MEMORANDUM

TO: Sue Hodges, Director, Planning & Institutional Research
FROM: Dorothy H. Muller, Acting Dean *DHM*
DATE: November 2, 1990
SUBJECT: UNC Mission Review/Ten-Year Plan

The General College is not currently a degree-granting unit; therefore, we have not submitted a proposed ten-year academic program plan. We have discussed at length, however, the need for the development of an interdisciplinary degree or a general studies degree at East Carolina University. Such a degree would be very attractive to the nontraditional student and to the traditional student who has interests in several areas. The degree could also allow for additional development of the international studies program. If the administration deems such a degree appropriate, we would be happy to develop the program plan and have it housed in the Office of Undergraduate Studies.
