Memorandum

To: Dr. Robert Morrison  
Chair, Faculty Senate

From: Chancellor William V. Muse *W. Muse*

Re: Resolutions from April 23, 2002 Meeting

I have reviewed the resolutions that were adopted by the Faculty Senate on April 23, 2002 and have approved the recommendations presented with the exception of Resolution 02-19.

The resolution, 02-19, concerning the location of three secondary education BS degree programs deserves further study. The issue of how the institution can best prepare teachers of mathematics, social studies, and English has not, in my estimation, been adequately addressed and that is the most important issue in this case. I am, therefore, not accepting Resolution 02-19 and will make a decision on this matter when I am satisfied that the central issue has been resolved appropriately.
