## MEMORANDUM

TO: ECU Faculty

FROM: Allan J. Rosenberg, MD, Chair  
 Libraries Committee  
 Faculty Senate

DATE: April 27, 2000

The Library Committee has received communications from faculty members regarding concerns and suggestions regarding services at the Joyner Library. We are asking all faculty to participate in an online survey that will help us assess the needs and make recommendations to the Joyner and Health Sciences Libraries through the Faculty Senate representative. The committee designed online survey will only take a faculty member a few minutes to complete. We are asking you as faculty to make the survey a success. Only by your support and that of your fellow faculty members can appropriate input to enhance services and have the faculty's voice be heard by the Libraries of our University.

To access the Library Survey, from your homepage type <http://ecu.edu/fsonline>. Click on survey and complete. Should you have any problems, please call Lori Lee in the Faculty Senate Office at 328-6537.

Thank you again for your support of this endeavor. Should you have any questions regarding the survey, I would appreciate your contacting me. The survey went online as of the week of April 10, after spring break, and I am asking you to encourage your faculty to complete the survey no later than May 12.
