LIBRARIES COMMITTEE RESOLUTION

Whereas academic library facilities are a primary focus and means of scholarly activities at all levels in a comprehensive University, and

whereas East Carolina University is the third largest of the University of North Carolina constituent universities and undergoing robust continued growth, with commensurately large and increasing academic library collections and activities, and

whereas East Carolina University's academic library square footage per f.t.e. student enrollment ranks fifteenth of the sixteen University of North Carolina system campuses, and

whereas the resulting drastic shortage of space places harsh restraints on the availability of library time and space for students and faculty and correspondingly hampers their academic and professional growth,

Therefore, be it resolved that:

the Faculty Senate of East Carolina University supports the administration of East Carolina University in its giving major expansion of Joyner Library the highest priority for capital expansion of academic facilities on this campus.
