For seventeen years, I have served on the faculty of the Physics Department, rising to the rank of professor in 1979. Active in the research areas of atomic physics and biophysics, I have published more than 35 journal articles and 65 abstracts. I served as Director of the ECU Accelerator Laboratory until 1977 and then as Director of Digital Systems for the Physics Dept. Continually active on academic committees, I have served as the Chair of the Faculty Computer Committee for four years and Chair of the Libraries Committee for three years. I have also served on a number of administrative committees including, most notably, as Chair of the Computer Planning Task Force in 78-79 and on search committees for the Director of Joyner Library and for the Director of Computing and Information Systems. (Incidentally, for those of you who miss Carl, I share three of the four Meyer-Briggs personality traits with Carl. For any of you who do not miss Carl so much, I differ significantly from Carl in the remaining trait.)
