#### AD HOC COMMITTEE ON ACADEMIC REGULATIONS REPORT

The Ad Hoc Committee on Academic Regulations requests that the Faculty Senate consider the following recommendation in conjunction with the proposed changes in the drop policy:

That the University establish an electronic database containing course outlines for each course offered during the current semester by East Carolina University faculty. The outline would indicate instructor expectations including grading and attendance policies.

Rationale: The open hearing on the proposed changes in academic regulations and the ensuing discussion on dropping and adding courses pointed out the lack of information available to students when making course selection decisions. If this recommendation were implemented, students could make more informed decisions on course selection.
