

FACULTY WELFARE COMMITTEE REPORT

Resolution related to the Health Plan Budget Deficit

Be it resolved, that as informed and educated citizens contribute to the cultural and economic capital of the State of North Carolina and as a system of quality higher education provides educated and informed citizens and as health insurance benefits enhance the efforts to attract and employ qualified faculty and staff, individual faculty members contact members of the North Carolina legislature and urge them to find creative ways to eliminate the health plan budget deficit rather than passing increased costs and decreased benefits on to State employees.
