary to support the new course. Professor Richards moved to accept the catalogue change as amended and the new course from the History Department. Professor Holt seconded the motion and the motion passed as amended.

Professor John Daniels, Mathematics Department presented a catalogue change for consideration. The proposal to make CSCI 3600 a required course for B.A. Degree Mathematics Major was explained. Professor Hamilton moved to accept the change, Moore seconded, and the motion passed.
