Dear Mr. Howell:

Thank you very much for your recent letter in which you expressed your concern over Administration proposals to reduce federal student financial assistance funds. It was good to hear from you and to have your thoughts on this important matter.

In addition to proposing the elimination of the Department of Education in favor of the creation of the Foundation for Education Assistance, the original Reagan budget recommended significant cutbacks in all education budget items. As you correctly point out, one particular area is student loans. In the Domenici budget proposal, now endorsed by the Administration, student assistance programs would be frozen at FY 82 budget authority levels and cutbacks would be accomplished in the Guaranteed Student Loan program, an entitlement program, through legislative changes. Of concern to me is that testimony presented before our Budget Committee indicates that the private money markets will not be able to meet the demands of students and many will find the avenue of improvement through a college education closed to them.

You will be glad to know that the full Appropriations Committee has voted to reject the reduction request of the President as it pertains to this year and has provided an additional \$321.8 million for student loans. This Urgent Supplemental Appropriation bill will be coming to the House floor shortly, and I will support it there as I did in Committee.

With kindest regards, I am

Sincerely yours,

*Bill Hefner*

*Re: Resolution 82-34*

May 12, 1982

Mr. John M. Howell  
Chancellor  
East Carolina University  
Greenville, North Carolina 27834

Dear Chancellor Howell:

Thank you for contacting me regarding cuts in student aid programs proposed by the Administration. I appreciate your comments and I will certainly keep them in mind as future budget and appropriations legislation is considered.

I have been concerned that the cuts proposed by the President single out student aid programs for much more than a fair share of the cuts necessary to reduce the federal deficit. The Education and Labor Committee, on which I serve, has recommended much higher totals for student aid programs to the Budget Committee than those contained in the President's budget. This now goes to the Budget and Appropriations Committees.

You can be sure that I will continue to work for the best possible level of support for student aid programs.

Thank you again for letting me know of your concern. Please continue to inform me on matters of importance to you, and let me know if there is ever a way in which I or members of our staff can be of assistance to you.

Sincerely,

*Ike Andrews*

*Re resolution 82-34*

Mr. John M. Howell  
Office of the Chancellor  
East Carolina University  
Greenville, North Carolina 27834

Dear John:

Thank you for sending me the resolution passed by the Faculty Senate concerning student financial aid. I have heard from almost every institution of higher education in North Carolina. I appreciate your position that funding reductions for these programs would adversely effect student enrollment. I will keep these views in mind as we determine funding for student financial assistance.

It is the desire of the Senate and the Administration to provide financial aid to every college student who needs it in order to stay in school. This goal is obtainable if adequate funding is provided along with a sensible needs analysis test and a requirement for satisfactory academic process.

While the current economic crisis places some constraints on funding for all programs, I am very hopeful that we will be able to continue aid to those students who need it.

Best wishes,

*John*
