

Governance Committee
Motion on University Committees on Athletics

After reviewing the data submitted to us by the universities within the UNC system (copy attached) we recommend that President Spangler encourage the Chancellors of the constituent universities to adopt the following:

1. The university's committee on athletics should
 - a. ~~have a voting majority elected by and from the faculty;~~
 - b. elect the chair from the faculty membership;
 - c. include the NCAA representative among its membership;
 - d. report at least annually to the faculty;
 - e. have a written charge that is included in the Faculty Handbook;

2. The university's committee on athletics should include in its charge oversight responsibility for the maintenance of the principle of sound academic standards in relation to its student athletes. The administration should provide to the committee the necessary information to fulfill this charge.

3. The NCAA representative should report annually to the Faculty Council/Senate on how the university's vote has been cast on each issue brought before the NCAA and why.
