7. Bank the following:
 - Jour 3800 (changed to COMM 3240)

Richards moved to table the proposals; Daugherty seconded. The motion failed. Grossnickle pointed out that COMM 3010 seemed to deal heavily with social psychology and social psychology should be a prerequisite to the course; also 4030 overlaps with business and psychology. Richards then moved to table the following courses: COMM 3211 until committee members were able to study the syllabus; and COMM 2510, 2520 indefinitely; Grossnickle amended the motion to include COMM 3010 and 3012 (COMM 3010 a prerequisite to 3012) until after further discussion between the Communication and Psychology Departments; and the motion was further amended that each item would be voted on separately. Wittman seconded the motion.

As service courses, several departments would be at a disadvantage in being able to graduate their students on time if 2510 and 2520 were 3 s.h. courses. However, letters received by the Committee Chairman indicated about a 50/50 break in departments being for and against the change. It was pointed out that some departments had not been consulted although letters had gone to the deans of each school.

The Committee voted to table COMM 3211 until it was presented with a syllabus. The motion to table 2510 and 2520 failed, with 4 voting for the motion and 6 against.

Grossnickle moved to require a social psychology prerequisite COMM 3010. This motion was seconded by Richards. The motion failed.

Neal moved that the remainder of the package be accepted as amended; Topper seconded the motion. The motion passed.
